

II

ALASKA GAME REGULATIONS

No. 27 Governing recreational, subsistence and commercial uses of Alaska's Wildlife

HOW TO USE THIS BOOKLET

1) First read the statewide general information on pages 1 through 12.

2) Determine the Game Management Unit (unit) in which you wish to hunt by studying the map on the inside of the front cover or the separate GMU map.

3) Using the Table of Contents on page i, turn to the species you wish to hunt. If there is bold material to the right of the species heading, please read it.

4) Next, move down the left-hand column until you come to the desired unit (found in bold). The bag limit appears just below. When seasons or bag limits differ for various 'types' of hunter, read under either **Subsistence Hunter**, **Resident Hunter**, or **Non-resident Hunters**, depending on which category is right for you.

5) You will find the dates for open season to the right for each of the three categories, for big game. You will find that seasons and bag limits for fur animals, small game and unclassified game are the same (seasons and bag limits) for all three types of hunters.

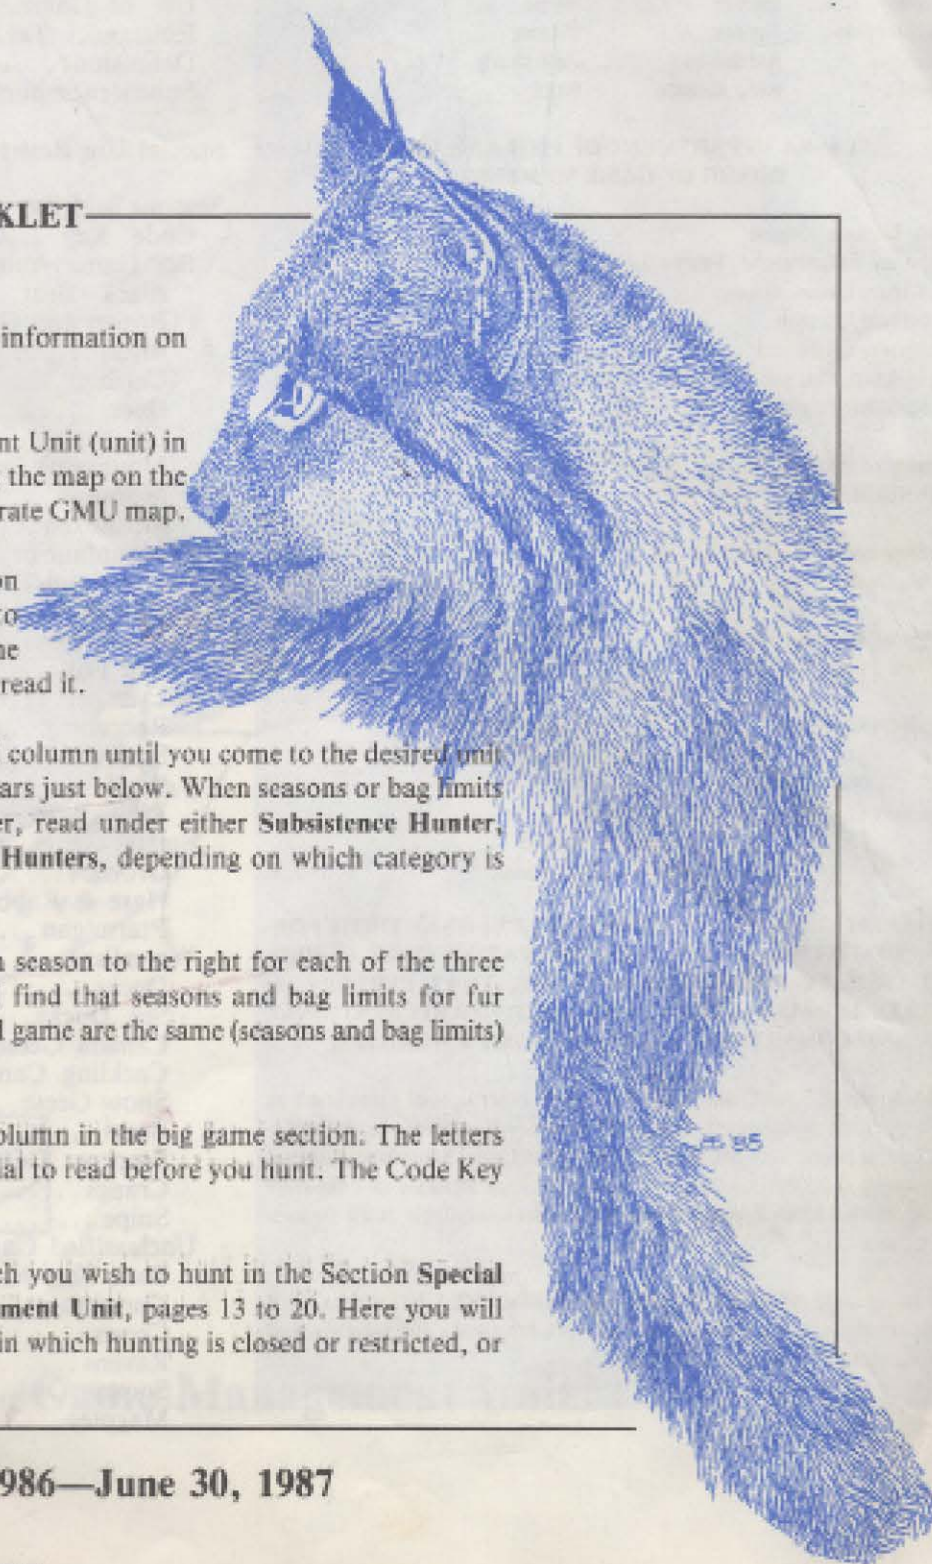

6) Please notice the **CODE KEY** column in the big game section. The letters there will direct you to other material to read before you hunt. The Code Key is explained on page 21.

7) Finally, look up the unit in which you wish to hunt in the Section **Special Use Restrictions by Game Management Unit**, pages 13 to 20. Here you will find areas within your chosen unit in which hunting is closed or restricted, or methods of access controlled.

Regulations effective July 1, 1986—June 30, 1987

Alaska Board of Game

Alaska Department of Fish and Game

NOTICE

THIS SUMMARY OF REGULATIONS IS NOT COMPLETE NOR QUOTED VERBATIM FROM STATE LAW. IT IS SIMPLIFIED FOR YOUR CONVENIENCE.

For further details, consult your local Department of Fish and Game representative, Division of Game in:

Laurie Weidlich-Kuntz

THIS BOOKLET OF REGULATIONS INCLUDES ONLY THOSE PORTIONS OF TITLE 5, ALASKA ADMINISTRATIVE CODE AS PROMULGATED BY THE BOARD OF GAME, THAT PERTAIN TO GENERAL AND SUBSISTENCE HUNTING, OTHER RECREATIONAL USES, AND COMMERCIAL USES OF ALASKA'S WILDLIFE.

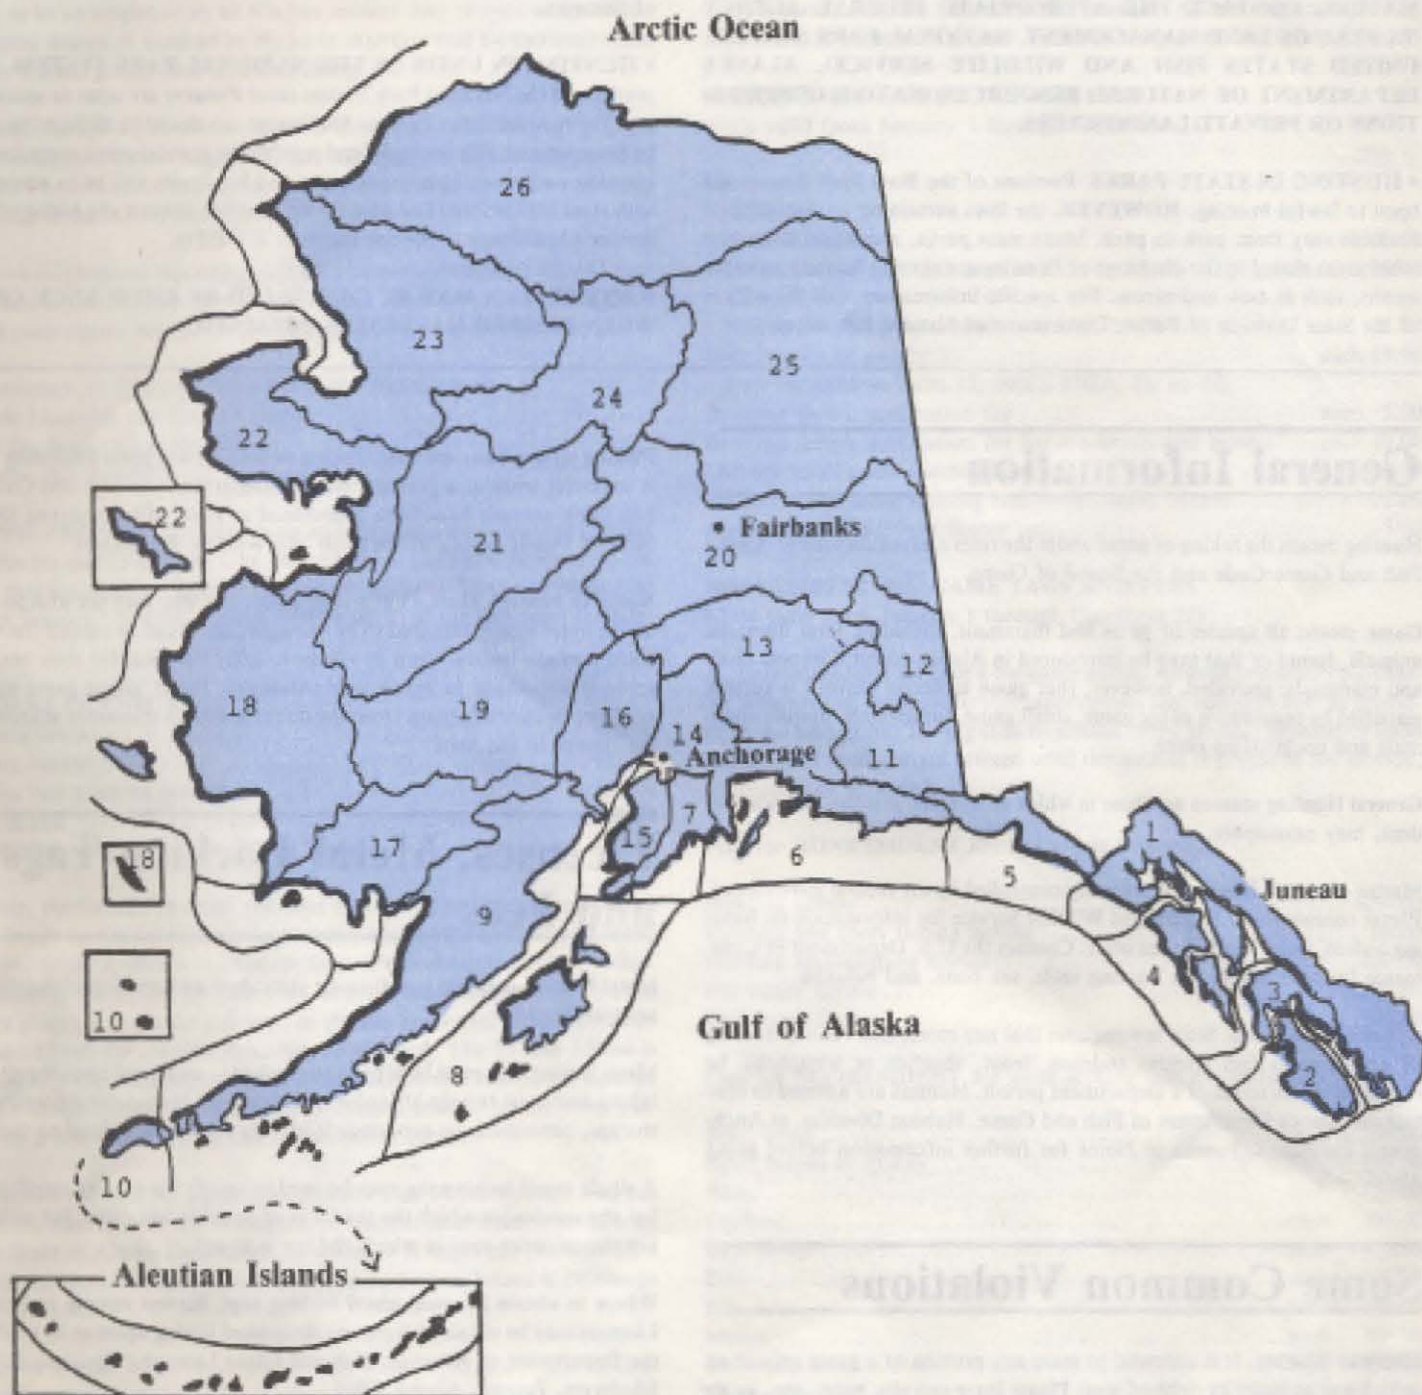

Other sections of 5 AAC that control or affect other uses of game (such as marine mammal management, control of predation by wolves, raptor regulations, permit procedures for McNeil River State Game Sanctuary, disposal of muskoxen, importation of exotic game, etc.) are included in a separate booklet entitled **Miscellaneous Game Regulations**, available at all Department offices.

Refer to separate **ALASKA GAME MANAGEMENT UNITS** map, with unit descriptions, to identify the boundaries of the units and subunits and to locate areas having special restrictions.

STATEWIDE INFORMATION

• **IT IS YOUR RESPONSIBILITY TO CHECK WITH THE LANDOWNER BEFORE YOU HUNT. FOR LOCAL LAND STATUS INFORMATION, CONTACT THE APPROPRIATE FEDERAL AGENCY (BUREAU OF LAND MANAGEMENT, NATIONAL PARK SERVICE, UNITED STATES FISH AND WILDLIFE SERVICE), ALASKA DEPARTMENT OF NATURAL RESOURCES, NATIVE CORPORATIONS OR PRIVATE LANDOWNERS.**

• **HUNTING IN STATE PARKS.** Portions of the State Park System are open to lawful hunting; **HOWEVER**, the laws pertaining to discharge of firearms vary from park to park. Many state parks, recreation areas and other areas closed to the discharge of firearms are open to hunting by other means, such as bow and arrow. For specific information, call the offices of the State Division of Parks, Department of Natural Resources.

• **LOCAL RESTRICTIONS.** Local regulations, ordinances or rules by State Parks, the landowner or the municipality may prohibit access or discharge of firearms.

• **HUNTING IN UNITS OF THE NATIONAL PARK SYSTEM.** Those portions of the National Park System titled **Preserve** are open to sport hunting. Those areas titled **Park** or **Monument** are closed to all hunting except by those who qualify under federal regulations as subsistence users for areas allowing such uses. Hunting seasons and bag limits will be in accordance with state regulations. For specific information contact the National Park Service (Anchorage telephone number: 271-4551).

• **ANY SEASON MAY BE CANCELLED BY EMERGENCY ORDER WHEN DESIRED HARVEST IS OBTAINED.**

General Information

Hunting means the taking of game under the rules and regulations of Alaska Fish and Game Code and the Board of Game.

Game means all species of birds and mammals, including feral domestic animals, found or that may be introduced in Alaska except domestic birds and mammals; provided, however, that **game** as herein defined is further classified by regulations as big game, small game, fur animals, marine mammals and unclassified game.

General Hunting seasons are those in which all hunters, resident and nonresident, may participate.

Marine Mammal Hunting is presently controlled by the federal government. Please contact the U.S. Fish and Wildlife Service for information on hunting walrus, polar bear and sea otter. Contact the U.S. Department of Commerce for information on hunting seals, sea lions, and belukha.

Off-road vehicle use. State law requires that any motorized vehicle crossing of anadromous fish streams (salmon, trout, sheefish or whitefish), be regulated under terms of a Department permit. Hunters are advised to contact the Alaska Department of Fish and Game, Habitat Division, at Anchorage, Fairbanks, Juneau or Nome for further information before going afield.

Some Common Violations

Highway littering. It is unlawful to leave any portion of a game animal on a highway or highway right-of-way. Please leave entrails, hides, etc., in the field out of sight of roads or trails. Take your grocery litter home for disposal.

Shooting on or across a highway. It is unlawful to shoot from, on or across a highway.

Failure to validate a harvest ticket. Harvest tickets (stubs) must be validated **IMMEDIATELY** after the kill is made by completely removing from the ticket the day and month on which the game was taken.

Picking up live baby animals. Taking or holding live game (including birds) is unlawful without a permit from the Department of Fish and Game. If you think animals have been abandoned or hurt, call the nearest Department of Public Safety office (Fish and Wildlife Protection).

Notice to hunters. Hunters who take game, and who may not wish to utilize all the meat legally required to be salvaged, are urged to contact the village council of the nearest town or village to offer the meat for their use. Wild game is important to many local Alaskans. When giving game meat to another, be sure to obtain from the donee a written statement acknowledging receipt of the meat.

Licenses, Metal Locking Tags, and Fees

Metal locking tags are issued to an individual and are nonrefundable and nontransferable.

Metal locking tags must be affixed and locked to an animal immediately upon taking and must remain affixed and locked until the animal is prepared for storage, consumed, or exported. Bear tags should be affixed to the hide.

A single metal locking tag may be used to satisfy the tagging requirements for any species for which the tag fee is of equal or less value, but only during the calendar year in which the tag is issued.

Where to obtain licenses, metal locking tags, harvest reports and tickets. Licenses may be obtained from any designated issuing agent or by mail from the Department of Revenue, Fish and Game Licensing Division, 1107 W. 8th Street, Juneau, Alaska 99801.

Harvest reports with attached harvest tickets may be obtained without charge from any licensing agent or Department of Fish and Game office.

False statements, alterations and transfers. Any false statement as to any material fact in an application for a license renders the license null and void, and the person making the false statement is guilty of a violation of these regulations. Any person who alters, changes, loans or transfers any license, tag, or harvest ticket issued to him under these regulations is guilty of a violation of these regulations. Similarly, any person who uses any license, tag,

or harvest ticket other than the one issued to him under these regulations is guilty of a violation of these regulations, except as provided for blind persons.

Guides required for nonresident hunters. Nonresidents are required to have a guide or be accompanied by an Alaskan resident over 19 years of age within the second degree of kindred by blood or marriage (see **Definitions**) when hunting brown/grizzly bear and Dall sheep.

It is unlawful for a nonresident alien to hunt, pursue or take a big game animal as defined by the Board of Game unless personally accompanied by a person who is licensed as a master guide, registered guide or Class-A assistant guide under AS 08.54.

For more information regarding guiding, contact the Department of Commerce and Economic Development in Juneau, Alaska—phone 465-2542. A current guide register may be obtained from the following address (cost \$5.00):

Department of Commerce and Economic Development
Guide Licensing and Control Board
Box D—State Office Building
Juneau, Alaska 99811

LICENSE PERIOD. Hunting licenses and big game metal locking tags are valid for the period January 1 to December 31, inclusive, of the year for which they are issued, except that a resident trapping license purchased on or after January 1 is valid through September 30 of the following calendar year.

RESIDENT LICENSE FEES

Trapping license	\$10.00
Hunting license	\$12.00
Hunting and trapping license	\$22.00
Hunting and sport fishing license	\$22.00
Hunting, trapping, and sport fishing license	\$32.00

However, the fee is 25 cents for the head of a family or dependent member of his family or one solely dependent upon himself for support upon proof presented by the applicant that the applicant (A) is obtaining or has obtained assistance during the preceding six months under any state or federal welfare program to aid the indigent, or (B) has an annual gross income of less than \$5,600 for the year preceding application. The 25 cent license is a regular hunting, trapping and sport fishing license and entitles the licensee to all of the privileges, but only those privileges, granted to any other person with a hunting, trapping and sport fishing license.

No license is required for an Alaskan resident over 60 years of age who has lived in the state for one year or more. A permanent identification card issued by the State of Alaska Department of Revenue is required. The I.D. card replaces the sport fishing, hunting and trapping license. Issued at no charge to the resident.

Fur dealer license	\$50.00
Taxidermy license	\$75.00
Fish or game farming license	\$200.00 (biennially)

No license is required of an Alaskan resident under 16 years of age, for hunting or trapping. Licenses and big game tags are required of all nonresidents, regardless of age, for hunting and trapping. However, all residents, regardless of age, intending to hunt brown/grizzly bear, are required to possess a resident brown/grizzly bear tag. Brown/grizzly bear tags expire on December 31 of the year for which they are issued.

A veteran may receive a resident hunting and sport fishing license without charge if the person

- (1) has been discharged from military service under honorable conditions; and
- (2) is eligible for a loan under AS 18.56.101; and
- (3) is certified by the United States Veterans' Administration as having incurred a 50 percent or greater disability during military service.

RESIDENT BIG GAME TAGS AND FEES

(Only valid from January 1 through December 31)

Musk oxen Tags

Bull:	
Nunivak Island	\$500.00
Nelson Island and Unit 26(C)	25.00
Cow:	
Nelson and Nunivak Islands and Unit 26(C)	25.00
Bear, brown or grizzly	each 25.00
(Not required in Units 12, 20(E), 21(D), 22, or 23)	
Drawing permit application fee	each 5.00
Drawing permit application fee for muskoxen and bison	each 10.00
Military small game hunting license	12.00
Military small game hunting and sport fishing license	22.00
Alaska State Waterfowl Stamp	5.00

NONRESIDENT BIG GAME TAGS AND FEES

(Only valid from January 1 through December 31)

A nonresident may not take a big game animal without previously purchasing a numbered, nontransferable, appropriate tag, issued to him as provided in this subsection. The tag shall be affixed to the animal immediately upon capture and shall remain affixed until the animal is prepared for storage, consumed, or exported.

Fees for **NONRESIDENT** licenses are as follows:

Hunting license	\$60.00
Hunting and sport fishing license	95.00
Hunting and trapping license	200.00
Fur dealer license	200.00
Taxidermy license	200.00

Fees for **NONRESIDENT** big game locking tags are as follows:

Bear, black	each \$ 200.00
Bear, brown or grizzly	each 350.00
Bison	each 350.00
Caribou	each 300.00
Dall Sheep	each 400.00
Deer	each 135.00
Elk	each 250.00
Moose	each 300.00
Mountain Goat	each 250.00
Musk oxen	each 1,100.00
Wolf	each 150.00
Wolverine	each 150.00

However, members of the military service on active duty who are permanently stationed in the state, and their dependents, who do not qualify as residents under AS 16.03.940(14), may obtain special nonresident military small game and sport fishing licenses at the rates for resident hunting and sport fishing licenses, but may not take a big game animal without previously purchasing a regular nonresident hunting license and a numbered, nontransferable appropriate tag, issued at one-half of the nonresident rate.

All nonresidents, regardless of age, must have a valid hunting license and tag(s) in their possession while taking or attempting to take game.

Alien persons not lawfully admitted to the United States are prohibited from taking game in the State of Alaska or its waters.

Residency. Alaska statute 16.05.940(19) defines "resident," for the purpose of the Fish and Game Code, as follows: "resident" means a person who for the preceding 12 consecutive months has maintained a permanent place of abode in the state and who has continually maintained a voting residence in the state; however, a member of the military service who has been stationed in the state for the preceding 12 consecutive months is a resident for the purposes of this chapter, and the dependent of a resident member of the military service, who has been living in the state for the preceding year is a resident for the purposes of this chapter, and a person who is an alien but who for one year has maintained a permanent place of abode in the state is a resident for the purposes of this chapter.

Harvest report period. In certain cases, hunters must possess harvest reports (see below). Harvest reports are valid during the period July 1 through June 30 of the following year, but must be filled out totally and mailed within 15 days after taking the appropriate animal OR within 15 days after the closing date of that species' season. The reports NEED NOT be carried afield. **Note:** Military personnel may hunt big game without a state license on any military property open to hunting in the state, but must abide by all other provisions of state law. Such areas usually require a permit from military authorities.

Harvest ticket is the numbered stub issued with the harvest report. The stubs must be carried when hunting a particular species (see below).

STATE WATERFOWL CONSERVATION TAG (STAMP)

No person may hunt for waterfowl in Alaska without having in possession an Alaska state waterfowl conservation stamp, unless that person:

- (a) qualifies for a 25 cent license; or
- (b) is a resident under the age of 16; or
- (c) is an Alaska resident over the age of 60; or
- (d) is a disabled veteran eligible for a free license under AS 16.05.341.

Statewide Provisions—General

5 AAC 92.001. APPLICATION OF THIS CHAPTER. Except as specifically provided otherwise, the regulations in this chapter apply statewide, to subsistence hunting, general hunting, and trapping, as applicable.

5 AAC 92.002. LIABILITY FOR VIOLATIONS. Unless otherwise provided in 5 AAC 78—5 AAC 92, or in AS 16, a person who violates a provision of 5 AAC 78—5 AAC 92 is strictly liable for the offense, regardless of that person's intent.

5 AAC 92.005. POLICY FOR CHANGING BOARD AGENDA. The Board of Game may change its schedule for consideration of proposed regulatory changes in accordance with the following guidelines:

- (1) a request for a change must state in writing the change proposed and the reason it should be considered out of sequence;

- (2) a request must be sent to the Executive Director of the Boards of Fisheries and Game before July 15, unless the board allows an exception to the deadline because of an emergency;

- (3) the executive director shall attempt to obtain comments on the request from as many board members as can be contacted; and

- (4) if a majority of the board members contacted approve the request, the executive director shall notify the public and the department of the agenda change.

Licenses, Harvest Tickets, Harvest Reports, Tags, and Fees

5 AAC 92.010. HARVEST TICKETS AND REPORTS. (a) No person may hunt deer, sheep, or moose in any game management unit, or caribou in Units 9, 12, 16—20, 21(D) east of the Yukon and Koyukuk Rivers, or 25(C), unless the person has in possession a nontransferable harvest ticket for that species. However, no harvest ticket is required for a permit hunt.

- (b) No person may hunt moose or sheep in any game management unit, or caribou in Units 9, 12, 16—20, 21(D) east of the Yukon and Koyukuk Rivers, or 25(C), unless the person has obtained a harvest report (attached to the harvest ticket) for that species.

- (c) No person may hunt caribou in Units 21(D) west of the Yukon and Koyukuk Rivers, 22(A), 22(B), 23, 24, 25 (except 25(C)), or 26 unless the person first obtains an arctic caribou harvest report.

- (d) Immediately upon killing a big game animal for which a harvest ticket is required, the hunter shall validate the ticket by removing from it the day and month of the kill without removing any other month or day on the ticket.

- (e) Each person must keep a validated harvest ticket in possession at all times until the animal is delivered to the location where it will be processed for consumption.

- (f) No person may refuse inspection of a harvest ticket upon request from a peace officer of the state.

- (g) Harvest tickets and report forms may be procured without cost from any licensing agent or department office. The issuing agent must enter the number of the harvest ticket on the hunter's license; the number of each harvest ticket issued the previous calendar year must also be entered on the hunter's license if the harvest ticket is still valid.

- (h) Within 15 days after taking the bag limit the hunter must complete the harvest report and mail it to the address printed on the report; a person not taking game, or taking less than the bag limit, must complete the harvest report and mail it to the address printed on the report within 15 days after the close of the season for the species.

5 AAC 92.012. LICENSES AND TAGS. (a) No license is required of a resident under the age of 16 for hunting or trapping. Licenses and big game tags are required of nonresidents regardless of age, for hunting and trapping. No person 16 years of age or older may take waterfowl unless that person has a current, validated, federal migratory bird hunting stamp (duck stamp) in possession.

- (b) Upon request from a peace officer of the state, licenses, tags, and game, and any apparatus designed to be, and capable of being used to take game, must be presented for inspection.

(c) No resident may take a brown or grizzly bear (except as provided in 5 AAC 92.014), or a musk ox, without possessing a numbered, non-transferable, appropriate tag, issued to that person. The tag must be affixed to the animal immediately and must remain affixed until the animal is prepared for storage, consumed or exported.

5 AAC 92.014. BROWN AND GRIZZLY BEAR TAG FEE EXEMPTION. No resident tag or tag fee is required for taking brown or grizzly bear in Units 12, 20(E), 21(D), 22, or 23.

5 AAC 92.016. MUSK OXEN TAG FEE. (a) The resident tag fee for musk oxen taken on Nelson Island is \$25.

(b) The resident tag fee for cow musk oxen taken on Nunivak Island is \$25.

(c) The resident tag fee for musk oxen taken in Unit 26(C) is \$25.

5 AAC 92.018. WATERFOWL CONSERVATION TAG. A person required to possess an Alaska waterfowl conservation tag (stamp) under AS 16.05.340(a)(17) must sign the tag (stamp) across its face before engaging in waterfowl hunting.

Permits

5 AAC 92.020. APPLICATION OF PERMIT REGULATIONS AND PERMIT REPORTS. Regulations in secs. .025—.060 of this chapter apply to various nontransferable permits issued by the department for the possession or taking of game, and to conditions and procedures for permit hunts. No person may falsify any fact on an application, affidavit, permit, or report form required by the permit or by the regulations in secs. .020—.060 of this chapter. Reports required must be made in accordance with the instructions on the permit and submitted to the department before, or upon, expiration of the permit, unless otherwise specified.

5 AAC 92.025. PERMIT FOR EXPORTING RAW SKINS. (a) No person may ship, mail, export, or otherwise transport from Alaska any raw skin of a wild fur animal or fur bearer unless the person obtains an export permit (shipping tag) and an export report (postcard) available from the department, post offices, or commercial carriers.

(b) The permittee shall attach the export permit to the outside of any package containing a raw skin of a wild fur animal or fur bearer for export. The permittee must state on the permit that the skin or skins were legally taken and possessed. No carrier or post office may accept for shipment out of Alaska any raw skin of a wild fur animal or fur bearer unless an export permit is attached. Before shipment, the permittee must detach the export report from the export permit, complete it, and mail it to the department.

5 AAC 92.027. PERMIT FOR EXPORTING TROPHIES. (a) No person may export from Alaska a raw, unprocessed or unmounted big game trophy unless the container in which the trophy is shipped, or the trophy itself, if not in a container, has attached to it in a clearly visible manner an export permit (shipping tag) provided by the department setting forth the name and address of the person taking the trophy, the name and address of the shipper and the species and parts being shipped.

(b) Upon request from a peace officer of the state, or federal fish and wildlife agent, the person shipping or receiving a raw unprocessed or unmounted big game trophy must allow inspection of the trophy.

(c) The export permit (shipping tag) required by (a) of this section must remain attached to the container or trophy until a final destination is reached and the trophy received for processing or utilization.

(d) As used in this section, **big game trophy** means the raw, unprocessed or unmounted horns, antlers or cape of any big game animal, or the hide of a black, brown or grizzly bear.

TROPHY HUNTERS AND GUIDES. A federal wildlife export permit (CITES permit) is required BEFORE brown/grizzly bears, wolves, lynx, or river otters may be shipped out of the country. For further information, contact Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, 1000 North Glebe Road, Room 611, Arlington, VA 22201 (telephone 703-235-1903).

5 AAC 92.045. PERMIT FOR HUNTING BLACK BEAR WITH DOGS. No person may hunt a black bear with a dog unless that person holds a permit issued at the discretion of the department.

5 AAC 92.050. REQUIRED PERMIT HUNT CONDITIONS AND PROCEDURES. The following conditions, and procedures for permit issuance, apply to each drawing, hunting permit registration:

(1) the applicant or the applicant's agent shall complete the application form; a permit application that is incomplete or that contains a false statement is void;

(2) no person may apply for more than one drawing permit hunt for the same species during a regulatory year; duplicate applications will be voided by the commissioner; except that a person may apply in the same regulatory year for one Delta bison hunt and one bison hunt elsewhere. However, no person may receive more than one bison permit per regulatory year.

(3) the permittee must keep the permit in possession while hunting;

(4) permit issuance:

(A) the department shall issue registration permits in the order applications are received, and drawing permits on a lottery basis;

(B) a successful applicant must obtain the permit and appropriate license and big game tag within a specified time, if so required by the department;

(C) unless otherwise provided, if a drawing is undersubscribed, surplus permits are void and will not be issued;

(5) a permit is nontransferable;

(6) immediately after killing a big game animal for which a permit is required, the permittee shall cancel the permit by removing from the permit the day and month on which the kill was made, without obliterating or destroying any other day and month printed on the permit.

(7) a person who has been issued a drawing permit shall return the permit to the department with a report of harvest within the time period stated on the permit; permittees failing to provide the required report may not be issued any drawing hunt permit during the following regulatory year. A person aggrieved by this section shall be granted a hearing before the commissioner or his designee if the permittee makes such a request in writing to the commissioner within 180 days after the conclusion of the permit hunt for which he has failed to provide a report. The commissioner may determine that the penalties of this section will not be applied if the permittee provides the information required on the report and if the commissioner determines that the failure to provide the report was the result of unavoidable circumstance.

5 AAC 92.052. DISCRETIONARY PERMIT HUNT CONDITIONS AND PROCEDURES. The department may apply any or all of the following additional conditions to a permit hunt, when necessary for management of the species hunted:

(1) a permittee shall register at a designated station before entering, and upon leaving, the field;

(2) a permittee shall demonstrate:

(A) the ability to identify the species hunted;

(B) the ability to identify the permit hunt area;

(C) a knowledge of weapon safety and use;

(3) a permittee shall attend an orientation course;

(4) a permittee shall carry a radio while in the field;

(5) a permittee who takes an animal under a permit shall deliver specified biological specimens to a check station, or to the nearest department office within a time set by the department;

(6) a permittee must be accompanied by a department representative;

(7) only a specified number of permittees may hunt during the same time period, and a permittee may hunt only in a specified subdivision within the permit hunt area;

(8) a permittee may not use specified mechanized vehicles for hunting big game or for transporting meat from the hunting area;

(9) a permittee who cancels his or her plan to hunt shall notify the department at an office, and within a time limit, specified by the department;

(10) a permittee may use only weapons and ammunition specified by the department;

(11) before receiving a permit, the permittee shall acknowledge in writing that he or she has read, understands, and will abide by, the conditions specified for the hunt;

(12) permittee may hunt only during specified hours;

(13) a permit applicant must be at least 10 years old;

(14) a permittee shall submit, on a form supplied by the department, information about the hunt requested by the department; the permittee shall submit this form to the department within the time limit set by the department;

(15) the permit applicant must hold a valid Alaska hunting license; however, this does not apply to a resident under the age of 16; an applicant's hunting license number shall be entered on the permit application; a resident under the age of 16 shall enter his age in lieu of a license number.

5 AAC 82.230. SPECIAL PROVISIONS FOR GENERAL PERMIT HUNTS. In the Unit 8 general brown bear drawing permit hunt, the department will issue permits, and a hunter may apply for a permit, as follows:

(1) the department will issue a maximum of 40 percent of the drawing permits to nonresidents and a minimum of 60 percent to residents;

(2) the department will enter, in the resident drawing, each application from a nonresident accompanied by a resident relative within the second degree of kindred. For each season, the department will issue a maximum of four permits to non resident hunters accompanied by resident relatives within the second degree of kindred; however, the department may not issue within one calendar year, more than one of these permits per individual hunt, as describer in the permit hunt guide published each year by the department;

(3) a nonresident guided hunter or the hunter's agent may apply for a registration permit for the general hunt, to be issued on a first-come, first-served basis at the Kodiak game division office; the department will issue a registration permit for the general hunt only to an applicant who presents proof that the applicant will be accompanied by a guide, as required in AS 16.05.407(a).

Methods and Means

5 AAC 92.075. LAWFUL METHODS OF TAKING GAME. (a) Big game may be taken as follows:

(1) with a shotgun, muzzle-loading rifle, or rifle or pistol using center-firing cartridges;

(2) with a crossbow, except that a crossbow may not be used to take big game in areas restricted to taking by bow and arrow only;

(3) spears that are hand held or thrown;

(4) with a longbow, recurve bow, or compound bow capable of casting a broadhead-tipped arrow at least 175 yards horizontally, which collectively are termed "bow and arrow" for the purposes of these regulations; arrows must be tipped with broadheads, and arrow and broadhead together must weigh at least one ounce (437.5 grains); broadheads may not be barbed;

(5) black bears may be taken with the use of bait; however

(A) only biodegradable materials may be used for bait; only the heads, bones, viscera, or skin of legally harvested fish and game may be used for bait;

(B) no person may use bait within one-quarter mile of a publicly maintained road or trail;

(C) no person may use bait within one mile of a house or other permanent dwelling, or within one mile of a developed campground or developed recreational facility;

(D) a hunter using bait shall clearly mark the bait station with a sign which displays the hunter's name and current address, phone number, and hunting license number; and

(E) a hunter using bait shall remove litter and equipment from the bait station site when hunting is completed.

(F) no person may give or receive remuneration for the use of a bait station, including barter or the exchange of goods; however, this does not apply to licensed master or registered guides, or their assistant guides, who personally accompany the clients at the bait station site.

(6) a motordriven boat underway may be used in taking wolves and coyotes in all units, and caribou in Unit 23.

(b) **Small game and unclassified game** may be taken by any method unless prohibited in 5 AAC 92.080.

(c) **Fur animals** may be taken while hunting by any method unless prohibited in 5 AAC 92.080 and 5 AAC 92.090.

(d) **Fur bearers** may be taken while trapping by any method unless prohibited in 5 AAC 92.080 and 5 AAC 92.095.

(e) **Waterfowl, snipe and cranes** may be taken only:

(1) with a shotgun not larger than 10 gauge, and which is plugged to a three shell capacity, or less;

(2) with a bow and arrow; or

(3) with a trained raptor controlled by a falconer who holds a permit under 5 AAC 92.037.

5 AAC 92.080. UNLAWFUL METHODS OF TAKING GAME. The following methods of taking game are prohibited:

(1) by shooting from, on, or across a highway;

(2) with the use of poisons except with the written consent of the board;

(3) with the use of a helicopter in any manner, including transportation to or from the field of any unprocessed game or parts of game, hunters or hunting gear, or any equipment used in the pursuit or retrieval of game; this paragraph does not apply to transportation of hunters, hunting gear, or game during emergency rescue operations in a life-threatening situation;

(4) unless otherwise provided in this chapter, from any mechanical vehicle or from a motordriven boat unless the motor has been completely shut off and the boat's progress from the motor's power has ceased;

(5) with the use of an aircraft, snowmachine, motor-driven boat, or other motorized vehicle for the purpose of driving, herding, or molesting game;

(6) with the use or aid of a machine gun, set gun, or a shotgun larger than 10 gauge;

(7) with the aid of a pit, fire, artificial light, radio communications, artificial salt lick, explosive, barbed arrows, bombs, smoke, chemical, or a conventional steel trap with a jaw spread over nine inches, except that the "conibear" style trap with a jaw spread of less than 11 inches may be used.

(8) with a snare, except for taking a fur bearer, grouse, hare or ptarmigan.

5 AAC 92.085. UNLAWFUL METHODS OF HUNTING BIG GAME. The following methods and means of hunting big game are prohibited in addition to the prohibitions in 5 AAC 92.080.

(1) with the aid or use of a dog, except that dogs may be used to hunt black bear by permit under 5 AAC 92.045;

(2) with the use of traps or snares;

(3) while big game animals are swimming, except that swimming caribou may be taken in Unit 23;

(4) a person who has been airborne may not take or assist in taking big game until after 3:00 a.m. following the day in which the flying occurred; however, this does not apply to taking deer.

5 AAC 92.090. UNLAWFUL METHODS OF HUNTING FUR ANIMALS. The following methods and means of hunting fur animals are prohibited in addition to the prohibitions in 5 AAC 92.080:

(1) with the use of a dog, trap, snare, net, or fish trap;

(2) by disturbing or destroying dens.

5 AAC 92.095. UNLAWFUL METHODS OF TRAPPING FUR BEARERS. The following methods and means of trapping fur bearers are prohibited in addition to the prohibitions in 5 AAC 92.080:

(1) disturbing or destroying dens (except that muskrat pushups or feeding houses may be disturbed in course of trapping);

(2) disturbing or destroying beaver houses;

(3) taking beaver by any means other than steel traps or snares, except that firearms may be used to take beaver in Unit 18 from April 1 through June 10, and in Units 8 and 23;

(4) taking beaver by persons under 11 years of age;

(5) taking land otter with steel traps having a jaw spread of less than five and seven-eighths inches during the closed season on mink and marten in the same game management unit;

(6) with the use of a dog, net or fish trap (except a blackfish or fyke trap).

5 AAC 92.100. UNLAWFUL METHODS OF HUNTING WATERFOWL, SNIPE, AND CRANES. (a) The following methods and means of taking waterfowl, snipe, and cranes are prohibited in addition to the prohibitions in 5 AAC 92.080:

(1) with a rifle or pistol;

(2) from a motor-driven boat unless the motor has been completely shut off and the boat's progress from the motor's power has ceased;

(3) from any mechanical vehicle; however, a power or sailboat may be used as a means of retrieving dead or injured bird;

(b) A hunter may pluck waterfowl in the field, but must leave one fully feathered wing or the head attached while transporting the waterfowl.

(c) No person may take waterfowl from sunset to one-half hour before sunrise.

5 AAC 92.105. LOCAL RESTRICTIONS ON TAKING GAME. In addition to statewide restrictions on taking game set out in 5 AAC 92.080—5 AAC 92.100, the following restrictions apply locally as specified:

(1) in Units 1—5, no person may take big game, except wolves, from a boat;

(2) in Jim Creek in Unit 14(C) upstream from the confluence of the Swan Lake outlet stream, no person may take waterfowl or transport waterfowl, parts of waterfowl, waterfowl hunters, or waterfowl hunting gear, with the use of a motorized vehicle;

(3) no person may take beaver in the Minto Flats Management Area with the use of an aircraft for ground transportation or by landing within one mile of any beaver trap or set used by the person transported;

(4) no person may take a wolf in Units 12 and 20(E) during April and October with a steel trap or snare smaller than 3X;

(5) no person who has been airborne may use a firearm to take or assist in taking a wolf in Unit 5, 7, 11, 14, 15 or 26 until after 3:00 a.m. following the day in which the flying occurred; this subsection does not apply to a trapper using a firearm to dispatch a wolf caught in a trap or snare.

(6) In the subsistence hunt for sheep in Unit 23, no person may use an aircraft as an aid in taking sheep, including the transportation of hunters, hunting gear, or game.

5 AAC 92.130. RESTRICTION TO BAG LIMIT. (a) No person may take, in any unit or portion of a unit, more animals of a species than is authorized in the bag limit specified in 5 AAC 7—5 AAC 88 for that unit or portion of the unit. For example, if the bag limit for one unit or a portion of a unit is two caribou, no person may take more than 2 caribou in that unit or portion of a unit.

(b) A person who has taken game in one unit or portion of a unit may after that, hunt for the same species in another unit or portion of a unit, subject to the following:

(1) A person not take, in total, more animals of a species in one regulatory year than is allowed in the bag limit for the unit or portion of a unit last hunted in. For example, a person who has taken a bag limit of two caribou in one unit, may hunt in another unit in which the bag limit is four caribou, but may take only two additional animals in the latter unit, thus reaching a maximum total bag limit of four caribou.

(2) A person who has taken game in one unit or portion of a unit may after that, hunt in another unit or portion of a unit in which the bag limit is equal to or smaller than the number of animals of the species taken by the person in the unit or portion of a unit previously hunted. For example, if a person hunts in an area that has a bag limit of three caribou and takes one caribou, the person may not after that, hunt in another unit in which the bag limit is one caribou, but may hunt in another unit in which the bag limit is two caribou and take only one caribou in that unit.

(c) The bag limit specified for a subsistence season for a species and the bag limit set for a general season for the same species are not cumulative. This means that a person who has taken a bag limit for a particular species under a subsistence season may not after that, take any additional animals under the bag limit specified for a general season.

(d) A bag limit applies to a regulatory year unless another time limit is specified in the bag limit.

Possession and Transportation

5 AAC 92.140. UNLAWFUL POSSESSION OR TRANSPORTATION OF GAME. (a) No person may possess, transport, or place into the possession of another, any game or parts of game that the person has taken in violation of AS 16, or a regulation promulgated thereunder.

(b) No person may possess or transport game or parts of game received from a person who took the items contrary to AS 16 or a regulation promulgated thereunder, if the person receiving the items knows, has reason to know, or should know that the item was taken in violation of AS 16 or a regulation promulgated thereunder.

(c) No person may possess or transport game or parts of game that the person knows were taken in violation of AS 16 or a regulation promulgated thereunder.

5 AAC 92.150. EVIDENCE OF SEX AND IDENTITY. (a) No person may possess or transport a mountain sheep unless both horns accompany the animal.

(b) If the taking of a big game animal, except sheep, is restricted to one sex, no person may possess or transport the carcass of the animal which does not have sufficient portions of the external sex organs attached to indicate conclusively the sex of the animal. However, this section does not apply to the carcass of a big game animal which has been cut and placed in storage

or otherwise prepared for consumption upon arrival at the location where it is to be consumed.

(c) If a moose bag limit includes an antler size or configuration requirement, no person may possess or transport the moose carcass or its parts unless both antlers accompany the carcass or its parts. A person possessing a set of antlers with less than the required number of brow tines on one antler must leave the antlers naturally attached to the unbroken, uncut skull plate; however, this subsection does not apply to a moose carcass or its parts that has been cut and placed in storage or otherwise prepared for consumption after arrival at the place where it is to be stored or consumed.

5 AAC 92.160. MARKED OR TAGGED GAME. A person who takes an animal that has been marked or tagged by the department for scientific studies must, within a reasonable time, notify the department of the date when, and the place where, the animal was killed. Any ear tag, collar, radio, tattoo, or other identification must be retained with the hide until it is sealed, if sealing is required, and in all cases any identification equipment must be returned to the department.

5 AAC 92.165. SEALING OF BEAR SKINS AND SKULLS. (a) No person may possess, transport, or export from Alaska, the skin or skull of a bear, whether taken inside or outside of Alaska, unless the skin and skull have been sealed by an authorized representative of the department within 30 days of the taking, or a lesser time if requested. Seals must remain on the hides while in Alaska or until the tanning process has commenced. A brown bear taken in Unit 8 may not be transported from that unit until it has been sealed.

(b) A person who possesses a bear skin and skull must bring the skin and skull for sealing to an authorized representative of the department and must complete a report on the appropriate form provided by the department. A skin and skull accompanied by a completed temporary sealing form signed by the person who took the bear shall be considered properly tendered for sealing if it is received by an authorized representative of the department within 30 days from the time of taking.

(c) The hide and skull of a bear must accompany each other until a representative of the department has removed a rudimentary premolar tooth from the skull and sealed both the skull and the hide.

(d) As used in this section, **bear** means brown and grizzly bear in all units, and black bear (including the cinnamon and blue color phases) in Units 1 through 7, 11 through 16, and 20.

(e) No person may falsify any information required to be set forth, either on the sealing form provided by the department or on the temporary sealing form.

5 AAC 92.170. SEALING OF MARTEN, LYNX, OTTER, WOLF OR WOLVERINE. (a) No person may possess, transport, or export from the state, the untanned skin of a marten (in Units 1—5 only), or the untanned skin of a lynx, land otter, wolf or wolverine, whether taken inside or outside the state, unless each skin has been sealed by the department according to the following schedule:

SPECIES/METHOD OF TAKING—LATEST DATE FOR SEALING

Wolf and wolverine by hunting—30th day after date of taking.

Wolf and wolverine by trapping—30th day following close of trapping season for the species in the unit where taken.

Lynx by hunting—30th day following close of lynx hunting season in the unit where taken.

Marten (Units 1—5 only), Lynx, and Land otter by trapping—30th day following close of trapping season in the unit where taken.

(b) The sealing periods in (a) of this section may be reduced by a representative of the department authorized to seal game.

(c) A person who takes a species listed in (a) of this section must bring the skin for sealing to an authorized representative of the department and must complete a report on a form provided by the department. The long bones of the left front leg (radius and ulna bones) must remain naturally attached to the hide of any wolf taken in Units 20, 23, 24, and 26 until the hide is sealed.

Use of Game

5 AAC 92.200. PURCHASE AND SALE OF GAME. (a) Except as provided in (b) of this section, the purchase, sale, or barter of game or parts of game is permitted.

(b) Except as provided in AS 16.05.930(e), no person may purchase, sell, or barter the following:

(1) the meat of big game and small game except hares and rabbits, and except caribou may be bartered in Units 22—26, but may not be transported or exported from these units;

(2) the skin or any other part of a black bear, in its various color phases, the skin or any other part of a brown or grizzly bear, or an unsealed or untagged beaver, land otter, lynx, wolf, and wolverine;

(3) the skulls, horns or antlers of big game animals; however, this paragraph does not prohibit the purchase, sale, or barter of naturally shed antlers, or horns or antlers that have been removed from the skull by a cut or a break through the horn or antler material;

(4) notwithstanding (2) and (3) of this section, a licensed taxidermist, estate executor, or bankruptcy referee, may sell a skin or trophy by permit issued under 5 AAC 92.031;

(5) a person may purchase and possess an animal skin or trophy sold by the state as excess property, or a skin or trophy sold under (4) of this section; however, no person may resell a skin or trophy purchased from an estate executor, a bankruptcy proceeding, or excess state property sale.

(c) The purchase or acquisition through consignment or barter of furs or hides of game must be reported to the department on forms provided for this purpose, within 30 days after each month during which business was transacted.

5 AAC 92.210. GAME AS ANIMAL FOOD OR BAIT. The use of game as food for dogs or fur bearers, or as bait, is prohibited except for the following:

- (1) the hide, skin, viscera, or bones;
- (2) the skinned carcass of a bear, fur bearer, or fur animal;
- (3) hare, rabbit, and red squirrel;
- (4) legally taken unclassified game.

5 AAC 92.220. SALVAGE OF GAME MEAT, FURS, AND HIDES.

(a) Subject to additional requirements set out for a specific unit, the following parts of any carnivore taken under this chapter must be salvaged for human use:

(1) the hide of a wolf, wolverine, coyote, fox, and lynx;

(2) the hide and skull of a brown/grizzly bear;

(3) the hide and skull of a black bear taken in a game management unit in which sealing is required;

(4) either the hide or the meat of a black bear taken in any game management unit in which sealing is not required by regulation.

(b) A big game animal killed or injured by a vehicle is the property of the state. The operator of a motor vehicle that collides with a big game animal resulting in death or injury to the animal must notify the State Troopers or Division of Fish and Wildlife Protection as soon as possible.

(c) The meat of caribou taken in Units 22—26, and in Units 18 and 21 north of the Yukon River, must be removed immediately from the field.

5 AAC 92.230. FEEDING OF GAME. No person may intentionally feed a bear, wolf, fox, or wolverine, or intentionally leave human food or garbage in a manner that attracts these animals. This does not apply to bait used for trapping fur bearers or hunting black bears consistent with this chapter.

5 AAC 92.260. TAKING CUB BEARS AND FEMALE BEARS WITH CUBS PROHIBITED. No person may take a cub bear or a female bear accompanied by a cub bear.

Emergency Taking

5 AAC 92.400. EMERGENCY TAKING OF GAME. Nothing in this title prohibits a person from taking game for food during a closed season in case of dire emergency. Whenever it is reasonable to do so, all edible portions of the meat of an animal so taken must be salvaged, and all portions surplus to the alleviation of the dire emergency must be surrendered to the state.

5 AAC 92.410. TAKING OF GAME IN DEFENSE OF LIFE OR PROPERTY. (a) Nothing in this title prohibits a person from taking game in defense of life or property if

(1) the necessity for the taking is not brought about by harassment or provocation of the animal or an unreasonable invasion of the animal's habitat;

(2) the necessity for the taking is not brought about by the improper disposal of garbage or a similar attractive nuisance; and

(3) all other practicable means to protect life and property are exhausted before the game is taken.

(b) Game taken in defense of life or property is the property of the state. A person taking such game is required to salvage immediately the meat, or, in the case of a black bear, wolf, wolverine, or coyote, the hide must be salvaged and immediately surrendered to the state. In the case of brown or grizzly bear, the hide and skull must be salvaged and surrendered to the state immediately. The person taking the game must notify the department of the taking immediately and must submit a written report of the circumstances of the taking of game in defense of life or property to the department within 15 days of the taking.

(c) As used in this section, property is limited to

- (1) a dwelling, permanent or temporary;
- (2) an aircraft, boat, automobile, or other means of conveyance;
- (3) a domesticated animal; and
- (4) other property of substantial value necessary for the livelihood or survival of the owner.

Note: Game taken by hunters is not "property" in the sense of this regulation. It is not legal to shoot a bear to defend your moose or caribou carcass, for example.

Definitions

5 AAC 92.990. DEFINITIONS. In addition to the definitions in AS 16.05.940, in chapters 78—92 of this title;

(1) **airport** means an airport listed in the Federal Aviation Agency Alaska Airman's Guide and chart supplement;

(2) **animal** means those species with a vertebral column (backbone);

(3) **bag limit** means the maximum number of animals of any one game species a person may take in the unit or portion of a unit in which the taking occurs;

(4) **big game** means black bear, brown and grizzly bear, polar bear, bison, caribou, deer elk, mountain goat, moose, musk oxen, mountain or Dall sheep, wolf and wolverine;

(5) **bow** means long bow, recurve bow, or compound bow, but not crossbow;

(6) **broadhead** means an arrowhead with two or more steel cutting edges having a minimum cutting diameter of not less than seven-eighths inch;

(7) **brow tine** means a tine on the front portion of a moose antler, typically projecting forward from the base of the antler toward the nose;

(8) **bull moose** means any male moose (see illustration on page 32 and 33);

(9) **closed season** means the time when game may not be taken;

(10) **cub bear** means a brown, grizzly or polar bear in its first or second year of life, or a black bear (including the cinnamon and blue phases) in its first year of life;

(11) **dire emergency** means a situation in which a person

(A) is in a remote area;

(B) is involuntarily experiencing an absence of food required for sustenance;

(C) if wild game food is not immediately taken and consumed, will be unable to perform the functions necessary for survival, leading to a high risk of death or serious and permanent health problems;

(D) cannot expect to obtain alternative food sources in time to avoid the consequences described in (C) of this paragraph;

(12) **domicile** means the location of a person's primary residence; evidence of domicile may include, but is not limited to, the following:

(A) statements made to obtain a license to drive, hunt, fish, or engage in an activity regulated by a government entity;

(B) affidavit of the person, or of other persons who may know of that person's domicile;

(C) place of voter registration;

(D) location of residences owned, rented, or leased;

(E) location of storage of household goods;

(F) location of business owned or operated;

(G) residence of spouse and minor children or dependents;

(H) governments to which taxes are paid; and

(I) whether the person has claimed residence in another location for the purpose of obtaining benefits provided by the governments in that location;

(13) **drawing permit** means a permit issued in a limited number to people who are selected by means of a lottery held for all people submitting valid applications for such permits and who agree to abide by the conditions specified for each hunt;

(14) **edible meat** has the same meaning as defined for big game in AS 16.30.030(4);

(15) **falconry** means the sport of taking game by means of trained raptors;

(16) **full curl horn** means the horn of a mature male mountain or Dall sheep, the tip of which has grown through 360 degrees of a circle described by the outer surface of the horn, as viewed from the side (see illustration on page 39).

(17) **fur animal** means coyote, arctic fox, red fox, lynx, raccoon, red squirrel, wolf, or wolverine, except domestically raised fur animals; **fur animals** is a classification of animals subject to taking with a hunting license;

(18) **fur bearer** means beaver, coyote, arctic fox, red fox, lynx, marten, mink, weasel, muskrat, land otter, sea otter, raccoon, red squirrel, flying squirrel, ground squirrel, marmot, wolf or wolverine.

(19) **highway** means the driveable surface of any constructed road;

(20) **household** means that group of people domiciled in the same residence;

(21) **hunting area** for a species means that portion of a game management unit where a season and a bag limit for that species are set out in 5 AAC 78—5 AAC 88;

(22) **motorized vehicle** means a motor-driven land, water or air conveyance;

(23) **open season** means the time when game may be taken; each period prescribed as an open season includes the first and last days of the period prescribed;

(24) **peace officer of the state** means a person defined in AS 16.05.150;

(25) **permit hunt** means a hunt for which permits are issued on a drawing, registration, or tier II subsistence hunt basis;

(26) **person**, means a natural person and does not include a corporation, company, partnership, firm, association, organization, business trust or society;

(27) **poison** means any substance which is toxic or poisonous upon contact or ingestion;

(28) **registration permit** means a hunting permit issued to a person who agrees to the conditions specified for each hunt; permits are issued in the order applications are received and are issued:

(A) beginning on a date announced by the department and continuing throughout the open season, or until the season is closed by emergency order when a harvest quota is reached; or

(B) beginning on a date announced by the department and continuing until a predetermined number of permits have been issued;

(29) **regulatory year** means July 1 through June 30;

(30) **sealing** means placing a mark or tag on a portion of an animal by an authorized representative of the Department of Fish and Game; **sealing** includes collecting and recording information concerning the conditions under which the animal was harvested and measurements of the specimen submitted for sealing or surrendering a specific portion of the animal for biological information;

(31) **second degree of kindred** has the same meaning as set out in AS 16 05.407(a);

(32) **seven-eighths curl horn** means the horn of a mature mountain sheep, the tip of which has grown through seven-eighths of a circle (315°), described by the outer surface of the horn, as viewed from the side;

(33) **skin** means any tanned or untanned hide of an animal, including its claws;

(34) **small game** means all species of grouse, hares, rabbits, ptarmigan and waterfowl, cranes and Wilson or jacksnipe;

(35) **tier II hunting permit** means a permit required to take game after the board has eliminated nonsubsistence uses of game, and the board has found it must further restrict the taking of game to assure that the game population is maintained and managed on a sustained yield basis, or to assure the continuation of subsistence uses of a game population;

(36) **tine or antler point** refers to any point on an antler whose length is at least one inch, and is greater in length than in width, measured in a straight line across the base;

(37) **transport** means shipping, carrying, importing, exporting, or receiving or delivering for shipment, carriage or export;

(38) **unclassified game** means all species of game not otherwise classified in these definitions;

(39) **unit** means one of the 26 geographical areas listed under game management units in the codified hunting, trapping and guiding regulations and the Game Unit Map of Alaska;

(40) **year** means calendar year unless another year is specified;

(41) **road-connected area** means the location of domiciles which are normally accessed by motorized highway vehicles operating on constructed roads which connect to the main highway system in the relevant area, and which

include roads that can be negotiated during any portion of the year; "normally accessed" means that it is reasonably feasible to transport persons, food, and other supplies to domiciles by motorized highway vehicles.

Subsistence Hunting, Fishing, and Trapping

5 AAC 99.010. JOINT BOARDS OF FISHERIES AND GAME SUBSISTENCE PROCEDURES. (a) In applying a subsistence priority, the boards will provide for conservation and development of Alaska's fish and game resources according to the following procedures:

(1) Each board will assess the biological status of fish or game resources and determine whether a surplus may be harvested during a regulatory year consistent with the conservation and development of the resources on the sustained yield principle and compatible with the public interest;

(2) Each board will identify subsistence uses of fish or game resources, recognizing that subsistence uses are customary and traditional uses by rural Alaska residents for food, shelter, fuel, clothing, tools, transportation, making of handicrafts, customary trade, barter and sharing.

(b) Customary and traditional subsistence uses by rural Alaska residents will be identified by use of the following criteria:

(1) a long-term, consistent pattern of use, excluding interruption by circumstances beyond the user's control such as regulatory prohibitions;

(2) a use pattern recurring in specific seasons of each year;

(3) a use pattern consisting of methods and means of harvest which are characterized by efficiency and economy of effort and cost, and conditioned by local circumstances;

(4) the consistent harvest and use of fish or game which is near or reasonably accessible from the user's residence;

(5) the means of handling, preparing, preserving and storing fish or game which has been traditionally used by past generations, but not excluding recent technological advances where appropriate;

(6) a use pattern which includes the handing down of knowledge of fishing or hunting skills, values and lore from generation to generation;

(7) a use pattern in which the hunting or fishing effort or the products of that effort are distributed or shared among others within a definable community of persons, including customary trade, barter, sharing and gift-giving, customary trade may include limited exchanges for cash, but does not include significant commercial enterprises; a community for purposes of subsistence uses may include specific villages or town, with a historical preponderance of subsistence users, and in addition encompasses individuals, families, or groups who in fact meet the criteria described in this subsection; and

(8) a use pattern which includes reliance for subsistence purposes upon a wide diversity of the fish and game resources of an area, and which provides substantial economic, cultural, social and nutritional elements of the subsistence user's life.

(c) After identifying subsistence uses based upon the criteria set out in (b) of this section, each board will determine the approximate amount of fish or game necessary to provide fully for reasonable opportunities to engage in these customary and traditional uses.

(d) Each board will adopt regulations that provide an opportunity for the subsistence taking of fish or game resources in amounts sufficient to provide for the customary and traditional uses identified in (b) of this section, and consistent with sound conservation and management practices. In no instance may the subsistence taking jeopardize or interfere with the maintenance of a specific fish stock or game population on a sustained yield basis.

(e) Each board will, in its discretion adopt regulations that provide an opportunity for non-subsistence uses of the resource, to the extent that the non-subsistence uses do not jeopardize or interfere with the conservation and development of fish or game resources on a sustained yield basis, or with the opportunity for taking these resources for customary and traditional subsistence uses as provided in (d) of this section.

(f) When circumstances such as increased numbers of users, weather, predation, or loss of habitat may jeopardize the sustained yield of a fish stock or game population, each board will exercise all practical options for restricting nonsubsistence harvest before subsistence uses are restricted. If all available restrictions for nonsubsistence uses have been implemented and further restrictions are needed, each board will reduce the take for subsistence uses in a series of graduated steps, by giving maximum protection to subsistence users who:

- (1) live closest to the resource;
- (2) have the fewest available alternative resources; and
- (3) have the greatest customary and direct dependence upon the resource.

(g) In no event, however, will a board allow uses which will jeopardize or interfere with the conservation and management of fish stocks or game populations on a sustained yield basis.

SALVAGE OF MEAT FROM BIG GAME ANIMALS AND WILD FOWL

Alaska Statutes AS 16.30.010-.030 provide for the salvage of meat from big game and wild fowl, and prescribe penalties for failure to do so. Information presented below is extracted from these statutes. For full text of the law, refer to Title 16, Alaska Statutes.

It is unlawful for a person who kills a big game animal or species of wild fowl to fail to salvage for human consumption the edible meat of the animal or fowl.

Failure to salvage from a big game animal at least the hindquarters as far as the distal joint of the tibia-fibula (stifle joint) will result in the imposition of additional fines and penalties.

It is unlawful for a person to possess the horns or antlers of a big game animal that was killed after the opening of the current or most recent lawful hunting season for that animal unless the person also possesses the edible meat of the animal. However, this does not apply to the acquisition of the horns or antlers as a gift after the edible meat of the big game animal was salvaged, or the edible meat is no longer present due to personal consumption.

Failure to salvage or possess the edible meat may not be a violation if due to circumstances beyond the control of a person, including theft of the animal or fowl, unanticipated weather conditions or other acts of God, or unavoidable loss in the field to another wild animal.

In this statute, (a) **big game animal** means moose, caribou, mountain sheep, mountain goat, feral reindeer, deer, elk, bison, walrus or muskox; and **wild fowl** means species of wild fowl for which seasons or bag limits have been established by state or federal law.

(b) **edible meat** means, in the case of big game animals, the meat of the ribs, neck, brisket, front quarters as far as the juncture of the humerus and radius-ulna (knee), hindquarters as far as the distal joint of the tibia-fibula (stifle joint) and that portion of the animal between the front and hindquarters; in the case of wild fowl, the meat of the breast; however, **edible meat** of big game or wild fowl does not include: meat of the head; meat that has been damaged and made inedible by the method of taking; bones, sinew and incidental meat reasonably lost as a result of boning or a close trimming of the bones; or viscera.

SECOND DEGREE OF KINDRED

includes the following relatives: son or daughter, grandson or granddaughter, mother, father, grandmother, and grandfather; also included are those persons having the same relation to your spouse.

SPECIAL USE RESTRICTIONS, UNITS 1—26

This section includes all of the following in each Game Management Unit: Controlled Use Areas, Management Areas, areas closed to hunting and state game refuges and sanctuaries.

Game Management Unit 1

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(1) Unit 1(A)

(A) in the Ketchikan area, strip one-fourth mile wide on each side of the Tongass Highway system, including the Ward, Connel and Harriet Hunt Lake Roads, is closed to the taking of big game;

(B) in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bears;

(2) Unit 1(B), the Anan Creek drainage is closed to the taking of black bear;

(3) Unit 1(C)

(A) Unit 1(C) is closed to the taking of snow geese;

(B) in the Juneau area, that area between the coast and a line one-fourth mile inland of the following road systems is closed to the taking of big game: Glacier Highway from Mile 0 to Mile 24 at Peterson Creek, Douglas Highway from the Douglas city limits to Milepost 7 on the North Douglas Highway, Mendenhall Loop Road, and Thane Road;

(C) the area within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor's Center, and the Center's parking area, is closed to hunting;

(D) that area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier, is closed to the taking of mountain goat;

(E) Auke Lake is closed to the taking of waterfowl;

(F) Mt. Juneau drainage bounded by the Glacier Highway, Salmon Creek and its reservoir, a line from the head of the Salmon Creek drainage to the head of Granite Creek, and down Granite Creek and Gold Creek to the Glacier Highway, is closed to the taking of mountain goat;

(4) Unit 1(D), a strip one-fourth mile wide on each side of the Lutak Road between Mile 7 and Chilkoot Lake, and from the Chilkoot River bridge to the end of the Lutak Road spur at the head of Lutak Inlet, is closed to the taking of big game;

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES

(d) The Mendenhall Wetlands State Game Refuge as described in AS 16.20.034, is closed to hunting, except for waterfowl (including snipe and cranes) during established seasons. The use of off-road or all-terrain vehicles, motorcycles, or other motorized vehicles (except boats) within the boundaries of Mendenhall Wetlands State Game Refuge is prohibited. The possession of shotgun shells loaded with shot larger than No. 2 is prohibited. Hunters 15 years old or younger must be accompanied by an adult, or demonstrate, upon request, completion of a certified hunter safety and waterfowl identification course before hunting on the Mendenhall Wetlands State Game Refuge.

Game Management Unit 2

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES

(a) The Forrester Island State Game Refuge (west of Prince of Wales Island) is closed to hunting.

Game Management Unit 3

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) a strip one-fourth mile wide on each side of the Stikine (Zimovia) Highway from the Wrangell city limits to Milepost 9 is closed to the taking of big game;

(B) in the Petersburg vicinity, a strip one-fourth mile wide on each side of the Mitkof Highway from Milepost 0 to Milepost 24 is closed to the taking of big game, except wolves;

(C) the Petersburg Creek drainage on Kupreanof Island is closed to the taking of black bears;

(D) Blind Slough draining into Wrangell Narrows, a strip one-fourth mile wide on each side from the hunting closure markers at the southernmost portion of Blind Island to the hunting closure markers one mile southerly of the Blind Slough bridge is closed to hunting; the remainder of Blind Slough and its drainage is closed to the taking of snow geese.

Game Management Unit 4

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) in the Sitka area, a strip one-fourth mile wide on each side of all state highways is closed to the taking of big game;

(B) Seymour Canal Closed Area (Admiralty Island): all drainages into northwestern Seymour Canal between Staunich Point and the southernmost tip of the unnamed peninsula separating Swan Cove and King Salmon Bay, including Swan and Windfall islands, is closed to the taking of bears;

(C) Salt Lake Bay Closed Area (Admiralty Island): all lands within one-fourth mile of Salt Lake above Klutchman Rock at the head of Mitchell Bay is closed to the taking of bears;

(D) Port Althorp (Chichagof Island): that area within the Port Althorp watershed south of a line from Point Lucan to Salt Chuck Point (Trap Rock) is closed to the taking of brown and grizzly bear.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

(e) The St. Lazaria Islands State Game Refuge (west of Sitka) is closed to hunting.

Game Management Unit 5

None

Game Management Unit 6

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the Goat Mountain goat observation area, which consists of that portion of Unit 6 bounded on the north by Miles Lake and Miles Glacier, on the south and east by Martin River and Martin River Glacier, and on the west by the Copper River, is closed to the taking of mountain goat;

(B) the Heney Range goat observation area, which consists of that portion of Unit 6 south of the Copper River Highway and east of the Eyak River, is closed to the taking of mountain goat.

Game Management Unit 7 & 15

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the Portage Glacier closed area, which consists of Portage Creek drainages between the Anchorage-Seward Railroad and Placer Creek in Bear Valley, Portage Lake, the mouth of Byron Creek, Glacier Creek and Byron Glacier, is closed to hunting except for migratory birds and small game with shotguns after September 1;

(B) the Exit Glacier closed area, which consists of the south side drainages of the Resurrection River downstream from the mouth of Redman Creek, and Resurrection Bay drainages between the mouth of the Resurrection River and the mouth of Lowell Creek, is closed to the taking of big game;

(3) the Cooper Landing closed areas, which consists of

(A) that portion of Units 7 and 15 bounded by a line from the junction of the Sterling Highway and the national forest boundary, then along the national forest boundary to Thurman Creek, then southeasterly along Thurman Creek and the northeast side of Trout Lake, then to the confluence of Juneau Creek and Falls Creek, then easterly along Falls Creek and the North Fork of Falls Creek and over the connecting saddle to Devils Creek, then southeasterly along Devils Creek to its confluence with Quartz Creek, then southwesterly along Quartz Creek to the Sterling Highway and then to the point of beginning is closed to the taking of Dall sheep and mountain goat;

(B) that portion of Unit 7 and 15 bounded by a line beginning at the Sterling Highway crossing the Kenai River, then along the west shore of Kenai Lake to the Forest Service trail west of Porcupine Island, then along the Forest Service trail to Cooper Lake and Cooper Creek, then along Cooper Creek to its confluence with the Kenai River, then east along the Kenai River to the point of beginning, is closed to the taking of mountain goat;

(6) the Moose River closed area near Sterling in Unit 15(A) which consists that area on and within one-quarter mile of the Moose River between the Kenai National Moose Range boundary and the Sterling Highway, is closed to the taking of waterfowl.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(5) the Kenai Controlled Use Area, which consists of Unit 15(A), is closed during Unit 15(A) moose-hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters and moose parts; however, this does not apply to the area north of the Sterling Highway after 12:01 a.m. September 11, and does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between cities, towns, or villages that normally provide scheduled service to this area;

(6) the Lower Kenai Controlled Use Area, which consists of Unit 15(C), is closed to the use of motorized vehicles (except aircraft and boats) for hunting moose from September 11 through September 20, including transportation of moose hunters or moose parts; however, this does not apply to motorized vehicles on highways.

Game Management Unit 8

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

The Semidi Islands State Game Refuge in Unit 8 is closed to hunting.

Game Management Unit 9

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(1) in Unit 9 in the McNeil River State Game Sanctuary, the McNeil River drainage, Mikfik Creek drainage, and all drainages into McNeil Cove from Akjemguiga Cove to McNeil Head, are closed to hunting and the remainder of the McNeil River State Game Sanctuary and contiguous tidelands are closed to brown bear hunting; access to the sanctuary is by permit only. That portion of Unit 9 extending south and east of McNeil River State Game Sanc-

tuary to the boundary of Katmai National Park and Preserve, and including any state land within the boundaries of Katmai National Park and Preserve, is closed to brown bear hunting;

(2) Units 9(E) and 10, except Unimak Island, are closed to the taking of Canada Geese;

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

The Alaska Peninsula Controlled Use Areas, which consists of Pacific Ocean drainages between Cape Igvak and Cape Ayutka, is closed to the use of motorized vehicles, except boats and aircraft, in any manner for big game hunting.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

(b) The Tuxedni State Game Refuge, consisting of Chisik, Egg, and the other islands in Tuxedni Harbor in Cook Inlet, is closed to hunting.

Game Management Unit 10

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(c) The Aleutian Islands State Game Refuge, is closed to hunting with the following exceptions:

(1) Shemya, Attu, and Great Sitkin Islands are open to waterfowl and ptarmigan hunting consistent with 5 AAC 82.065 and 5 AAC 82.165;

(2) Adak Island is open to waterfowl, ptarmigan, and caribou hunting consistent with 5 AAC 82.025-5 AAC 82.165;

(3) Umnak, Atka, Unimak, Unalaska, Akun, Akutan, Sanak, and Tigalda Islands are open to hunting.

(d) The Bogoslof Island State Game Refuge in Unit 10 is closed to hunting.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

(3) in Unit 10, Otter Island in the Pribilof Islands is closed to hunting;

Game Management Unit 11

NO SPECIAL AREA RESTRICTIONS (Contact National Park Service for federal restrictions)

Game Management Unit 12, 13, & 20

ONLY THAT PORTION KNOWN AS THE TOK MANAGEMENT AREA

(A) those portions of Units 12, 13(C), and 20(D) bounded by a line along the Alaska Highway east from the east side of the Johnson River bridge to Tok Junction, then south along the Tok-Slana cutoff (Glenn Highway) to the Slana River, then west along the north bank of the Slana River to its confluence with Lost Creek, then up the north side of Lost Creek to the divide

between Lost Creek and Jack Creek, then north to the Unit 12 boundary then west along the Unit 12 boundary to Mount Kimball (63° 17' N. lat., 144° 40' W. long.), then west in a straight line to Mount Gakona (63° 17' N. lat., 145° 12' W. long.), then northerly along the east bank of the Johnson Glacier and Johnson River to the Johnson River bridge;

(B) the Tok Management Area is open to Dall sheep hunting by permit only.

Game Management Unit 12 (Remainder)

NO SPECIAL AREA RESTRICTIONS

(Contact National Park Service for federal restrictions)

Game Management Unit 13

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the Paxson closed area in Unit 13(B), which consists of the eastern drainage of the Gulkana River lying west of the Richardson Highway and the western drainage of the Gulkana River between the Denali Highway and the north end of Paxson Lake where the Gulkana River enters Paxson Lake, is closed to the taking of big game;

(B) the Sheep Mountain closed area along the Glenn Highway in Unit 13 which is bounded by a line beginning at Caribou Creek, Milepost 107 Glenn Highway, the easterly along the Glenn Highway to Milepost 123, the north to Squaw Creek then downstream to Caribou Creek then down Caribou Creek to the point of beginning, is closed to the taking of mountain goat and Dall sheep.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(2) the Sourdough Controlled Use Area

(A) the Sourdough Controlled Use Area consists of that portion of Unit 13(B) bounded by a line beginning at the confluence of Sourdough Creek and the Gulkana River, then northerly along Sourdough Creek to the Richardson Highway at approximately Mile 148 then northerly along the Richardson Highway to the Meiers Creek Trail at approximately Mile 170, then westerly along that trail to the Gulkana River, then southerly along the east bank of the Gulkana River to its confluence with Sourdough Creek, the point of beginning;

(B) the Sourdough Controlled Use Area is closed to the use of motorized vehicles in any manner for hunting; however, this does not prohibit motorized access or transportation of game on the Richardson Highway, Sourdough, Haggard Creek or Meiers Lake trails, or other trails designated by the department;

(3) the Clearwater Creek Controlled Use Area

(A) the Clearwater Creek Controlled Use Area consists of that portion of Unit 13(B) north of the Denali Highway, west of and including the MacLaren River drainage, and east of and including eastern bank drainages of the Middle Fork of the Susitna River downstream from and including the Susitna Glacier, and eastern bank drainages of the Susitna River downstream from the confluence of the Middle Fork;

(B) the Clearwater Creek Contolled Use Area is closed to the use of motorized vehicles in any manner for hunting; however, this does not prohibit motorized access or transportation of game on the Denali Highway.

(4) the Tonsina Controlled Use Area

(A) the Tonsina Controlled Use Area consists of that portion of Unit 13(D) bounded on the west by the Richardson Highway from the Thompson Pass to Edgerton Junction, on the north by a line from Edgerton Junction along the south bank of the Tonsina River to where the Edgerton Highway crosses the Tonsina River, then along the Edgerton Highway to Chitina, on the east by the Copper River from Chitina to the mouth of the Tasnuna River, and on the south by a line from the mouth of the Tasnuna River, along the north side of Tasnuna River to its source, then through Marshall Pass and along the north side of the Lowe River (Heiden Canyon) to the Richardson Highway at Thompson Pass.

(B) the Tonsina Controlled Use Area is closed to the use of motorized vehicles and pack animals in any manner for hunting, from August 5 to September 30.

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(5) the Tok Management Area, containing a portion of Unit 13(C), is described in 5 AAC 88.500; Dall sheep may be taken from the area only by permit.

Game Management Unit 14

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

Chugach State Park is CLOSED to trapping of squirrels (red, flying or ground), marmot, wolf, wolverine, and beaver; the park is also closed to hunting of brown/grizzly bear, caribou, mountain goat, squirrel, wolf, wolverine and bats, shrews, rat, mice and porcupines.

Chugach State Park is OPEN to trapping of coyote, red fox, lynx, marten, mink, weasel; muskrat, land otter, and raccoon; and to hunting of black bear, moose, dall sheep, coyote, red fox, lynx, raccoon, grouse, hare, ptarmigan, waterfowl, and crows.

(5) the Indian Creek-Falls Creek closed area, near Indian in Unit 14(C) which consists of the drainages of Indian Creek and Falls Creek, is closed to the taking of Dall sheep; the department shall retain the authority to set limited seasons, by permit only, and in consultation with the Division of Parks, to adjust severe imbalances in game animal populations.

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(1) the Fort Richardson Management Area, consisting of the Fort Richardson Military Reservation, is open to taking big game by permit only; conditions of the permits will be set by the department pursuant to 5 AAC 92.050;

(2) Eagle River Management Area, consisting of the Eagle River drainage upstream from the Glenn Highway in Unit 14(C), is closed to hunting except as follows:

(A) all drainages, except within Chugach State Park, are open to small game hunting with a bow and arrow, or shotgun;

(B) sheep hunting is allowed by permit only, in the drainages into Eagle River upstream from the area known as "the gorge," located at the southwest corner of Section 24, T13N, R1E, Seward Meridian, approximately five miles beyond the end of the state-maintained Eagle River Road;

(C) moose hunting is by permit only;

(3) the Anchorage Management Area consists of that portion of Unit 14(C) bounded on the north by the Elmendorf Air Force Base and the Fort Richardson Military reservation boundaries, and on the south by the hydrologic divide between Falls Creek and Rainbow Creek, including all lands and waters within and between the following drainages: Ship Creek south of the Elmendorf Air Force Base boundary, Fish, Campbell, Furrow, Rabbit, Little Rabbit, Potter, McHugh, and Rainbow Creeks; the Anchorage Management Area is closed to hunting except:

(A) hunting is permitted within portions of the Potter Point State Game Refuge;

(B) waterfowl hunting is permitted on the tidelands below the toe of the bluff from Point Campbell to Point Woronzof;

(C) black bears may be taken outside Chugach State Park;

(D) small game other than waterfowl may be taken with bow and arrow throughout the area except in those portions of Potter Point State Game Refuge closed to hunting;

(E) moose hunting is by permit only;

(F) small game and waterfowl may be taken by falconry, except in those portions of Potter Point State Game Refuge closed to hunting and except that waterfowl may not be taken in the Ship Creek drainage west of Post Road;

(G) the Chester Creek drainage between Arctic Boulevard and Turnagain Arm (Westchester Lagoon waterfowl nesting and observation area) is closed to the use of motorized vehicles off designated travel routes;

(4) Eklutna Lake Management Area, consisting of the Eklutna River and Lake drainages in Unit 14(C) upstream from the Glenn Highway, excluding those drainages flowing into the East Fork of Eklutna River upstream from the bridge above the lake and Thunderbird Creek, is closed to hunting except:

(A) small game may be taken outside of Chugach State Park;

(B) moose hunting is by permit only;

(C) black bears may be taken outside of Chugach State Park.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

(A) In the Potter Point State Game Refuge in Unit 14(C), all land and waters south and west of the toe of the bluff which extends from Campbell Point southeasterly to Potter Creek, is closed to hunting and to the use of motorized vehicles with the following exceptions:

(1) that portion of the refuge located west and north of the Alaska Railroad, excluding that portion landward of the elevated fill covering the municipal sewer line between the Klatt Road peat disposal site and Campbell Creek, is open to small game hunting from August 1 to March 31;

(2) the use of motorized vehicles is permitted for transportation purposes only, from December 15 through March 31 in that portion of the refuge located west and north of the New Seward Highway;

(3) the refuge is closed to the discharge of all firearms, except that shotguns may be used in those areas open to hunting from September 1 through March 31;

(4) in addition to the prohibitions set out above, no person may intentionally distribute bread scraps, cereal grains, corn, or other waterfowl foods; or otherwise feed waterfowl, in Potter Point State Game Refuge.

(b) The Susitna Flats State Game Refuge in Units 14 and 16 is open to hunting under the following conditions:

(1) the use of motorized vehicles is permitted from November 9 through March 31;

(2) the use of motorized vehicles except aircraft, hovercraft, boats, and snowmachines is, from April 1 through November 8, restricted to existing road surfaces, and to use within 1/8 mile of mean high tide or as designated by the department;

(3) notwithstanding (1) and (2) of this subsection, the department may issue a permit allowing activities otherwise prohibited by this subsection, for access by people with physical impairments for moving equipment or supplies, and to enhance or facilitate refuge administration and management.

(c) In the Palmer Hay Flats State Game Refuge in Unit 14, no person may transport waterfowl, snipe, cranes or their parts, waterfowl hunters, or waterfowl hunting gear, with the use of a motorized vehicle, except within the main channels of the Knik and Matanuska Rivers and Rabbit Slough (Wasilla Creek), and the waters of Cook Inlet.

Game Management Unit 15

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(5) the Kenai Controlled Use Area, which consists of Unit 15(A), is closed during Unit 15(A) moose-hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters and moose parts; however, this does not apply to the area north of the Sterling Highway after 12:01 a.m., September 11, and does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between cities, towns, or villages that normally provide scheduled service to this area;

(6) the Lower Kenai Controlled Use Area, which consists of Unit 15(C), is closed to the use of motorized vehicles (except aircraft and boats) for hunting moose from September 11 through September 20, including transportation of moose hunters or moose parts; however, this does not apply to motorized vehicles on highways.

Game Management Unit 16

SEE GMU 14 FOR "SUSITNA FLATS STATE GAME REFUGE".

Game Management Unit 17

(4) in Unit 17, the Walrus Islands State Game Sanctuary, which includes Round Island, Crooked Island, High Island, Summit Island, Blue Rock, and adjacent waters, is closed to hunting.

Game Management Unit 18

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(a) Unit 18 is closed to the taking of Canada geese.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

The Bering Sea State Game Refuge in Unit 18 which consists of St. Matthew and Hall Island and Pinnacle Inlet in the Bering Sea, is closed to hunting.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

The Kalskag Controlled Use Area consists of that portion of Unit 18 bounded by a line from Lower Kalskag on the Kuskokwim River northwesterly to the Russian Mission on the Yukon River, then east along the north bank of the Yukon River to the old site of Paimiut, then back to Lower Kalskag. The Kalskag Controlled Use Area is closed to the use of aircraft in any manner for hunting big game, including transportation of big game hunters and big game parts, however this does not apply to transportation of big game hunters or big game parts by regularly scheduled flights to village by carriers that normally provide scheduled service to this area.

Game Management Unit 19

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting.

(6) the Lime Village Management Area

(A) that portion of Unit 19(A) drained by the Stony River from the mouth of the Stink River, including the Stink River drainage, upstream to but not including the Can Creek drainage;

(B) only bull moose taken from September 1 through September 25 and caribou taken from September 1 through October 15 may be transported out of the area; no cow moose and only one caribou may be transported out of the area.

(8) the Upper Kuskokwim Controlled Use area

(A) that portion of Unit 19(D) upstream from the mouth of Big River including the drainages of the Big River, Middle Fork, South Fork, East Fork, and Tonzona River, and bounded by a line following the west bank of the Swift Fort (McKinley Fork) Kuskokwim River from the Kuskokwim River to 152°50'W long., then north to the boundary of Denali National Preserve, then following the western boundary of Denali National Preserve north to its intersection with the Minchumina-Telida winter trail, then west to the crest of Telida to its intersection with the Minchumina-Telida winter trail, then west to the crest of Telida Mountain, then north along the crest of Munsatli Ridge to elevation 1610, then northwest to Dyckman Mountain and following the crest of the divide between the Kuskokwim River and the Nowitna drainage, and the divide between the Kuskokwim River and the Nixon Fork River to Loaf bench mark on Halfway Mountain, then south to the west side of Big River drainage at the point of beginning;

(B) the Upper Kuskokwim Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, in-

cluding transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area.

Game Management Unit 20

DALTON HIGHWAY RESTRICTIONS. Hunters should be aware of restrictions on the use of off-road vehicles off the Dalton Highway in Units 20, 24, 25, and 26(B). State statutes (AS 19.40.210) reads as follows: "AS 19.40.210. Prohibition of off-road vehicles. Off road vehicles are prohibited on land within five miles of the right of way of the highway. However, this prohibition does not apply to a person who holds a mining claim in the vicinity of the highway, and who must use land within five miles of the highway to gain access to his mining claim." Also see "Dalton Highway Corridor Management Area," next page, for restrictions on weapons for hunting.

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(1) Birch Lake and the area within one-half mile of Birch Lake (Unit 20 near Fairbanks) is closed to the taking of big game;

(2) Harding Lake and the area within one-half mile of Harding Lake (Unit 20 near Fairbanks) is closed to the taking of big game;

(3) Lost Lake and the area within one-half mile of Lost Lake (Unit 20 near Fairbanks) is closed to the taking of big game with firearms and crossbows;

(4) the Healy-Lignite closed area (Unit 20(A) near Healy), which consists of the area bounded by a line beginning at the confluence of Lignite Creek and the Nenana River, then upstream along Lignite Creek to its confluence with Sanderson Creek, then to the confluence of Healy Creek and Coal Creek, then to Dora Peak (63°49' N. lat., 148°42' W. long.), then to the confluence of Healy Creek and Moody Creek, then downstream along Healy Creek to the Nenana River, then downstream along the Nenana River to the point of beginning, is closed to hunting.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(1) Delta Controlled Use Area

(A) those portions of Units 13(B), 20(A), and 20(D) bounded by a line beginning on the Alaska Highway at Delta Junction, then east to the Little Gerstle River trail, then south along the west side of the trail to its end, then south-southeast to the west bank of the Johnson River, then southwest along the west bank of the Johnson River and Johnson Glacier to Mount Gakona (63°17' N. lat., 145°12' W. long.) then west to the north edge of Canwell Glacier, then west along the north edge of Canwell Glacier and north bank of Miller Creek to the Richardson Highway (63°22' N. lat., 145°45' W. long.), then across the highway in a straight line to Meteor Peak (63°26' N. lat., 146°29' W. long.), then north to Mount Shand (63°32' N. lat., 146°18' W. long.), then east to the head of McGinnis Glacier (63°33' N. lat., 146°18' W. long.), then northeast along the west bank of McGinnis Glacier and McGinnis Creek to its confluence with Delta River, then across the Delta River to the east side of the Richardson Highway, then north along the highway to Delta Junction;

(B) the Delta Controlled Use Area is closed to the use of motorized vehicles and pack animals in any manner for hunting, from August 5 through August 25; however, this does not prohibit motorized access to the area for

hunting or transportation of game on the Richardson Highway or airports;

(2) the Glacier Mountain Controlled Use Area

(A) that portion of Unit 20(E) bounded by a line beginning at mile 140 of the Taylor Highway, then north along the highway to Eagle, then west along the cat trail from Eagle to Crooked Creek, then from Crooked Creek southwest along the west bank of Mogul Creek to its headwaters on North Peak, then west across North Peak to the headwaters of Independence Creek, then southwest along the west bank of Independence Creek to its confluence with the North Fork of the FortyMile River, then easterly along the south bank of the North Fork of the FortyMile River to its confluence with Champion Creek, then across the North Fork of the FortyMile River to the south bank of Champion Creek and easterly along the south bank of Champion Creek to its confluence with Little Champion Creek, then northeast along the east bank of Little Champion Creek to its headwaters, then northeasterly in a direct line to Mile 140 on the Taylor Highway;

(B) the Glacier Mountain Controlled Use Area is closed to the use of motorized vehicles in any manner for hunting, from August 5 to September 20; however, this does not prohibit motorized access or transportation of game on the Taylor Highway or airports;

(3) the Wood River Controlled Use Area

(A) that portion of Unit 20(A) bounded on the north by the Rex Trail beginning at its intersection with the Totatlanika River and easterly along the trails extension from Gold King airstrip along the north side of Japan Hills to the Wood River; on the east by the Wood River, including the Wood River drainage above and including Snow Mountain Gulch Creek drainage, on the west by the Totatlanika River from the Rex Trail southerly to Dexter Creek, then along Dexter Creek to a point east of Mt. Lathrop, then west to the source of the northern fork of Healy Creek, then down the northern fork of Healy Creek to Healy Creek and down the southern bank to the confluence of the northern fork of Moody Creek and Moody Creek, then southwest to Mt. Fellows, then easterly along the divide separating the drainages of the Yenert River from Healy Creek, Moody Creek, and the Wood River;

(B) the Wood River Controlled Use Area is closed to the use of motorized vehicles (except aircraft) in any manner for big game hunting and transportation of big game parts, from August 1 through September 30;

(4) the Macomb Plateau Controlled Use Area

(A) that portion of Unit 20(D) south of the Alaska Highway, draining into the south side of the Tanana River between the east bank of the Johnson River upstream to Prospect Creek, and the east bank of Bear Creek (Mile 1357.3);

(B) the Macomb Plateau Controlled Use Area is closed to the use of motorized vehicles, except floatplanes on Fish Lake, in any manner for hunting or transportation of game parts, from August 10 through September 30;

(9) the Yanert Controlled Use Area, which consists of that portion of Unit 20(A) drained by the Nenana River upstream from the including the Yanert Fork drainage, is closed to the use of Motorized vehicles, except aircraft, in any manner for big game hunting and transportation of big game parts; however, this does not prohibit motorized access and transportation of game on the Parks Highway.

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(1) the Minto Flats Management Area

(A) that portion of Unit 20 bounded by the Elliot Highway beginning at Mile 118, then northeasterly to Mile 96, then east to the Tolovana Hot-springs Dome, then east to the Winter Cat Trail, then along the Cat Trail south to the Old Telegraph Trail at Dunbar, then westerly along the trail to a point where it joins the Tanana River three miles above Old Minto, then along the north bank of the Tanana River (including all channels and sloughs except Swan Neck Slough), to the confluence of the Tanana and Tolovana Rivers and then northerly to the point of beginning;

(B) the Minto Flats Management Area is open to moose hunting by permit only;

(3) the Dalton Highway Corridor Management Area, consisting of those portions of Game Management Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to the Prudhoe Bay Closed Area, is closed to hunting, except big game and small game may be taken in the area by bow and arrow;

(4) the Fairbanks Management Area

(A) that portion of Unit 20(B) bounded by a line from the confluence of Rosie Creek and the Tanana River, northerly along Rosie Creek to the divide between Rosie Creek and Cripple Creek, then down Cripple Creek to its confluence with Ester Creek, then up Ester Creek to its confluence with Ready Bullion Creek, then up Ready Bullion Creek to the summit of Ester Dome, then down Sheep Creek to its confluence with Goldstream Creek, then easterly along Goldstream Creek to its confluence with First Chance Creek, then up First Chance Creek to Tungsten Hill, then southerly along Steele Creek to its intersection with the Trans-Alaska Pipeline, then southerly along the pipeline right-of-way to the Chena River, then along the north bank of the Chena River to the Moose Creek dike, then southerly along Moose Creek dike to its intersection with the Tanana River, and then westerly along the north bank of the Tanana River to the point of beginning plus the Goldstream subdivision (sec. 33, T 2N, R 1W and SE ¼ SE ¼ Sec 28 T 2N, R 1W, Fairbanks Meridian).

(B) the Fairbanks Management Area is open to moose hunting by bow and arrow only;

(5) the Delta Junction Management Area described as follows, is closed to the taking of moose; that portion of Unit 20(D) bounded by a line beginning at the confluence of Donnelly Creek with the Delta River, then up Donnelly Creek to the Richardson Highway (Mile 238), then north along the east side of the highway to the coal mine road (Mile 242), then east along the south side of the coal mine road to the junction with the trail to Jarvis Creek, then down the east bank of Jarvis Creek to the 33-Mile Loop Road crossing (Mile 12), then northeast along the 33-Mile Loop Road to the intersection with the Alaska Highway (Mile 1414), then southeast along the north side of the Alaska Highway to the bridge at Sawmill Creek (Mile 1403.9), then down the west bank of Sawmill Creek to its confluence with Clearwater Creek and down the Tanana River to its confluence with the Delta River, and upstream along the east bank of the Delta River to the point of beginning at Donnelly Creek.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

In the Creamer's Field Migratory Waterfowl Refuge near Fairbanks in Unit 20, moose may be taken only by bow and arrow. That portion of the refuge within the Fairbanks city limits is closed by city ordinance to the discharge of firearms.

Game Management Unit 21

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(5) the Paradise Controlled Use Area

(A) that portion of Unit 21 bounded by a line beginning at the old village of Paimiut, then north along the west bank of the Yukon River to Paradise, then northwest to the mouth of Stanstrom Creek on the Bonasila River, then northeast to the mouth of the Anvik River, then along the west bank of the Yukon River to the lower end of Eagle Island (approximately 45 miles north of Grayling), then to the mouth of the Iditarod River, then down the east bank of the Innoko River to its confluence with Paimiut Slough, then south along the east bank of Paimiut Slough to its mouth and then to the old village of Paimiut, and including the airport property at Grayling, Anvik, Shageluk and Holy Cross.

(B) the Paradise Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or parts of moose; however, this does not apply to the transportation of moose hunters or parts of moose by regularly scheduled flights to and between villages by carriers that normally provide scheduled air service to this area.

(6) in the Koyukuk Controlled Use Area

(A) those portions of Units 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk, then northerly to the confluence of the Honhosa and Kateel Rivers, then northeasterly to the confluence of Billy Hawk Creek and the Huslia River (65° 57' N.lat., 156° 41' W.long.), then easterly to the south end of Solismunket Lake, then east to Hughes, then south to Little Indian River, then southwesterly to the crest of Hochan-dochta Mountain, then westerly to the north end of Coffee Can Lake, then southerly to Bishop Rock (Yistletaw), then westerly along the north bank of the Yukon River including Koyukuk Island to the point of beginning;

(B) the Koyukuk Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area.

Game Management Unit 22

None.

Game Management Unit 23

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

The Chamisso Island State Game Refuge (near Kotzebue in Unit 23) is closed to hunting.

Game Management Unit 24

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(7) the Kanuti Controlled Use Area

(A) that portion of Unit 24 bounded by a line from the Bettles Field VOR to the east side of Fish Creek Lake, to Old Dummy Lake, to the south end of Lake Todatonten (including all waters of these lakes), to the northernmost headwaters of Siruk Creek, to the highest peak of Double Point Mountain, then back to the Bettles Field VOR;

(B) the Kanuti Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area;

Game Management Unit 25

SEE "DALTON HIGHWAY CORRIDOR MANAGEMENT AREA," UNIT 20

Game Management Unit 26

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(b) In Unit 26, the Prudhoe Bay closed area, which consists of the area bounded by a line beginning at 70° 22' N. lat., 148° W. long., then south approximately 14 miles to a point at 70° 10' N. lat., 148° W. long., then west approximately fifteen miles to a point at 70° 10' N. lat., 148° 40' W. long., then north approximately two miles to a point at 70° 12' N. lat., 148° 40' W. long., then west approximately eight miles to a point at 70° 12' N. lat., 148° 56' W. long., then north approximately 2 miles to a point at 70° 15' N. lat., 148° 56' W. long., then west approximately 12 miles to a point at 70° 15' N. lat., 149° 28' W. long., then north approximately 12 miles to a point at 70° 26' N. lat., 149° 28' W. long., then east approximately 14 miles to a point at 70° 26' N. lat., 148° 52' W. long., then south approximately 2 miles to a point at 70° 24' N. lat., 148° 52' W. long., then east approximately 16 miles to the point at 70° 24' N. lat., 148° 11' W. long., then south approximately 2 miles to point at 70° 24' N. lat., 148° 11' N. long., then east approximately 6 miles to the point of beginning, is closed to the taking of big game.

RABIES INFORMATION

Dept. of Health & Social Services
Division of Public Health

RABIES, a virus disease of the central nervous system which is nearly always fatal, occurs naturally in wild animal populations.

Man can become infected through the bite of a rabies-infected animal (generally a fox, wolf or dog) or through exposure of an open cut or scratch to saliva of an infected animal. For this reason, plastic or rubber gloves should be worn when skinning foxes or wolves.

Most diseased animals act strangely; being unnaturally withdrawn, overly friendly or "mad." The latter action, one in which the animal will bite or attack anything including other animals, people or objects, is most often associated with rabies. "Dumb" rabies also occurs, however, and should be recognized as being equally dangerous. Paralysis, usually of the lower jaw, is its first recognizable symptom.

If bitten by an animal suspected to be rabid, wash the wound thoroughly with copious amounts of soap and water and seek medical aid immediately.

A domestic animal suspected of being rabid should be confined for a minimum of 10 days—if it shows signs of disease, local health officials should be notified. To confirm presence of rabies in a wild animal, send the frozen, undamaged head to a virology laboratory, using the following procedures:

- (1) wear plastic or rubber gloves when handling animals;
- (2) wrap head in absorbent materials and place in plastic bag—secure bag;
- (3) place plastic bag in leak-proof container with some refrigerant material;
- (4) remove gloves and wash hands—burn gloves;
- (5) wrap package and freeze immediately if possible. Call one of the below-listed numbers for information on mailing. When mailing, mark package PERISHABLE and ship prepaid via fastest means to laboratory. Call laboratory and notify as to flight and arrival time.

Specimens from animals suspected to be rabid should be sent to:

Mr. Don Ritter
Virology—Rabies Unit
Arctic Health Research Bldg.
University of Alaska
Fairbanks, Alaska 99701
Telephone: 474-7017, 474-7018.

ATTENTION—HOW CAN YOU HELP PREVENT THE SPREAD OF RABIES?

Transportation of furbearer carcasses (especially foxes) can cause the spread of rabies from areas where the disease commonly occurs (Units 9, 10, 17, 18, 22, 23 and 26) to other areas of the state which are usually free of rabies. We ask you to not transport carcasses across such boundaries. Burning carcasses is the preferred method of disposal.

SEASONS AND BAG LIMITS BY SPECIES AND UNIT

Code Key

- A - Harvest ticket required (5 AAC 92.010).
- B - Arctic Caribou harvest report required (5 AAC 92.010).
- C - Note exception in this unit to the "one bear every 4 regulatory years" bag limit.
- D - See "Salvage of game meat, furs, and hides" (5 AAC 92.220).
- E - Season subject to closure by Emergency Order.
- F - Only those individuals who qualify under federal regulations are allowed to hunt within National Park boundaries.
- G - See special provisions for Unit 8 general brown bear drawing permit hunts (5 AAC 82.230).
- H - Antler restrictions apply. See illustrations of moose antlers, pages 32 and 33.

BIG GAME HUNTING. For areas within units where hunting is closed or subject to various restrictions, see Special Area Restrictions, pages 13 to 20, for the unit in which you wish to hunt. Alaska statutes require the salvage of meat from all big game except bears, wolves, and wolverines. See 'Salvage

of Meat,' page 12. For any hunt that is controlled by registration or drawing permits, see appropriate Permit Hunt Supplement for additional restrictions, provisions, and application procedures. Same-day-airborne restrictions apply to hunting of all big game, except deer. See 5 AAC 92.085(4), page 7.

Unit 9(D)			No open season.	
Unit 9(E) One antlered moose; however, moose taken from Sept. 10—Sept. 20 must have an antler spread of at least 50 inches or have at least three brow tines on at least one of the antlers.	A,H	Sept. 10—Sept. 20 Dec. 1—Dec. 15	Sept. 10—Sept. 20 Dec. 1—Dec. 15	Sept. 10—Sept. 20

MOOSE ANTLER CONFORMATION

Top view of bull moose skull, about 50 inch antler spread, showing brow tines.

Mature bull moose, about 50 inch antler spread. (shaded area indicates brow palm and brow tines)

NOTICE TO MOOSE HUNTERS

Regulations restrict legal harvest of bull moose in several units (e.g. Units 9, 12, and 15) to bulls having an antler spread of 50 inches or more, or three brow tines on one side of the antler. Minimum legal size in most of Unit 13 is 36 inch spread or three brow tines on one antler except in a portions of 13(A). These illustrations are intended to provide general assistance to

hunters in field identification of moose in these categories. It must be emphasized, however, that moose antlers vary considerably in conformation, and each hunter is responsible for judgements as to legality of animals taken. (See moose seasons and bag limits, Unit 9, 12, 13, and 15; also see definition of brow tine, page 10).

MOUNTAIN OR DALL SHEEP

- Horns must accompany meat from the field (5 AAC 92.150).
- Except for subsistence hunts in Units 23, 24, 25(A), 26(A), and 26(C), legal game is a ram with 7/8 curl horn or larger, or in Units 12 and 20, a ram with full curl horn or larger. See illustration, below.

Units 6, 7, 9, 11, 14(B), 15, 16, 17, and 19

One ram with 7/8 curl or larger

A,F

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Units 12, 13, and 20, that portion known as the Tok Management Area

One ram with full (4/4) curl horn or larger or with both horns broken, every four regulatory years, by drawing permit only. 120 permits will be issued.

Aug. 20—Sept. 20

Aug. 20—Sept. 20

Remainder of Unit 12

One ram with full (4/4) curl horn or larger or with both horns broken.

A

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Units 13 and 20, that portion known as the Delta Controlled Use Area

One ram with full (4/4) curl horn or larger or with both horns broken, by drawing permit only. 150 permits will be issued.

Aug. 20—Sept. 20

Aug. 20—Sept. 20

Remainder of Unit 13

One ram with 7/8 curl horn or larger.

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Unit 14(A)

One ram with 7/8 curl horn or larger.

A

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Unit 14(C)

One ram with 7/8 curl horn or larger by drawing permit only; 180 permits will be issued.

Aug. 25—Sept. 30

Aug. 25—Sept. 30

Unit 20(E), that portion known as Glacier Mountain Controlled Use Area.

One ram with full curl horn or larger, or with both horns broken.

A

Aug. 10—Sept. 20

Aug. 10—Sept. 20

Remainder of Unit 20(E), and that portion of Unit 20(D) north of the Alaska Highway

One ram with full curl horn or larger, or with both horns broken by drawing permit only. 12 permits will be issued.

Aug. 20—Sept. 20

Aug. 20—Sept. 20

Remainder of Unit 20

One ram with full curl horn or larger, or with both horns broken.

A

Aug. 10—Sept. 20

Aug. 10—Sept. 20

This sheep has a 7/8 curl horn. A full curl horn would end further up at the 360° line.

ALASKA FISH & WILDLIFE SAFEGUARD

Alaska's Fish and Wildlife Safeguard pays
cash for information on poachers.

HOW CAN I HELP?

If you see or hear of a fish or wildlife violation, report it. Call the operator and ask for Zenith 3377, a toll-free number. Also, you can contribute to the reward fund which makes the program possible. *Contributions are tax deductible.* Checks should be made payable to:

Alaska Fish & Wildlife Safeguard
P.O. Box 6188 Annex
Anchorage, AK 99502

To:

Alaska Department of Fish & Game
P.O. Box 3-2000
Juneau, Alaska 99802
