STATEMENT OF SIGNIFICANCE:

The New York Creek Roadhouse was constructed in 1911 during the Gold Rush activities in the ~~City of~~ Ruby Mining District. Records indicate that the structure was short lived and was probably put out of business in 1913 by the construction of the Halfway Roadhouse (14 mi) in the same vicinity.

The N.Y. Roadhouse is significant because of its early association with the initial mining activities in the District.
