

ALASKA GAME REGULATIONS

Effective Dates

July 1, 1988—June 30, 1989

No. 29 Governing recreational, subsistence and commercial uses of Alaska's wildlife

HOW TO USE THIS BOOKLET

- 1) First read the statewide general information on pages 1 through 10.
- 2) Determine the Game Management Unit (GMU) in which you wish to hunt by studying the maps provided inside.
- 3) Using the Table of Contents on page i, turn to the species you wish to hunt. If there is bold material to the right of the species heading, please read it.
- 4) Next, move down the left-hand column until you come to the desired unit (found in bold). The bag limit appears just below. When seasons or bag limits differ for various 'types' of hunter, read under either **Subsistence Hunter**, **Resident Hunter**, or **Nonresident Hunter**, depending on which category is right for you.
- 5) You will find the dates for open season to the right for each of the three categories, for big game. You will find that seasons and bag limits for fur animals, small game and unclassified game are the same (seasons and bag limits) for all three types of hunters.
- 6) Please notice the **CODE KEY** column in the big game section. The letters there will direct you to other material to read before you hunt. The Code Key is explained on page 25.
- 7) Finally, look up the unit in which you wish to hunt in the Section **Special Use Restrictions by Game Management Unit**, pages 11 to 17. Here you will find areas within your chosen unit in which hunting is closed or restricted, or methods of access controlled.

Alaska Board of Game
Alaska Department of Fish and Game

NOTICE

THIS SUMMARY OF REGULATIONS IS NOT COMPLETE OR QUOTED VERBATIM FROM STATE LAW. IT IS SIMPLIFIED FOR YOUR CONVENIENCE.

For further details, consult your local Department of Fish and Game representative, Division of Game in:

Anchorage	Douglas	Juneau	Nome

Compiled and Edited by: Steven R. Peterson
Division of Game

THIS BOOKLET OF REGULATIONS INCLUDES ONLY THOSE PORTIONS OF TITLE 5, ALASKA ADMINISTRATIVE CODE AS PROMULGATED BY THE BOARD OF GAME, THAT PERTAIN TO GENERAL AND SUBSISTENCE HUNTING, OTHER RECREATIONAL USES, AND COMMERCIAL USES OF ALASKA'S WILDLIFE.

Other sections of 5 AAC that control or affect other uses of game (such as marine mammal management, control of predation by wolves, raptor regulations, permit procedures for McNeil River State Game Sanctuary, disposal of muskoxen, importation of exotic game, etc.) are included in a separate booklet entitled *Miscellaneous Game Regulations*, available at all Department offices.

Refer to the special insert of **ALASKA GAME MANAGEMENT UNIT** maps, with unit descriptions, to identify the boundaries of the units and subunits and to locate areas having special restrictions. **SEPARATE GMU MAPS WILL NOT BE PRINTED THIS YEAR.**

STATEWIDE INFORMATION

• **IT IS YOUR RESPONSIBILITY TO CHECK WITH THE LANDOWNER BEFORE YOU HUNT. FOR LOCAL LAND STATUS INFORMATION, CONTACT THE APPROPRIATE FEDERAL AGENCY (BUREAU OF LAND MANAGEMENT, NATIONAL PARK SERVICE, UNITED STATES FISH AND WILDLIFE SERVICE, MILITARY), ALASKA DEPARTMENT OF NATURAL RESOURCES, NATIVE CORPORATIONS OR PRIVATE LANDOWNERS.**

• **HUNTING ON MILITARY LANDS.** Civilians are allowed to hunt on some military lands in Alaska, but such areas usually require a permit from military authorities. Because of unexploded ordnance or live-fire exercises hunters should check with appropriate military authorities before going on these lands.

• **HUNTING IN STATE PARKS.** Portions of the State Park System are open to lawful hunting; **HOWEVER**, the laws pertaining to discharge of firearms vary from park to park. Many state parks, recreation areas and other areas closed to the discharge of firearms are open to hunting by other

means, such as bow and arrow. For specific information, call the offices of the State Division of Parks, Department of Natural Resources.

• **LOCAL RESTRICTIONS.** Local regulations, ordinances or rules by State Parks, the landowner or the municipality may prohibit access or discharge of firearms.

• **HUNTING IN UNITS OF THE NATIONAL PARK SYSTEM.** Those portions of the National Park System titled **Preserve** are open to sport hunting. Those areas titled **Park** or **Monument** are closed to all hunting except by those who qualify under federal regulations as subsistence users for areas allowing such uses. Hunting seasons and bag limits will be in accordance with state regulations. For specific information contact the National Park Service (Anchorage telephone number: (907) 271-4551).

• **ANY SEASON MAY BE CLOSED BY EMERGENCY ORDER WHEN DESIRED HARVEST IS OBTAINED.**

General Information

Peace officers of the state may, upon request, inspect licenses, tags, permits, stamps, tickets, game, and any apparatus designed to be, and capable of being used to take game. It is against state law to falsify any information required on any state document.

General Hunting seasons are those in which all hunters, resident and nonresident, may participate.

Subsistence hunting seasons are those in which only those rural Alaska residents who have been determined to have a customary and traditional use of that species of game in that area, may hunt.

Marine Mammal Hunting is presently controlled by the federal government. Please contact the U.S. Fish and Wildlife Service for information on hunting walrus, polar bear and sea otter. Contact the U.S. Department of Commerce for information on hunting seals, sea lions, and belukha.

Off-road vehicle use. State law requires that any motorized vehicle crossing of anadromous fish streams (salmon, trout, sheefish or whitefish), be regulated under terms of a Department permit. Hunters are advised to contact the Alaska Department of Fish and Game, Habitat Division, at Anchorage, Fairbanks, or Juneau for further information before going afield.

Some Common Violations

Highway littering. It is unlawful to leave any portion of a game animal on a highway or highway right-of-way. Please leave entrails, hides, etc., in the field out of sight of roads or trails. Take your grocery litter home for disposal.

Shooting on or across a highway. It is unlawful to shoot from, on or across the drivable surface of any constructed road.

Failure to validate a harvest ticket. Harvest tickets (stubs) must be validated **IMMEDIATELY** after the kill is made by completely removing from the ticket the day and month on which the game was taken. **IMMEDIATELY** means before moving the game from the kill site.

Picking up live baby animals. Taking or holding live game (including birds) is unlawful without a permit from the Department of Fish and Game. If you think animals have been abandoned or hurt, call the nearest Department of Public Safety office (Fish and Wildlife Protection), or Alaska Department of Fish and Game office.

Notice to hunters. Hunters who kill game, and who may not wish to utilize all the meat legally required to be salvaged, are urged to contact the village council of the nearest town or village to offer the meat for their use. Wild game is important to many local Alaskans. When giving game meat to another, be sure to obtain from the person to whom you gave the meat a written statement acknowledging receipt of the meat.

Licenses, Metal Locking Tags and Fees

Where to obtain licenses, metal locking tags, harvest reports and tickets. Licenses and big game metal locking tags may be obtained from any designated issuing agent or by mail from the Department of Revenue, Fish and Game Licensing Section, 1111 W. 8th Street, Room 108, Juneau, Alaska 99801. Phone (907) 465-2376.

Harvest reports with attached harvest tickets may be obtained without charge from any licensing agent or Department of Fish and Game office.

False statements, alterations and transfers. Any false statement as to any material fact in an application for a license renders the license null and void, and the person making the false statement is guilty of a violation of these regulations. Any person who alters, changes, loans or transfers any license,

tag, or harvest ticket issued to him under these regulations is guilty of a violation of these regulations. Similarly, any person who uses any license, tag, or harvest ticket other than the one issued to him under these regulations is guilty of a violation of these regulations, except as provided for blind persons.

Guides required for nonresident hunters. Nonresidents are required to have a guide or be accompanied by an Alaskan resident over 19 years of age within the second degree of kindred by blood or marriage (see **Definitions**) when hunting brown/grizzly bear and Dall sheep.

It is unlawful for a nonresident alien to hunt, pursue or take a big game animal as defined by the Board of Game unless personally accompanied by a person who is licensed as a master guide, registered guide or Class-A assistant guide.

For more information regarding guiding, contact the Department of Commerce and Economic Development in Juneau, Alaska—phone 465-2542. A current guide register may be obtained from the following address (cost \$5.00):

Department of Commerce and Economic Development
Guide Licensing and Control Board
Box D—State Office Building
Juneau, Alaska 99811

LICENSE PERIOD. Hunting licenses and big game metal locking tags are valid for the period January 1 to December 31, inclusive, of the year for which they are issued, except that a resident trapping license purchased on or after January 1 is valid through September 30 of the following calendar year.

RESIDENT LICENSE FEES

Trapping license	\$10.00
Hunting license	\$12.00
Hunting and trapping license	\$22.00
Hunting and sport fishing license	\$22.00
Hunting, trapping, and sport fishing license	\$32.00

However, the fee is 25 cents for the head of a family or dependent member of his family or one solely dependent upon himself for support upon proof presented by the applicant that the applicant (A) is obtaining or has obtained assistance during the preceding six months under any state or federal welfare program to aid the indigent, or (B) has an annual gross income of less than \$5,600 for the year preceding application. The 25 cent license is a regular hunting, trapping and sport fishing license and entitles the licensee to all of the privileges, but only those privileges, granted to any other person with a hunting, trapping and sport fishing license. It is **not** a subsistence license.

No license is required for an Alaskan resident over 60 years of age who has lived in the state for one year or more. A permanent identification card issued by the State of Alaska Department of Revenue is required. The I.D. card replaces the sport fishing, hunting and trapping license, and is issued at no charge to the resident.

Fur dealer license, (biennial)	\$100.00
Taxidermy license, (biennial)	\$150.00
Fish or game farming license, (biennial)	\$200.00

No license is required of an Alaskan resident under 16 years of age, for hunting or trapping. Licenses and big game tags are required of all nonresidents, regardless of age, for hunting and trapping. However, all residents, regardless of age, intending to hunt brown/grizzly bear, are required to possess a resi-

dent brown/grizzly bear tag. Brown/grizzly bear tags expire on December 31 of the year for which they are issued.

A veteran may receive a resident hunting and sport fishing license without charge if the person

- (1) has been discharged from military service under honorable conditions;
- (2) is eligible for a loan under AS 18.56.101; and
- (3) is certified by the United States Veterans' Administration as having incurred a 50 percent or greater disability during military service. This license is available only from Department of Revenue, Fish & Game Licensing Section, 1111 W. 8th Street, Room 108, Juneau, Alaska 99801.

RESIDENT BIG GAME TAGS AND FEES

(Tags are valid only from January 1 through December 31)

Muskoxen Tags

Bull:	
Nunivak Island	\$500.00
Nelson Island and Unit 26(C)	25.00
Cow:	
Nelson and Nunivak Islands and Unit 26(C)	25.00
Bear, brown or grizzly	each 25.00
(Not required in Unit 20(E))	
Drawing permit application fee	each 5.00
Drawing permit application fee for muskoxen and bison	each 10.00
Military small game hunting license	12.00
Military small game hunting and sport fishing license	22.00
Alaska State Waterfowl Stamp	5.00

NONRESIDENT FEES AND BIG GAME METAL LOCKING TAGS

(Only valid from January 1 through December 31)

A nonresident may not take a big game animal without previously purchasing a numbered, nontransferable, appropriate tag, issued to him as provided in this subsection. The tag shall be affixed to the animal immediately upon capture and shall remain affixed until the animal is prepared for storage, consumed, or exported.

Fees for **NONRESIDENT** licenses are as follows:

Hunting license	\$60.00
Hunting and sport fishing license	96.00
Hunting and trapping license	200.00
Fur dealer license	200.00
Taxidermy license	200.00

Metal locking tags are issued to an individual and are nonrefundable and nontransferable.

Metal locking tags must be affixed and locked to an animal immediately upon taking and must remain affixed and locked until the animal is prepared for storage, consumed, or exported. Bear tags should be affixed to the hide.

A single metal locking tag may be used to satisfy the tagging requirements for any species for which the tag fee is of equal or less value, but only during the calendar year in which the tag is issued.

Fees for **NONRESIDENT** big game locking tags are as follows:

Bear, black	each \$ 200.00
Bear, brown or grizzly	each 350.00
Bison	each 350.00

Caribou	each	300.00
Dall Sheep	each	400.00
Deer	each	135.00
Elk	each	250.00
Moose	each	300.00
Mountain Goat	each	250.00
Muskoxen	each	1,100.00
Wolf	each	150.00
Wolverine	each	150.00

Provisions for Military Personnel Members of the military service on active duty who are permanently stationed in the state, and their dependents, who do not qualify as residents under AS 16.05.940(14), may obtain special nonresident military small game and sport fishing licenses at the rates for resident hunting and sport fishing licenses, but may not take a big game animal without previously purchasing a regular nonresident hunting license (at full cost) and a numbered, nontransferable appropriate tag, issued at one-half of the nonresident rate.

Note: Military personnel may hunt big game without a state license on any military property open to hunting in the state, but must abide by all other provisions of state law.

All nonresidents, regardless of age, must have a valid hunting license and tag(s) in their possession while taking or attempting to take game.

Alien persons not lawfully admitted to the United States are prohibited from taking game in the State of Alaska or its waters.

Residency. Alaska statute 16.05.940(19) defines "resident," for the purpose of the Fish and Game Code, as follows: "resident" means a person who for the preceding 12 consecutive months has maintained a permanent place of abode in the state and who has continually maintained a voting residence in the state; however, a member of the military service who has been stationed in the state for the preceding 12 consecutive months is a resident for the purposes of this paragraph, and the dependent of a resident member of the military service, who has been living in the state for the preceding year is a resident for the purposes of this paragraph, and a person who is an alien but who for one year has maintained a permanent place of abode in the state is a resident for the purposes of this paragraph.

Harvest report period. In certain cases, hunters must possess harvest reports. Harvest reports are valid during the period July 1 through June 30 of the following year, but must be filled out totally and mailed within 15 days after taking the appropriate animal OR within 15 days after the closing date of that species' season. The reports NEED NOT be carried afield.

Harvest ticket is the numbered stub issued with the harvest report. The stubs must be carried when hunting a particular species. The **harvest report**, attached to the harvest ticket, need not be carried afield but must be filled out and mailed after taking an animal or after the season closes.

STATE WATERFOWL CONSERVATION TAG (STAMP)

No person may hunt for waterfowl in Alaska without having in possession an Alaska state waterfowl conservation stamp, signed across the face, unless that person:

- (a) qualifies for a 25 cent license; or
- (b) is a resident under the age of 16; or

(c) is an Alaska resident the age of 60 or over; or

(d) is a disabled veteran eligible for a free license under AS 16.05.341.

Note: No person 16 years of age or older may take waterfowl unless that person has a current, validated, federal migratory bird hunting stamp (duck stamp) in possession.

Statewide Provisions—General

5 AAC 92.001. APPLICATION OF THIS CHAPTER. Except as specifically provided otherwise, the regulations in this chapter apply statewide, to subsistence hunting, general hunting, and trapping, as applicable.

5 AAC 92.002. LIABILITY FOR VIOLATIONS. Unless otherwise provided in 5 AAC 78—5 AAC 92, or in AS 16, a person who violates a provision of 5 AAC 78—5 AAC 92 is strictly liable for the offense, regardless of that person's intent.

Licenses, Harvest Tickets, Harvest Reports, Tags, and Fees

5 AAC 92.010. HARVEST TICKETS AND REPORTS. (a) Deer: no person may hunt deer, except in a permit hunt, unless the person has in possession a deer harvest ticket.

(b) Moose and sheep: no person may hunt moose or sheep, except in a permit hunt, unless the person has in possession a harvest ticket for the species and obtained a harvest report (attached to the harvest ticket).

(c) Caribou:

(1) No person may hunt caribou south of the Yukon River, except in a permit hunt, unless the person has in possession a Caribou harvest ticket and obtained a Caribou harvest report (attached to the harvest ticket).

(2) No person may hunt caribou north of the Yukon River unless the person has registered to hunt caribou in the Northwest Arctic or obtained an Arctic Caribou harvest report.

(d) For a permit hunt, the permit takes the place of a harvest ticket and report.

(e) After killing an animal for which a harvest ticket is required, a person must remove immediately (before leaving the kill site) the day and month of the kill from the harvest ticket without removing any other day or month and must have the validated harvest ticket in possession until the animal has been delivered to the location where it will be processed for consumption.

(f) The number of each harvest ticket issued must be entered on the hunter's license. Harvest tickets issued the previous calendar year and still valid must also be entered on the hunting license.

(g) Within 15 days after taking the bag limit or within 15 days after the close of the season, the hunter must complete the harvest report and mail it.

5 AAC 92.012. LICENSES AND TAGS. (a) No license is required of a resident under the age of 16 for hunting or trapping. Licenses and big game tags are required of nonresidents regardless of age, for hunting and trapping.

(b) Upon request from a peace officer of the state, licenses, tags, and game, and any apparatus designed to be, and capable of being used to take game, must be presented for inspection.

(c) No resident may take a brown or grizzly bear (except as provided in 5 AAC 92.014), or a musk ox, without possessing a numbered, non-transferable, appropriate tag, issued to that person. The tag must be affixed to the animal immediately and must remain affixed until the animal is prepared for storage, consumed or exported.

5 AAC 92.014. BROWN AND GRIZZLY BEAR TAG FEE EXEMPTION. No resident tag or tag fee is required for taking brown or grizzly bear in Unit 20(E).

5 AAC 92.015. FUNERAL POTLATCH REPORT. Any person who takes a moose for a funeral potlatch as authorized in Frank V. State 604 P.2d 1068 (Alaska 1979), shall, as soon as practicable, and not later than 15 days after the taking of the moose, submit a report to the Alaska Department of Fish and Game, P.O. Box 3-2000, Juneau, Alaska 99802, or the nearest office of the department, specifying the name and address of the person taking the moose, the date and location of take, and the name of the decedent for whom the potlatch was held.

5 AAC 92.016. MUSKOXEN TAG FEE. (a) The resident tag fee for hunting either sex muskoxen on Nelson Island or unit 26(C), or cow muskoxen on Nunivak Island, is \$25.

PERMITS

5 AAC 92.020. APPLICATION OF PERMIT REGULATIONS AND PERMIT REPORTS. Regulations in secs. .025—.052 of this chapter apply to various nontransferable permits issued by the department for the possession or taking of game, and to conditions and procedures for permit hunts. No person may falsify any fact on an application, affidavit, permit, or report form required by the permit or by the regulations in secs. .020—.052 of this chapter. Reports required must be made in accordance with the instructions on the permit and submitted to the department before, or upon, expiration of the permit, unless otherwise specified.

5 AAC 92.025. PERMIT FOR EXPORTING RAW SKINS. (a) No person may ship, mail, export, or otherwise transport from Alaska any raw skin of a wild fur animal or fur bearer unless the person obtains an export permit (shipping tag) and an export report (postcard) available from the department, post offices, or commercial carriers.

(b) The permittee shall attach the export permit to the outside of any package containing a raw skin of a wild fur animal or fur bearer for export. The permittee must state on the permit that the skin or skins were legally taken and possessed. No carrier or post office may accept for shipment out of Alaska any raw skin of a wild fur animal or fur bearer unless an export permit is attached. Before shipment, the permittee must detach the export report from the export permit, complete it, and mail it to the department.

5 AAC 92.027. PERMIT FOR EXPORTING TROPHIES. (a) No person may export from Alaska a raw, unprocessed or unmounted big game trophy unless the container in which the trophy is shipped, or the trophy itself, if

not in a container, has attached to it in a clearly visible manner an export permit (shipping tag) provided by the department setting forth the name and address of the person taking the trophy, the name and address of the shipper and the species and parts being shipped.

(b) Upon request from a peace officer of the state, or federal fish and wildlife agent, the person shipping or receiving a raw unprocessed or unmounted big game trophy must allow inspection of the trophy.

(c) The export permit (**shipping tag**) required by (a) of this section must remain attached to the container or trophy until a final destination is reached and the trophy received for processing or utilization.

(d) As used in this section, **big game trophy** means the raw, unprocessed or unmounted horns, antlers or cape of any big game animal, or the hide of a black, brown or grizzly bear.

TROPHY HUNTERS AND GUIDES. A federal wildlife export permit (CITES permit) is required **BEFORE** brown/grizzly bears, wolves, lynx, or river otters may be shipped out of the country. For further information, contact the Office of Management Authority P.O. Box 27329 Central Station, Washington, D.C. 20038-7329, or a local office of the U.S. Fish and Wildlife Service.

5 AAC 92.050. REQUIRED PERMIT HUNT CONDITIONS AND PROCEDURES. The following conditions and procedures for permit issuance apply to each drawing, or registration hunting permit:

(1) the applicant or the applicant's agent shall complete the application form; a permit application that is incomplete or that contains a false statement is void;

(2) no person may apply for more than three different drawing permit hunts for the same species per regulatory year nor may any person submit more than one application for the same drawing permit hunt during a regulatory year; the commissioner shall void all duplicate applications and all applications by one person for more than three hunts for the same species; no person may hold more than one permit for the same species per regulatory year.

(3) the permittee must keep the permit in possession while hunting;

(4) permit issuance:

(A) the department shall issue registration permits in the order applications are received, and drawing permits on a lottery basis;

(B) a successful applicant must obtain the permit and appropriate license and big game tag within a specified time, if so required by the department;

(C) unless otherwise provided, if a drawing is undersubscribed, surplus permits are void and will not be issued;

(5) a permit is nontransferable;

(6) immediately after killing a big game animal for which a permit is required, the permittee shall cancel the permit by removing from the permit the day and month on which the kill was made, without obliterating or destroying any other day and month printed on the permit.

(7) a person who has been issued a drawing permit shall return the permit to the department with a report of harvest within the time period stated on the permit; permittees failing to provide the required report may not be issued any drawing hunt permit during the following regulatory year. A person

aggrieved by this section shall be granted a hearing before the commissioner or his designee if the permittee makes such a request in writing to the commissioner within 180 days after the conclusion of the permit hunt for which he has failed to provide a report. The commissioner may determine that the penalties of this section will not be applied if the permittee provides the information required on the report and if the commissioner determines that the failure to provide the report was the result of unavoidable circumstance.

Methods and Means

5 AAC 92.075. LAWFUL METHODS OF TAKING GAME. (a) Big game may be taken as follows:

(1) with a shotgun, muzzle-loading rifle, or rifle or pistol using center-firing cartridges, however, in Unit 23 swimming caribou may be taken from a boat with a .22 caliber weapon using rimfire cartridges;

(2) with a crossbow, except that a crossbow may not be used to take big game in areas restricted to taking by bow and arrow only;

(4) with a longbow, recurve bow, or compound bow capable of casting a broadhead-tipped arrow at least 175 yards horizontally, which collectively are termed "bow and arrow" for the purposes of these regulations; arrows must be tipped with broadheads, and arrow and broadhead together must weigh at least one ounce (437.5 grains); broadheads may not be barbed;

(5) black bears may be taken with the use of bait between April 15 through June 15, but only in Units 1-3 (except 1(C)), 5-7 (except Resurrection Creek and its drainages), 11-17 (except 14(C)), 19-21, 24 and 25. In these units, baiting of black bear is subject to the following restrictions:

(A) only biodegradable materials may be used for bait; only the heads, bones, viscera, or skin of legally harvested fish and game may be used for bait;

(B) no person may use bait within one-quarter mile of a publicly maintained road or trail;

(C) no person may use bait within one mile of a house or other permanent dwelling, or within one mile of a developed campground or developed recreational facility;

(D) a hunter using bait shall clearly mark the bait station with a sign which displays the hunter's name and current address, phone number, hunting license number, and a number assigned by the department;

(E) a hunter using bait shall remove litter and equipment from the bait station site when hunting is completed.

(F) no person may give or receive remuneration for the use of a bait station, including barter or the exchange of goods; however, this does not apply to licensed master or registered guides, or their assistant guides, who personally accompany the clients at the bait station site.

(G) no person may have more than two (2) bait stations established at any one time.

(H) no person may establish a black bear bait station unless he first registers the site with the Department of Fish and Game. Registration shall consist of completely filling out a registration form, available at all Game Division offices in units open to bear baiting and assignment of a registration number.

(b) **Small game and unclassified game** may be taken by any method unless prohibited in 5 AAC 92.080.

(c) **Fur animals** may be taken while hunting by any method unless prohibited in 5 AAC 92.080 and 5 AAC 92.090.

5 AAC 92.080. UNLAWFUL METHODS OF TAKING GAME. The following methods of taking game are prohibited:

(1) by shooting from, on, or across a highway;

(2) with the use of poisons except with the written consent of the board;

(3) with the use of a helicopter in any manner, including transportation to or from the field of any unprocessed game or parts of game, hunters or hunting gear, or any equipment used in the pursuit or retrieval of game; this paragraph does not apply to transportation of hunters, hunting gear, or game during emergency rescue operations in a life-threatening situation;

(4) unless otherwise provided in this chapter, from any mechanical vehicle or from a motordriven boat unless the motor has been completely shut off and the boat's progress from the motor's power has ceased, except that a motor-driven boat may be used to take caribou in Unit 23.

(5) with the use of an aircraft, snowmachine, motor-driven boat, or other motorized vehicle for the purpose of driving, herding, or molesting game;

(6) with the use or aid of a machine gun, set gun, or a shotgun larger than 10 gauge;

(7) with the aid of a pit, fire, artificial light (except that coyotes may be taken in Units 6(B) and 6(C) with the aid of artificial lights), radio communications, artificial salt lick, explosive, barbed arrows, bombs, smoke, chemical, or a conventional steel trap with a jaw spread over nine inches, except that the "conibear" style trap with a jaw spread of less than 11 inches may be used.

(8) with a snare, except for taking a fur bearer, grouse, hare or ptarmigan.

5 AAC 92.085. UNLAWFUL METHODS OF HUNTING BIG GAME. The following means of taking big game are prohibited in addition to the prohibitions in 5 AAC 92.080.

(1) with the aid or use of a dog, except that dogs may be used to hunt black bear by permit issued at the discretion of the department;

(2) with the use of traps or snares;

(3) while big game animals are swimming, except that swimming caribou may be taken in Unit 23;

(4) no person who has been airborne, except in regularly scheduled jet aircraft flights, may take or assist in taking a big game animal until after 3:00 a.m. following the day in which the flying occurred; however, this paragraph does not apply to taking deer, or to taking wolves in Units 9, 17, 19, 21, 23, 24, 25(B), 25(C), and 25(D) during August 10-March 31.

(5) in units 1-5, no person may take big game from a boat.

5 AAC 92.090. UNLAWFUL METHODS OF HUNTING FUR ANIMALS. The following methods and means of taking fur animals under a hunting license are prohibited in addition to the prohibitions in 5 AAC 92.080:

(1) with the use of a dog, trap, snare, net, or fish trap;

(2) by disturbing or destroying dens;

(3) no person who has been airborne may use a firearm to take or assist in taking an arctic or red fox until after 3:00 a.m. on the day following the day in which the flying occurred.

5 AAC 92.100. UNLAWFUL METHODS OF HUNTING WATERFOWL, SNIPE, AND CRANES. (a) The following methods and means of taking waterfowl, snipe, and cranes are prohibited in addition to the prohibitions in 5 AAC 92.080:

(1) with a rifle or pistol, a shotgun larger than 10 gauge, or a shotgun not plugged to a 3 shell capacity;

(2) from a motor-driven boat unless the motor has been completely shut off and the boat's progress from the motor's power has ceased;

(3) from any mechanical vehicle; however, a power or sailboat may be used as a means of retrieving a dead or injured bird;

(b) A hunter may pluck waterfowl in the field, but must leave one fully feathered wing or the head attached while transporting the waterfowl.

(c) No person may take waterfowl from sunset to one-half hour before sunrise.

Possession and Transportation

5 AAC 92.130. RESTRICTION TO BAG LIMIT. (a) A person may not hunt or take a species of game in a unit or portion of a unit if that person's total statewide take of that species already equals or exceeds the bag limit for that unit or portion of a unit in that regulatory year.

(b) The bag limit specified for a subsistence season for a species and the bag limit set for a general season for the same species are not cumulative. This means that a person who has taken a bag limit for a particular species under a subsistence season may not after that, take any additional animals under the bag limit specified for a general season.

(c) A bag limit applies to a regulatory year unless another time limit is specified in the bag limit.

5 AAC 92.135. TRANSFER OF POSSESSION. Any person who gives or receives game or parts of game shall furnish upon demand a signed statement describing the following: The names and addresses of persons who gave and received game, when and where the game was taken, and what game or parts of game was transferred.

5 AAC 92.140. UNLAWFUL POSSESSION OR TRANSPORTATION OF GAME. (a) No person may possess, transport, or place into the possession of another, any game or parts of game that the person has taken in violation of AS 16 or a regulation promulgated thereunder.

(b) No person may possess or transport game or parts of game received from a person who took the items contrary to AS 16 or a regulation promulgated thereunder, if the person receiving the items knows, has reason to know, or should know that the item was taken in violation of AS 16 or a regulation promulgated thereunder.

(c) No person may possess or transport game or parts of game that the person knows were taken in violation of AS 16 or a regulation promulgated thereunder.

5 AAC 92.150. EVIDENCE OF SEX AND IDENTITY. (a) No person may possess or transport a Dall sheep unless both horns accompany the animal.

(b) If the taking of a big game animal, except sheep, is restricted to one sex, no person may possess or transport the carcass of the animal which does not have sufficient portions of the external sex organs attached to indicate conclusively the sex of the animal. However, this section does not apply to the carcass of a big game animal which has been cut and placed in storage or otherwise prepared for consumption upon arrival at the location where it is to be consumed.

(c) If a moose bag limit includes an antler size or configuration requirement, no person may possess or transport the moose carcass or its parts unless both antlers accompany the carcass or its parts. A person possessing a set of antlers with less than the required number of brow tines on one antler must leave the antlers naturally attached to the unbroken, uncut skull plate; however, this subsection does not apply to a moose carcass or its parts that has been cut and placed in storage or otherwise prepared for consumption after arrival at the place where it is to be stored or consumed.

5 AAC 92.160. MARKED OR TAGGED GAME. A person who takes an animal that has been marked or tagged by the department for scientific studies must, within a reasonable time, notify the department of the date when, and the place where, the animal was killed. Any ear tag, collar, radio, tattoo, or other identification must be retained with the hide until it is sealed, if sealing is required, and in all cases any identification equipment must be returned to the department.

5 AAC 92.165. SEALING OF BEAR SKINS AND SKULLS. (a) No person may possess, transport, or export from Alaska, the untanned skin or skull of a bear unless the skin and skull have been sealed by an authorized representative of the department within 30 days after the taking, or a shorter time if requested by the department. The seal must remain on the skin until the tanning process has begun. A brown bear taken in Unit 8 or 12 may not be transported from the unit where taken until it has been sealed. A brown bear taken in Subunit 20(E) may not be transported from that subunit, except to Tok, until it has been sealed.

(b) Except as provided in (c) of this section, a person who kills a bear must personally present the skin and skull to an authorized representative of the department for sealing within 30 days after the taking, or a shorter time if requested by the department, and must sign the sealing certificate at the time of sealing.

(c) A person who takes a bear but is unable to present the skin and skull in person must complete and sign a temporary sealing form and ensure that the completed temporary sealing form, along with the bear skin and skull, are presented to an authorized representative of the department for sealing within 30 days after the taking.

(d) If a person kills a bear while on a guided hunt or while hunting with a resident relative under AS 16.05.407, both the hunter and the guide or resident relative who accompanied the hunter must sign the sealing certificate. If a temporary sealing form is used, both the hunter and the guide or resident relative must sign the temporary sealing form.

(e) A person who possesses a bear shall keep the skin and skull together until a representative of the department has removed a rudimentary premolar tooth from the skull and sealed both the skull and the skin. The department

may require that the skull of the bear be skinned and that the skin and skull not be frozen at the time of sealing.

(f) No person may falsify any information required on the sealing certificate or temporary sealing form provided by the department.

(g) As used in this section, "bear" means brown and grizzly bear in all units, and black bears of all color phases taken in Units 1—7, 11—16, and 20. The term "temporary sealing form" means a form available at department offices for providing information regarding date and location of bear kill, species of bear, name and address of the hunter, name of the guide, and other information requested by the department on the form. The term "sealing certificate" means a form used by the department for recording information when sealing a bear.

5 AAC 92.170. SEALING OF MARTEN, LYNX, BEAVER, OTTER, WOLF, AND WOLVERINE. (a) No person may possess, transport, or export from the state the untanned skin of a marten in Units 1-5, 7 and 15, or the untanned skin of a lynx, beaver, land otter, wolf, or wolverine, whether taken inside or outside the state, unless the department has sealed the skin. The seal must remain on the skin until the tanning process has commenced or the skin has been transported from the state; however, the seal may be removed from the skin of a marten taken in Units 1—5 when the skin has been prepared for shipment from the state. Skins must be sealed according to the following schedule:

SPECIES/METHOD OF TAKING—LATEST DATE FOR SEALING.

(a) Wolf (in Unit 15(A)) by hunting and trapping—5th day after date of taking;

Wolf, wolverine, and lynx by hunting—30th day after date of taking;

Marten (Units 1-5, 7 and 15 only), wolf (except in Unit 15(A)), wolverine, lynx, beaver, and otter by trapping—30th day after the close of season in the unit where taken.

(b) The sealing periods in (a) of this section may be temporarily reduced by an employee of the department.

(c) A person who takes a species listed in (a) of this section must bring the skin for sealing to an authorized representative of the department and must complete a report on a form provided by the department.

Use of Game

5 AAC 92.200. PURCHASE AND SALE OF GAME. (a) Except as provided in (b) of this section, the purchase, sale, or barter of game or parts of game is permitted.

(b) Except as provided in AS 16.05.930(e) (relating to the barter of subsistence taken game), no person may purchase, sell, or barter the following:

(1) the meat of big game and small game except hares and rabbits; however, caribou may be bartered in Units 22-26, but such bartered caribou may not be transported or exported from these units;

(2) any part of any bear; or an unsealed beaver, land otter, lynx, wolf, wolverine, or marten from Units 1-5, 7 and 15;

(3) the skull, horn, or antler of an Alaskan big game animal including any prepared big game trophies; however, this paragraph does not prohibit the purchase, sale, or barter of a naturally shed antler, or a horn, or an antler that has been permanently removed from any portion of the skull, and has not been made into a prepared trophy.

(4) notwithstanding (2) and (3) of this section, a licensed taxidermist, estate executor, or bankruptcy referee, may sell a skin or trophy by permit issued under 5 AAC 92.031;

(5) a person may purchase and possess an animal skin or trophy sold by the state as excess property, or a skin or trophy sold under (4) of this section; however, no person may resell a skin or trophy purchased from an estate executor, a bankruptcy proceeding, or excess state property sale.

(c) A person who engages in fur dealing as defined as AS 16.05.940(13) and who purchases or acquires, through consignment or barter, raw skins of furbearers or fur animals must report such transactions to the department on a form provided for this purpose, within 30 days after the month during which each transaction occurred.

5 AAC 92.210. GAME AS ANIMAL FOOD OR BAIT. No person may use game as food for a dog or furbearer or as bait, except for the following:

(1) the hide, skin, viscera, head, or bones;

(2) the skinned carcass of a bear, fur bearer, or fur animal;

(3) red squirrels and small game; however, the breast meat of small game birds may not be used as bait;

(4) legally taken unclassified game.

5 AAC 92.220. SALVAGE OF GAME MEAT, FURS, AND HIDES.

(a) Subject to additional requirements in 5 AAC 78-5 AAC 88, a person taking game shall salvage the following parts for human use:

(1) the hide of a wolf, wolverine, coyote, fox, lynx, marten, mink, weasel, and land otter and the hide or meat of a beaver or muskrat;

(2) the hide and skull of a brown/grizzly bear;

(3) the hide and skull of a black bear taken in a game management unit in which sealing is required;

(4) either the hide or the meat of a black bear taken in any game management unit in which sealing is not required by regulation.

(b) A big game animal killed or injured by a vehicle is the property of the state. The operator of a motor vehicle that collides with a big game animal resulting in death or injury to the animal must notify the State Troopers or Division of Fish and Wildlife Protection as soon as possible.

5 AAC 92.230. FEEDING OF GAME. No person may intentionally feed a bear, wolf, fox, or wolverine, or intentionally leave human food or garbage in a manner that attracts these animals. This does not apply to bait used for trapping fur bearers or hunting black bears consistent with this chapter.

5 AAC 92.260. TAKING CUB BEARS AND FEMALE BEARS WITH CUBS PROHIBITED. No person may take a cub bear or a female bear accompanied by a cub bear.

Emergency Taking

5 AAC 92.400. EMERGENCY TAKING OF GAME. Nothing in this title prohibits a person from taking game for food during a closed season in case of dire emergency. Whenever it is reasonable to do so, all edible portions of the meat of an animal so taken must be salvaged, and all portions surplus to the alleviation of the dire emergency must be surrendered to the state.

5 AAC 92.410. TAKING OF GAME IN DEFENSE OF LIFE OR PROPERTY. (a) Nothing in this title prohibits a person from taking game in defense of life or property if

(1) the necessity for the taking is not brought about by harassment or provocation of the animal or an unreasonable invasion of the animal's habitat;

(2) the necessity for the taking is not brought about by the improper disposal of garbage or a similar attractive nuisance; and

(3) all other practicable means to protect life and property are exhausted before the game is taken.

(b) Game taken in defense of life or property is the property of the state. A person taking such game is required to salvage immediately the meat, or, in the case of a black bear, wolf, wolverine, or coyote, the hide must be salvaged and immediately surrendered to the state. In the case of brown or grizzly bear, the hide and skull must be salvaged and surrendered to the state immediately. The person taking the game must notify the department of the taking immediately and must submit a written report of the circumstances of the taking of game in defense of life or property to the department within 15 days of the taking.

(c) As used in this section, property is limited to

(1) a dwelling, permanent or temporary;

(2) an aircraft, boat, automobile, or other means of conveyance;

(3) a domesticated animal; and

(4) other property of substantial value necessary for the livelihood or survival of the owner.

Note: Game taken by hunters is not "property" in the sense of this regulation. It is not legal to shoot a bear to defend your moose or caribou carcass, for example.

Definitions

5 AAC 92.990. DEFINITIONS. In addition to the definitions in AS 16.05.940, the following definitions apply to 5 AAC 78—5 AAC 92:

(1) **airport** means an airport listed in the Federal Aviation Agency Alaska Airman's Guide and chart supplement;

(2) **animal** means those species with a vertebral column (backbone);

(3) **bag limit** means the maximum number of animals of any one game species a person may take in the unit or portion of a unit in which the taking occurs;

(4) **big game** means black bear, brown and grizzly bear, bison, caribou, Sitka black-tail deer, elk, mountain goat, moose, musk oxen, Dall sheep, wolf and wolverine;

(5) **bow** means long bow, recurve bow, or compound bow, but not crossbow;

(6) **broadhead** means an arrowhead with two or more steel cutting edges having a minimum cutting diameter of not less than seven-eighths inch;

(7) **brow line** means a line on the front portion of a moose antler, typically projecting forward from the base of the antler toward the nose;

(8) **bull moose** means any male moose;

(9) **closed season** means the time when game may not be taken;

(10) **cub bear** means a brown or grizzly in its first or second year of life, or a black bear (including the cinnamon and blue phases) in its first year of life;

(11) **dire emergency** means a situation in which a person

(A) is in a remote area;

(B) is involuntarily experiencing an absence of food required for sustenance;

(C) if wild game food is not immediately taken and consumed, will be unable to perform the functions necessary for survival, leading to a high risk of death or serious and permanent health problems;

(D) cannot expect to obtain alternative food sources in time to avoid the consequences described in (C) of this paragraph;

(12) **domicile** means the location of a person's primary residence; evidence of domicile may include, but is not limited to, the following:

(A) statements made to obtain a license to drive, hunt, fish, or engage in an activity regulated by a government entity;

(B) affidavit of the person, or of other persons who may know of that person's domicile;

(C) place of voter registration;

(D) location of residences owned, rented, or leased;

(E) location of storage of household goods;

(F) location of business owned or operated;

(G) residence of spouse and minor children or dependents;

(H) governments to which taxes are paid; and

(I) whether the person has claimed residence in another location for the purpose of obtaining benefits provided by the governments in that location;

(13) **drawing permit** means a permit issued in a limited number to people who are selected by means of a lottery held for all people submitting valid applications for such permits and who agree to abide by the conditions specified for each hunt;

(14) **edible meat** means, in the case of big game animals, the meat of the ribs, neck, brisket, front quarters as far as the juncture of the humerus and radius-ulna (knee), hindquarters as far as the distal joint of the tibia-fibula (stifle joint) and that portion of the animal between the front and hind-quarters; in the case of wild fowl, the meat of the breast; however, **edible meat** of big game or wild fowl does not include: meat of the head; meat that has been damaged and made inedible by the method of taking; bones, sinew, and incidental meat reasonably lost as a result of boning or a close trimming of the bones; or viscera.

(15) **falconry** means the sport of taking game by means of trained raptors;

(16) **full curl horn** means the horn of a mature male Dall sheep, the tip of which has grown through 360 degrees of a circle described by the outer surface of the horn, as viewed from the side or with both horns broken (see illustration on page 33).

(17) **fur animal** means a coyote, arctic fox, red fox, lynx, or red squirrel, that has not been domestically raised; **fur animals** is a classification of animals subject to taking with a hunting license;

(18) **fur bearer** means a beaver, coyote, arctic fox, red fox, lynx, marten, mink, weasel, muskrat, land otter, red squirrel, flying squirrel, ground squirrel, marmot, wolf or wolverine; **furbearer** is a classification of animals subject to taking with a trapping license;

(19) **highway** means the driveable surface of any constructed road;

(20) **household** means that group of people domiciled in the same residence;

(21) **hunting area** for a species means that portion of a game management unit where a season and a bag limit for that species are set out in 5 AAC 78—5 AAC 88;

(22) **motorized vehicle** means a motor-driven land, water or air conveyance;

(23) **open season** means the time when game may be taken; each period prescribed as an open season includes the first and last days of the period prescribed;

(24) **peace officer** means a police officer of the state or a person authorized by the Commissioner of Fish and Game;

(25) **permit hunt** means a hunt for which permits are issued on a drawing, or registration, hunt basis;

(26) **person**, means a natural person and does not include a corporation, company, partnership, firm, association, organization, business trust or society;

(27) **poison** means any substance which is toxic or poisonous upon contact or ingestion;

(28) **registration permit** means a hunting permit issued to a person who agrees to the conditions specified for each hunt; permits are issued in the order applications are received and are issued:

(A) beginning on a date announced by the department and continuing throughout the open season, or until the season is closed by emergency order when a harvest quota is reached; or

(B) beginning on a date announced by the department and continuing until a predetermined number of permits have been issued;

(29) **regulatory year** means July 1 through June 30;

(30) **sealing** means presenting a harvested animal or the required parts of the animal to an authorized representative of the Department of Fish and Game; sealing may include collecting and recording biological information concerning the conditions under which the animal was taken, measurements of the specimen submitted for sealing, surrendering of specific portions of the animal for biological information, including a premolar tooth from bear, and may include placing a mark or tag on a portion of an animal;

(31) Within **second degree of kindred** means a mother, father, brother, sister, son, daughter, spouse, grandparents, grandchild, brother- or sister-in-law, son- or daughter-in-law, and father- or mother-in-law.

(32) **seven-eighths curl horn** means the horn of a mature mountain sheep, the tip of which has grown through seven-eighths of a circle (315°), described by the outer surface of the horn, as viewed from the side, or with both horns broken;

(33) **skin** means any tanned or untanned hide of an animal, including its claws;

(34) **small game** means all species of grouse, hares, rabbits, ptarmigan and waterfowl, cranes and snipe;

(36) **tine** or antler point refers to any point on an antler whose length is a least one inch, and is greater in length than in width, measured in a straight line across the base;

(37) **transport** means shipping, carrying, importing, exporting, or receiving or delivering for shipment, carriage or export;

(38) **unclassified game** means all species of game not otherwise classified in these definitions;

(39) **unit** means one of the 26 geographical areas listed under game management units in the codified hunting, and trapping regulations and the Game Unit Maps of Alaska;

(40) **year** means calendar year unless another year is specified;

(41) **road-connected area** means the location of domiciles which are normally accessed by motorized highway vehicles operating on constructed roads which connect to the main highway system in the relevant area, and which include roads that can be negotiated during any portion of the year; "normally accessed" means that it is reasonably feasible to transport persons, food, and other supplies to domiciles by motorized highway vehicles.

(42) **50 inch moose antler** means the antlers of a bull moose with a spread of 50 inches or more, or with three or more brow tines on either side.

(43) **spike-fork moose antler** means the antlers of a bull moose with only one or two tines on either antler.

(44) **36 inch moose antler** means the antlers of a bull moose having a spread of at least 36 inches or with at least three brow tines on at least one of the antlers.

(45) **trophy** means a mount of a big game animal, including the skin of the head ("cape") or the entire skin, in a lifelike representation of the animal; **trophy** also includes a "European mount" in which the horns or antlers and the skull or a portion of the skull is mounted for display.

(46) **jet aircraft** means an aircraft powered by an engine or engines that have no external propellers.

SALVAGE OF MEAT FROM BIG GAME ANIMALS AND WILD FOWL

Alaska Statutes AS 16.30.010-.030 provide for the salvage of meat from big game and wild fowl, and prescribe penalties for failure to do so. Information presented below is extracted from these statutes. For full text of the law, refer to Title 16, Alaska Statutes.

It is unlawful for a person who kills a big game animal or species of wild fowl to fail to salvage for human consumption the edible meat of the animal or fowl.

Failure to salvage from a big game animal at least the hindquarters as far as the distal joint of the tibia-fibula (stifle joint) will result in the imposition of additional fines and penalties.

It is unlawful for a person to possess the horns or antlers of a big game animal that was killed after the opening of the current or most recent lawful hunting season for that animal unless the person also possesses the edible meat of the animal. However, this does not apply to the acquisition of the horns or antlers as a gift after the edible meat of the big game animal was salvaged, or the edible meat is no longer present due to personal consumption.

Failure to salvage or possess the edible meat may not be a violation if due to circumstances beyond the control of a person, including theft of the animal or fowl, unanticipated weather conditions or other acts of God, or unavoidable loss in the field to another wild animal.

In this statute, (a) **big game animal** means moose, caribou, Dall sheep, mountain goat, feral reindeer, deer, elk, bison, walrus or muskox; and **wild fowl** means species of wild fowl for which seasons or bag limits have been established by state or federal law.

(b) **edible meat** means, in the case of big game animals, the meat of the ribs, neck, brisket, front quarters as far as the juncture of the humerus and radius-ulna (knee), hindquarters as far as the distal joint of the tibia-fibula (stifle joint) and that portion of the animal between the front and hindquarters; in the case of wild fowl, the meat of the breast; however, **edible meat** of big game or wild fowl does not include: meat of the head; meat that has been damaged and made inedible by the method of taking; bones, sinew and incidental meat reasonably lost as a result of boning or a close trimming of the bones; or viscera.

This logo is starting to be exhibited on the boxes of handguns, sporting rifles, shotguns, ammunition and archery equipment used in hunting. It signifies that a 10 or 11 percent manufacturers' excise tax was collected under the Federal Aid in Wildlife Restoration Program or the Pittman-Robertson Act (P-R) as it is commonly called. These funds are collected by the Federal Government and apportioned back to the states through a formula based on each state's geographic area and the number of paid hunting license holders in the state. Alaska receives 5 percent of the revenues collected each year—the maximum allowed any state.

The Alaska Department of Fish and Game uses these funds to help restore, conserve, manage and enhance our wild birds and mammals for the public benefit. In addition, we use these funds to educate hunters to develop the skills, knowledge, and attitudes necessary to be responsible hunters.

Because the Department of Fish and Game receives federal funding through the P-R Act, we are prohibited from discriminating on the basis of race, color, national origin, age, or handicap. Any person who believes he or she has been discriminated against should write to: O.E.O., U.S. Department of the Interior, Washington, DC 20240.

SPECIAL USE RESTRICTIONS, UNITS 1—26

This section includes all of the following in each Game Management Unit: Controlled Use Areas, Management Areas, areas closed to hunting and state game refuges and sanctuaries.

Game Management Unit 1

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(1) Unit 1(A)

(A) in the Ketchikan area, strip one-fourth mile wide on each side of the Tongass Highway system, including the Ward, Connel and Harriet Hunt Lake Roads, is closed to the taking of big game;

(B) in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bears;

(2) Unit 1(B), the Anan Creek drainage is closed to the taking of black bear;

(3) Unit 1(C)

(A) Unit 1(C) is closed to the taking of snow geese;

(B) in the Juneau area, that area between the coast and a line one-fourth mile inland of the following road systems is closed to the taking of big game: Glacier Highway from Mile 0 to Mile 24 at Peterson Creek, Douglas Highway from the Douglas city limits to Milepost 7 on the North Douglas Highway, Mendenhall Loop Road, and Thane Road;

(C) the area within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor's Center, and the Center's parking area, is closed to hunting;

(D) that area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier, is closed to the taking of mountain goat;

(E) Auke Lake is closed to the taking of waterfowl;

(F) Mt. Juneau drainage bounded by the Glacier Highway, Salmon Creek and its reservoir, a line from the head of the Salmon Creek drainage to the head of Granite Creek, and down Granite Creek and Gold Creek to the Glacier Highway, is closed to the taking of mountain goat;

(4) Unit 1(D), a strip one-fourth mile wide on each side of the Lutak Road between Mile 7 and Chilkoot Lake, and from the Chilkoot River bridge to the end of the Lutak Road spur at the head of Lutak Inlet, is closed to the taking of big game;

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES

(d) The Mendenhall Wetlands State Game Refuge as described in AS 16.20.034, is closed to hunting, except for waterfowl (including snipe and cranes) during established seasons. The use of off-road or all-terrain vehicles, motorcycles, or other motorized vehicles (except boats) within the boundaries of Mendenhall Wetlands State Game Refuge is prohibited. The possession of shotgun shells loaded with shot larger than No. 2 is prohibited. Hunters 15 years old or younger must be accompanied by an adult, or demonstrate, upon request, completion of a certified hunter safety and waterfowl identification course before hunting on the Mendenhall Wetlands State Game Refuge.

Game Management Unit 2 None

Game Management Unit 3

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) a strip one-fourth mile wide on each side of the Stikine (Zimovia) Highway from the Wrangell city limits to Milepost 9 is closed to the taking of big game;

(B) in the Petersburg vicinity, a strip one-fourth mile wide on each side of the Mitkof Highway from Milepost 0 to the Crystal Lake Campground is closed to the taking of big game, except wolves;

(C) the Petersburg Creek drainage on Kupreanof Island is closed to the taking of black bears;

(D) Blind Slough draining into Wrangell Narrows, a strip one-fourth mile wide on each side from the hunting closure markers at the southernmost portion of Blind Island to the hunting closure markers one mile southerly of the Blind Slough bridge is closed to hunting; the remainder of Blind Slough and its drainage is closed to the taking of snow geese.

Game Management Unit 4

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) in the Sitka area, a strip one-fourth mile wide on each side of all state highways is closed to the taking of big game;

(B) Seymour Canal Closed Area (Admiralty Island): all drainages into northwestern Seymour Canal between Staunich Point and the southernmost tip of the unnamed peninsula separating Swan Cove and King Salmon Bay, including Swan and Windfall islands, is closed to the taking of bears;

(C) **Salt Lake Bay Closed Area** (Admiralty Island): all lands within one-fourth mile of Salt Lake above Klutchman Rock at the head of Mitchell Bay is closed to the taking of bears;

(D) **Port Althorp** (Chichagof Island): that area within the Port Althorp watershed south of a line from Point Lucan to Salt Chuck Point (Trap Rock) is closed to the taking of brown and grizzly bear.

Game Management Unit 5 None

Game Management Unit 6

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the **Goat Mountain goat observation area**, which consists of that portion of Unit 6 bounded on the north by Miles Lake and Miles Glacier, on the south and east by Martin River and Martin River Glacier, and on the west by the Copper River, is closed to the taking of mountain goat;

(B) the **Heney Range goat observation area**, which consists of that portion of Unit 6 south of the Copper River Highway and west of the Eyak River, is closed to the taking of mountain goat.

Game Management Units 7 & 15

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the **Portage Glacier closed area** in Unit 7, which consists of Portage Creek drainages between the Anchorage-Seward Railroad and Placer Creek in Bear Valley, Portage Lake, the mouth of Byron Creek, Glacier Creek and Byron Glacier, is closed to hunting except for migratory birds and small game with shotguns after September 1;

(B) the **Exit Glacier closed area** in Unit 7, which consists of the south side drainages of the Resurrection River downstream from the mouth of Redman Creek, and Resurrection Bay drainages between the mouth of the Resurrection River and the mouth of Lowell Creek, is closed to the taking of big game;

(3) the **Cooper Landing closed area**, which consists of

(A) that portion of Units 7 and 15 bounded by a line from the junction of the Sterling Highway and the national forest boundary, then along the national forest boundary to Thurman Creek, then southeasterly along Thurman Creek and the northeast side of Trout Lake, then to the confluence of Juneau Creek and Falls Creek, then easterly along Falls Creek and the North Fork of Falls Creek and over the connecting saddle to Devils Creek, then southeasterly along Devils Creek to its confluence with Quartz Creek, then southwesterly along Quartz Creek to the Sterling Highway and then to the point of beginning is closed to the taking of Dall sheep and mountain goat;

(6) the **Moose River closed area** near Sterling in Unit 15(A) which consists of that area on and within one-quarter mile of the Moose River between

the Kenai National Moose Range boundary and the Sterling Highway, is closed to the taking of waterfowl.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(5) the **Kenai Controlled Use Area**, which consists of that portion of Unit 15(A) north of the Sterling Highway, is closed during Unit 15(A) moose-hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters and moose parts; however, this does not apply after 12:01 a.m. September 11, and does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between cities, towns, or villages that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports;

(6) the **Lower Kenai Controlled Use Area**, which consists of Unit 15(C), is closed to the use of motorized vehicles (except aircraft and boats) for hunting moose from September 11 through September 20, including transportation of moose hunters or moose parts; however, this does not apply to motorized vehicles on a state or borough maintained highway.

Game Management Unit 8 None

Game Management Unit 9

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified;

(1) in Unit 9 in the **McNeil River State Game Sanctuary**, the McNeil River drainage, Mikfik Creek drainage, and all drainages into McNeil Cove from Akjemguiga Cove to McNeil Head, are closed to hunting and the remainder of the McNeil River State Game Sanctuary and contiguous tidelands are closed to brown bear hunting; access to the sanctuary is by permit only. That portion of Unit 9 extending south and east of McNeil River State Game Sanctuary to the boundary of Katmai National Park and Preserve, and including any state land within the boundaries of Katmai National Park and Preserve, is closed to brown bear hunting;

(2) Units 9(E) and 10, except Unimak Island, are closed to the taking of Canada Geese;

Game Management Unit 10 None

Game Management Unit 11

NO SPECIAL AREA RESTRICTIONS (Contact National Park Service for federal restrictions)

Game Management Units 12, 13, & 20

ONLY THAT PORTION KNOWN AS THE TOK MANAGEMENT AREA

(A) those portions of Units 12, 13(C), and 20(D) bounded by a line along the Alaska Highway east from the east side of the Johnson River bridge to Tok Junction, then south along the Tok-Slana cutoff (Glenn Highway) to the Slana River, then west along the north bank of the Slana River to its confluence with Lost Creek, then up the north side of Lost Creek to the divide between Lost Creek and Jack Creek, then north to the Unit 12 boundary then west along the Unit 12 boundary to Mount Kimball (63° 17' N. lat., 144° 40' W. long.), then west in a straight line to Mount Gakona (63° 17' N. lat., 145° 12' W. long.), then northerly along the east bank of the Johnson Glacier and Johnson River to the Johnson River bridge;

(B) the Tok Management Area is open to Dall sheep hunting by permit only.

Game Management Unit 12

(Remainder)

NO SPECIAL AREA RESTRICTIONS

(Contact National Park Service for federal restrictions)

Game Management Unit 13

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(A) the **Paxson closed area** in Unit 13(B), which consists of the eastern drainage of the Gulkana River lying west of the Richardson Highway and the western drainage of the Gulkana River between the Denali Highway and the north end of Paxson Lake where the Gulkana River enters Paxson Lake, is closed to the taking of big game;

(B) the **Sheep Mountain closed area** along the Glenn Highway in Unit 13 which is bounded by a line beginning at Caribou Creek, Milepost 107 Glenn Highway, then easterly along the Glenn Highway to Milepost 123, then north to Squaw Creek then downstream to Caribou Creek then down Caribou Creek to the point of beginning, is closed to the taking of mountain goat and Dall sheep.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(1) The **Delta Controlled Use Area** (see GMU 20)

(2) the **Sourdough Controlled Use Area**

(A) the Sourdough Controlled Use Area consists of that portion of Unit 13(B) bounded by a line beginning at the confluence of Sourdough Creek and the Gulkana River, then northerly along Sourdough Creek to the Richardson Highway at approximately Mile 148 then northerly along the Richardson Highway to the Meiers Creek Trail at approximately Mile 170, then

westerly along that trail to the Gulkana River, then southerly along the east bank of the Gulkana River to its confluence with Sourdough Creek, the point of beginning;

(B) the Sourdough Controlled Use Area is closed to the use of motorized vehicles in any manner for hunting; however, this does not prohibit motorized access or transportation of game on the Richardson Highway, Sourdough, Haggard Creek or Meiers Lake trails, or other trails designated by the department;

(3) the **Clearwater Creek Controlled Use Area**

(A) the Clearwater Creek Controlled Use Area consists of that portion of Unit 13(B) north of the Denali Highway, west of and including the MacLaren River drainage, and east of and including eastern bank drainages of the Middle Fork of the Susitna River downstream from and including the Susitna Glacier, and eastern bank drainages of the Susitna River downstream from the confluence of the Middle Fork;

(B) the Clearwater Creek Controlled Use Area is closed to the use of motorized vehicles in any manner for hunting; however, this does not prohibit motorized access or transportation of game on the Denali Highway.

(4) the **Tonsina Controlled Use Area**

(A) the Tonsina Controlled Use Area consists of that portion of Unit 13(D) bounded on the west by the Richardson Highway from the Tielkel River to the Tonsina River at Tonsina, on the north along the south bank of the Tonsina River to where the Edgerton Highway crosses the Tonsina River, then along the Edgerton Highway to Chitina, on the east by the Copper River from Chitina to the Tielkel River, and on the south by the north bank of the Tielkel River.

(B) the Tonsina Controlled Use Area is closed to the use of motorized vehicles and pack animals in any manner for hunting, from August 5 to September 30.

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(5) the **Tok Management Area**, containing a portion of Unit 13(C), is described under "Game Management Units 12, 13, and 20".

Game Management Unit 14

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(1) the **Fort Richardson Management Area**, consisting of the Fort Richardson Military Reservation, is open to taking big game by permit only; conditions of the permits will be set by the department pursuant to 5 AAC 92.050;

(2) **Eagle River Management Area**, consisting of the Eagle River drainage upstream from the Glenn Highway in Unit 14(C), is closed to hunting except sheep by permit.

(3) the **Anchorage Management Area** consists of all Cook Inlet drainages south of the Elmendorf Air Force Base and the Fort Richardson Military reservation and north of and including Rainbow Creek, but excluding the Anchorage Coastal Wildlife Refuge; the Anchorage Management Area is closed to hunting and trapping except:

(A) waterfowl hunting is permitted on the tidelands below the toe of the bluff from Point Campbell to Point Woronzof;

(B) moose hunting is by permit only;

(C) small game and waterfowl may be taken by falconry except waterfowl may not be taken in the Ship Creek drainage west of Post Road;

(4) **Eklutna Lake Management Area**, consisting of the Eklutna River and Lake drainages in Unit 14(C) upstream from the Glenn Highway, excluding those drainages flowing into the East Fork of Eklutna River upstream from the bridge above the lake and Thunderbird Creek, is closed to hunting except:

(A) small game may be taken by bow and arrow only, from the day after Labor day to April 30.

(B) moose hunting is by permit with bow and arrow only;

(C) black bears may be taken by bow and arrow only, from the day after Labor day to May 20.

(D) sheep hunting is by permit and by bow and arrow only, from day after Labor Day to Sept. 30.

(5) **Chugach State Park Management Area**, consisting of that portion of Chugach State Park outside of the Eagle River, Anchorage and Eklutna Management Areas is open to hunting under Unit 14(C) seasons and bag limits except as follows:

(A) Black bear hunting is open from the day after Labor Day through May 20 for one bear only.

(B) No hunting of brown/grizzly bear, mountain goat, squirrel, wolf, wolverine, coyote and unclassified game is allowed.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

(A) In the **Anchorage Coastal Wildlife Refuge** (formerly the Potter Point State Game Refuge) in Unit 14(C), all land and waters south and west of the toe of the bluff which extends from Campbell Point southeasterly to Potter Creek:

(1) is open to small game hunting with shotguns only except that portion between the Alaska Railroad and the Old Seward Highway and that portion landward of the elevated fill covering the municipal sewer line between the Klatt Road peat disposal site and Campbell Creek;

(2) is closed to use of motorized vehicles;

(3) is closed to the discharge of all firearms except that shotguns may be used in those areas open to hunting from September 1 through March 31;

(4) in addition to the prohibitions set out above, no person may intentionally distribute bread scraps, cereal grains, corn, or other waterfowl foods; or otherwise feed waterfowl, in the Anchorage Coastal Wildlife Refuge.

(b) The **Susitna Flats State Game Refuge** in Units 14 and 16 is open to hunting under the following conditions:

(1) the use of motorized vehicles is permitted from November 9 through March 31;

(2) the use of motorized vehicles except aircraft, hovercraft, boats, and snowmachines is, from April 1 through November 8, restricted to existing road surfaces, and to use within 1/8 mile of mean high tide or as designated by the department;

(3) notwithstanding (1) and (2) of this subsection, the department may issue a permit allowing activities otherwise prohibited by this subsection, for access by people with physical impairments for moving equipment or supplies, and to enhance or facilitate refuge administration and management.

In the **Palmer Hay Flats State game Refuge**, special restrictions apply regarding use of motorized vehicles. See Habitat Regulations (5 AAC 95.505) for this refuge, available from game division offices in Anchorage and Palmer.

Game Management Unit 15

(see GMU 7 and 15)

(6) the **Skilak Loop Wildlife Management Area**, consisting of that portion of Unit 15(A) bounded by a line beginning at the easternmost junction of the Sterling Highway and the Skilak Loop Road (milepost 58.0), then due south to the south bank of the Kenai River, then southerly along the south bank of the Kenai River to its confluence with Skilak Lake, then westerly along the north shore of Skilak Lake to Lower Skilak Lake Campground, then northerly along the Lower Skilak Lake Campground Road and the Skilak Loop Road to its westernmost junction with the Sterling Highway, then easterly along the Sterling Highway to the point of beginning, is closed to hunting and trapping, except that small game may be taken only from October 1 to March 1 by use of bow and arrow.

Game Management Unit 16

SEE GMU 14 FOR "SUSITNA FLATS STATE GAME REFUGE".

Game Management Unit 17

(4) in Unit 17, the **Walrus Islands State Game Sanctuary**, which includes Round Island, Crooked Island, High Island, Summit Island, The Twins, Black Rock, and adjacent waters, is closed to hunting.

Game Management Unit 18

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

The **Bering Sea State Game Refuge** in Unit 18 which consists of St. Matthew and Hall Island and Pinnacle Inlet in the Bering Sea, is closed to hunting.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

The **Kalskag Controlled Use Area** consists of that portion of Unit 18 bounded by a line from Lower Kalskag on the Kuskokwim River northwesterly to the Russian Mission on the Yukon River, then east along the north bank of the Yukon River to the old site of Paimiut, then back to Lower Kalskag. The Kalskag Controlled Use Area is closed to the use of aircraft in any manner for hunting big game, including transportation of big game hunters and big game parts, however this does not apply to transportation of big game hunters or big game parts by regularly scheduled flights to village by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to and between publicly owned airports.

Game Management Unit 19

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting.

(8) the Upper Kuskokwim Controlled Use area

(A) that portion of Unit 19(D) upstream from the mouth of Big River including the drainages of the Big River, Middle Fork, South Fork, East Fork, and Tonzona River, and bounded by a line following the west bank of the Swift Fort (McKinley Fork) Kuskokwim River from the Kuskokwim River to 152°50' W. long., then north to the boundary of Denali National Preserve, then following the western boundary of Denali National Preserve north to its intersection with the Minchumina-Telida winter trail, then west to the crest of Telida Mountain, then north along the crest of Munsatli Ridge to elevation 1610, then northwest to Dyckman Mountain and following the crest of the divide between the Kuskokwim River and the Nowitna drainage, and the divide between the Kuskokwim River and the Nixon Fork River to Loaf bench mark on Halfway Mountain, then south to the west side of Big River drainage at the point of beginning;

(B) the Upper Kuskokwim Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports.

Game Management Unit 20

DALTON HIGHWAY RESTRICTIONS. Hunters should be aware of restrictions on the use of off-road vehicles off the Dalton Highway in Units 20, 24, 25, and 26(B). State statutes (AS 19.40.210) reads as follows: "AS 19.40.210. Prohibition of off-road vehicles. Off road vehicles are prohibited on land within five miles of the right of way of the highway. However, this prohibition does not apply to a person who holds a mining claim in the vicinity of the highway, and who must use land within five miles of the highway to gain access to his mining claim." Also see "Dalton Highway Corridor Management Area," next page, for restrictions on access and weapons for hunting.

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(1) **Birch Lake** and the area within one-half mile of Birch Lake (mile 56 Richardson Highway) is closed to the taking of big game;

(2) **Harding Lake** and the area within one-half mile of Harding Lake (mile 44 Richardson Highway) is closed to the taking of big game;

(3) **Lost Lake** and the area within one-half mile of Lost Lake (mile 56 Richardson Highway) is closed to the taking of big game with firearms and crossbows;

(4) the **Healy-Lignite closed area** (Unit 20(A) near Healy), which consists of the area bounded by a line beginning at the confluence of Lignite Creek and the Nenana River, then upstream along Lignite Creek to its confluence with Sanderson Creek, then to the confluence of Healy Creek and Coal Creek, then to Dora Peak (63°49' N. lat., 148°42' W. long.), then to the confluence of Healy Creek and Moody Creek, then downstream along Healy Creek to the Nenana River, then downstream along the Nenana River to the point of beginning, is closed to hunting.

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(1) the Delta Controlled Use Area

(A) the drainages of the Tanana River south of the Alaska Highway from the west bank of the Johnson River to and including the drainages of the Delta River north of Miller creek.

(B) the Delta Controlled Use Area is closed to the use of motorized vehicles and pack animals in any manner for hunting, from August 5 through August 25; however, this does not prohibit motorized access to the area for hunting or transportation of game on the Richardson Highway or airports;

(2) the Glacier Mountain Controlled Use Area

(A) that portion of Unit 20(E) bounded by a line beginning at mile 140 of the Taylor Highway, then north along the highway to Eagle, then west along the cat trail from Eagle to Crooked Creek, then from Crooked Creek southwest along the west bank of Mogul Creek to its headwaters on North Peak, then west across North Peak to the headwaters of Independence Creek, then southwest along the west bank of Independence Creek to its confluence with the North Fork of the FortyMile River, then easterly along the south bank of the North Fork of the FortyMile River to its confluence with Champion Creek, then across the North Fork of the FortyMile River to the south bank of Champion Creek and easterly along the south bank of Champion Creek to its confluence with Little Champion Creek, then northeast along the east bank of Little Champion Creek to its headwaters, then northeasterly in a direct line to Mile 140 on the Taylor Highway;

(B) the Glacier Mountain Controlled Use Area is closed to the use of motorized vehicles in any manner for hunting, from August 5 to September 20; however, this does not prohibit motorized access or transportation of game on the Taylor Highway or airports;

(3) the Wood River Controlled Use Area

(A) that portion of Unit 20(A) bounded on the north by the Rex Trail beginning at its intersection with the Totatlanika River and easterly along the trail's extension from Gold King airstrip along the north side of Japan

Hills to the Wood River; on the east by the Wood River, including the Wood River drainage upstream and including Snow Mountain Gulch Creek drainage, on the west by the Totatlanika River from the Rex Trail southerly to Dexter Creek, then along Dexter Creek to a point east of Mt. Lathrop, then west to the source of the northern fork of Healy Creek, then down the northern fork of Healy Creek to Healy Creek and down the southern bank of Healy Creek to its confluence with Coal Creek, then southwest to Dora Peak, then southeast to the confluence of the northern fork of Moody Creek and Moody Creek, then southwest to Mt. Fellows, then easterly along the divide separating the drainages of the Yanert River from Healy Creek, Moody Creek, and the Wood River;

(B) the Wood River Controlled Use Area is closed to the use of motorized vehicles (except aircraft) in any manner for big game hunting and transportation of big game parts, from August 1 through September 30;

(4) the Macomb Plateau Controlled Use Area

(A) that portion of Unit 20(D) south of the Alaska Highway, draining into the south side of the Tanana River between the east bank of the Johnson River upstream to Prospect Creek, and the east bank of Bear Creek (Mile 1357.3);

(B) the Macomb Plateau Controlled Use Area is closed to the use of motorized vehicles, except floatplanes on Fish Lake, in any manner for hunting or transportation of game parts, from August 10 through September 30;

(9) the Yanert Controlled Use Area, which consists of that portion of Unit 20(A) drained by the Nenana River upstream from the including the Yanert Fork drainage, is closed to the use of motorized vehicles, except aircraft, in any manner for big game hunting and transportation of big game parts; however, this does not prohibit motorized access and transportation of game on the Parks Highway.

MANAGEMENT AREAS. The following management areas are subject to special restrictions for hunting:

(1) the Minto Flats Management Area

(A) that portion of Unit 20(B) bounded by the Elliot Highway beginning at Mile 118, then northeasterly to Mile 96, then east to the Tolovana Hot Springs Dome, then east to the Winter Cat Trail, then along the Cat Trail south to the Old Telegraph Trail at Dunbar, then westerly along the trail to a point where it joins the Tanana River three miles above Old Minto, then along the north bank of the Tanana River (including all channels and sloughs except Swan Neck Slough), to the confluence of the Tanana and Tolovana Rivers and then northerly to the point of beginning;

(B) the Minto Flats Management Area is open to moose hunting by permit only;

(3) the Dalton Highway Corridor Management Area, consisting of those portions of Game Management Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to the Prudhoe Bay Closed Area, is closed to hunting, except big game and small game may be taken in the area by bow and arrow; no motorized vehicle, except aircraft, boats and licensed highway vehicles, may be used to transport game or hunters within the Dalton Highway corridor management area.

(4) the Fairbanks Management Area

(A) that portion of Unit 20(B) bounded by a line from the confluence of Rosie Creek and the Tanana River, northerly along Rosie Creek to the divide between Rosie Creek and Cripple Creek, then down Cripple Creek to its confluence with Ester Creek, then up Ester Creek to its confluence with Ready Bullion Creek, then up Ready Bullion Creek to the summit of Ester Dome, then down Sheep Creek to its confluence with Goldstream Creek, then easterly along Goldstream Creek to its confluence with First Chance Creek, then up First Chance Creek to Tungsten Hill, then southerly along Steele Creek to its intersection with the Trans-Alaska Pipeline, then southerly along the pipeline right-of-way to the Chena River, then along the north bank of the Chena River to the Moose Creek dike, then southerly along Moose Creek dike to its intersection with the Tanana River, and then westerly along the north bank of the Tanana River to the point of beginning plus the Goldstream subdivision (sec. 33, T 2N, R 1W and SE ¼ SE ¼ Sec 28 T 2N, R 1W, Fairbanks Meridian).

(B) the Fairbanks Management Area is open to moose hunting by bow and arrow only;

(5) the Delta Junction Management Area described as follows, is closed to the taking of moose: that portion of Unit 20(D) bounded by a line beginning at the confluence of Donnelly Creek with the Delta River, then up Donnelly Creek to the Richardson Highway (Mile 238), then north along the east side of the highway to the coal mine road (Mile 242), then east along the south side of the coal mine road to the junction with the trail to Jarvis Creek, then down the east bank of Jarvis Creek to the 33-Mile Loop Road crossing (Mile 12), then northeast along the 33-Mile Loop Road to the intersection with the Alaska Highway (Mile 1414), then southeast along the north side of the Alaska Highway to the bridge at Sawmill Creek (Mile 1403.9), then down the west bank of Sawmill Creek to its confluence with Clearwater Creek and down the Tanana River to its confluence with the Delta River, and upstream along the east bank of the Delta River to the point of beginning at Donnelly Creek.

CLOSURES AND RESTRICTIONS ON STATE GAME REFUGES.

In the Creamer's Field Migratory Waterfowl Refuge near Fairbanks in Unit 20, moose may be taken only by bow and arrow. That portion of the refuge within the Fairbanks city limits is closed by city ordinance to the discharge of firearms.

Game Management Unit 21

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(5) the Paradise Controlled Use Area

(A) that portion of Unit 21 bounded by a line beginning at the old village of Paimiut, then north along the west bank of the Yukon River to Paradise, then northwest to the mouth of Stanstrom Creek on the Bonasila River, then northeast to the mouth of the Anvik River, then along the west bank of the Yukon River to the lower end of Eagle Island (approximately 45 miles north of Grayling), then to the mouth of the Iditarod River, then down the east bank of the Innoko River to its confluence with Paimiut Slough, then south along the east bank of Paimiut Slough to its mouth and then to the old village of Paimiut, but not including the airport property at Grayling, Anvik, Shageluk and Holy Cross.

(B) the Paradise Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or parts of moose; however, this does not apply to the transportation of moose hunters or parts of moose by regularly scheduled flights to and between villages by carriers that normally provide scheduled air service to this area.

(6) in the Koyukuk Controlled Use Area

(A) those portions of Units 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk, then northerly to the confluence of the Honhosa and Kateel Rivers, then northeasterly to the confluence of Billy Hawk Creek and the Huslia River (65° 57' N.lat., 156° 41' W.long.), then easterly to the south end of Solismunket Lake, then east to Hughes, then south to Little Indian River, then southwesterly to the crest of Hochandochla Mountain, then westerly to the north end of Coffee Can Lake, then southerly to Bishop Rock (Yistletaw), then westerly along the north bank of the Yukon River including Koyukuk Island to the point of beginning;

(B) the Koyukuk Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports.

Game Management Unit 22

None.

Game Management Unit 23

CONTROLLED USE AREAS. The following areas, access for hunting is controlled as specified:

(1) The Noatak Controlled Use Area

(A) that portion of Unit 23 in a corridor extending five miles on either side of the Noatak river beginning at the mouth of the Kuguruk River, and extending easterly along the Noatak River to the mouth of Sapun Creek.

(B) the Noatak Controlled Use Area is closed for the period August 20 to September 20 to the use of aircraft in any manner for big game hunting, including transportation of big game hunters or parts of big game.

Game Management Unit 24

CONTROLLED USE AREAS. The following areas, access for hunting is controlled, as specified:

(7) the Kanuti Controlled Use Area

(A) that portion of Unit 24 bounded by a line from the Bettles Field VOR to the east side of Fish Creek Lake, to Old Dummy Lake, to the south end of Lake Todatonten (including all waters of these lakes), to the nor-

thernmost headwaters of Siruk Creek, to the highest peak of Double Point Mountain, then back to the Bettles Field VOR;

(B) the Kanuti Controlled Use Area is closed during moose hunting seasons to the use of aircraft in any manner for hunting moose, including transportation of moose hunters or moose parts; however, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports.

NOTE: also see Dalton Highway Corridor Management Area, Unit 20.

Game Management Unit 25

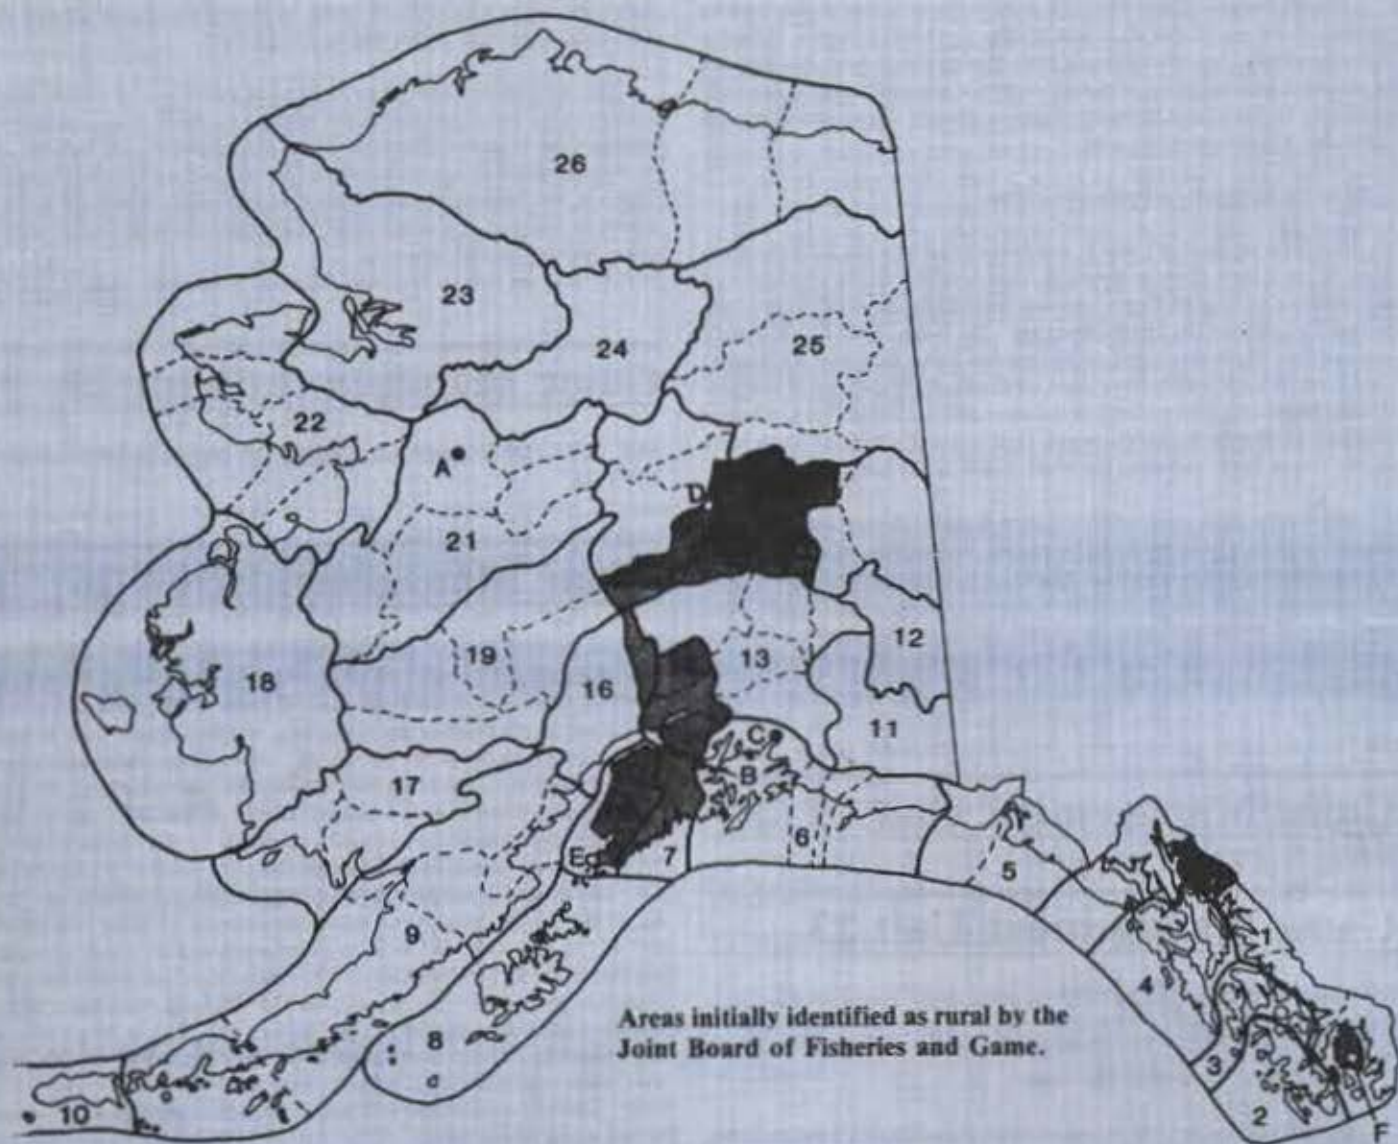

SEE "DALTON HIGHWAY CORRIDOR MANAGEMENT AREA," UNIT 20

Game Management Unit 26

AREAS CLOSED TO HUNTING. The following areas are closed to hunting, as specified:

(b) In Unit 26, the Prudhoe Bay closed area, which consists of the area bounded by a line beginning at 70° 22' N. lat., 148° W. long., then south approximately 14 miles to a point at 70° 10' N. lat., 148° W. long., then west approximately fifteen miles to a point at 70° 10' N. lat., 148° 40' W. long., then north approximately two miles to a point at 70° 12' N. lat., 148° 40' W. long., then west approximately eight miles to a point at 70° 12' N. lat., 148° 56' W. long., then north approximately 2 miles to a point at 70° 15' N. lat., 148° 56' W. long., then west approximately 12 miles to a point at 70° 15' N. lat., 149° 28' W. long., then north approximately 12 miles to a point at 70° 26' N. lat., 149° 28' W. long., then east approximately 14 miles to a point at 70° 26' N. lat., 148° 52' W. long., then south approximately 2 miles to a point at 70° 24' N. lat., 148° 52' W. long., then east approximately 16 miles to the point at 70° 24' N. lat., 148° 11' W. long., then south approximately 2 miles to point at 70° 24' N. lat., 148° 11' N. long., then east approximately 6 miles to the point of beginning, is closed to the taking of big game.

NOTE: also see Dalton Highway Corridor Management Area, Unit 20.

Areas initially identified as rural by the Joint Board of Fisheries and Game.

- Non-Rural

- A - Galena Airforce Station within the Galena dike

- B - Whittier city limits

- C - Valdez city limits

- ☐
- Rural

- D - Nenana city limits and the road connected area along the parks highway from milepost 300 to milepost 309

- E - English Bay Port Graham, and the area southwest of the line from Point Pogibshi to the point of land between Rocky Bay and Windy Bay

- F - Saxman city limits

ATTENTION SUBSISTENCE HUNTERS

5 AAC 99.014. JOINT BOARD FINDINGS RELATING TO RURAL AND NON-RURAL AREAS. The joint boards finds that, for the purposes of identifying subsistence uses of fish and game,

the Parks Highway from Milepost 216 to Milepost 309 except Clear AFB and Denali National Park Headquarters compound buildings and residences.

(2) areas not listed in (1) of this section are non-rural.

5 AAC 99.021. DEFINITIONS. In addition to the definition in AS 16.05.940, in this chapter "road-connected area" means the location of domiciles that are normally accessed by motorized highway vehicles operating on constructed roads that connect to the main highway system in the relevant area, including roads that can be negotiated during all portions of the year; in this section, "normally accessed" means that it is reasonably feasible to transport persons, food, and other supplies to domiciles by motorized highway vehicles.

5 AAC 99.030. ELIGIBILITY FOR SUBSISTENCE AND GENERAL HUNTS. Only a resident domiciled in a rural area of the state listed in 5 AAC 99.014 may participate in a subsistence hunt. For a subsistence hunt involving an area and game population listed in 5 AAC 99.025, only a resident domiciled in a rural area as specified in that section may participate, unless participation is further limited by the regulation governing that particular subsistence hunt. As the Board of Game implements the subsistence law (AS 16.05.258), eventually every subsistence hunt will be open only to residents domiciled in specific rural areas where customary and traditional uses of relevant game populations have been demonstrated under 5 AAC 99.010, as set out in 5 AAC 99.025.

(b) Anyone may participate in a general hunt, except in some cases regulations governing a particular general hunt specify different or no opportunities for nonresidents.

(1) the following areas are rural areas:

(A) Units 2—5, 8—13, 16(B), 17—19, 22—26;

(B) Unit 1, except (i) that portion within the Juneau Borough limits, and (ii) that portion within the Ketchikan Gateway Borough limits other than the area that is within the Saxman city limits;

(C) Unit 6, except that portion within the Whittier and Valdez city limits;

(D) Unit 15(C) west of a line from the northern most point of Rocky Bay to the head of Tutka Bay on the Kenai Peninsula;

(E) Units 20(E); 20(F); 20(B) except that portion within the Fairbanks North Star Borough, and that portion south of the Alaska Railroad; 20(C) except that portion within Denali National Park and Preserve (except Kantishna) and that portion east of the Teklanika and Nenana Rivers; and 20(D) except that portion west of the Johnson River and south of the Tanana River and west of a line from the mouth of the Gerstle River north to the unit boundary;

(F) Unit 21 except the Galena Airforce Station within the Galena dike;

(G) within the Nenana city limits, and the road-connected area along

The following table summarizes actions taken to date by the Board of Game relating to who qualifies to participate in subsistence hunts in various units, by species. If a unit is not listed in the left hand column, the Board has not yet made a determination as to whether customary and traditional subsistence users for that species in that area exist; such determinations will be made in the future.

To use this table to determine who qualifies for subsistence uses for a given species, first find that species in the heading, then follow down the left-hand column to the area or unit in question. The residents of the areas listed in the right-hand column are the qualified subsistence users.

If NO SUBSISTENCE is noted in the right hand column, the Board has determined that there are no customary and traditional uses for subsistence of that species in that area.

For those individuals desiring additional information that the Board of Game considers when determining whether a community or area has customary or traditional use of a particular species in a particular Game Management Unit please refer to 5 AAC 99.010. JOINT BOARDS OF FISHERIES AND GAME SUBSISTENCE PROCEDURES as printed in the "Alaska Miscellaneous Game Regulations No. 9, effective July 1, 1988.

BLACK BEAR

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

GMU 1(C)	Rural residents of GMU 1(C), and residents of Haines, Gustavus, Klukwan, and Hoonah
6(A)	Residents of Yakutat and Cordova
6(B),(C)	Residents of GMU 6(B) and (C)
6(D)	Residents of Chenega Bay, Tatitlek, and Cordova

BROWN BEAR

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

4	Residents of GMU 4 and Kake
5	Residents of Yakutat
6	NO SUBSISTENCE
7	NO SUBSISTENCE
8	NO SUBSISTENCE
9(B)	Residents of GMU 9(B)
11	NO SUBSISTENCE
12	NO SUBSISTENCE
13	NO SUBSISTENCE
14(B),(C)	NO SUBSISTENCE
15	NO SUBSISTENCE
16	NO SUBSISTENCE
17(A)	Residents of GMU 17, and residents of Goodnews Bay and Platinum
17(C)	Residents of GMU 17
18	Residents of Akiachak, Akiak, Eek, Goodnews Bay, Kwethluk, Mt. Village, Napaskiak, Platinum, Quinhagak, St. Mary's, and Tuluksak
19(A)	Residents of GMU 19(A) and (D), and residents of Tuluksak and Lower Kalskag
19(B),(C)	NO SUBSISTENCE
19(D)	Residents of GMU 19(A) and (D) and residents of Tuluksak and Lower Kalskag
20(E)	NO SUBSISTENCE
21	Residents of GMU 21 and 23
22	Residents of GMU 22
23	Residents of GMU 21 and 23
24	Residents of GMU 24 and residents of Wiseman, but not including any other residents of the Dalton Corridor
25	NO SUBSISTENCE
26	Residents of GMU 26 (except the Prudhoe Bay-Deadhorse Industrial Complex) and residents of Anaktuvuk Pass and Point Hope

GOATS

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

GMU 1(C)	Residents of Haines, Klukwan, and Hoonah
6(C),(D)	Rural residents of GMU 6(C) and (D)
7 (specific hunt areas)	Residents of Port Graham and English Bay
8	NO SUBSISTENCE

GOATS (continued)

11	NO SUBSISTENCE
13(D)	NO SUBSISTENCE
14	NO SUBSISTENCE
15(C) (specific hunt areas)	Residents of Port Graham and English Bay

MOOSE

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

1(B) Stikine drain.	Residents of Wrangell
1(B) North of the LeConte Glacier	NO SUBSISTENCE
1(C) Berners Bay	NO SUBSISTENCE
1(D)	Residents of GMU 1(D)
5	Residents of Yakutat
6	NO SUBSISTENCE
7	NO SUBSISTENCE
9(A),(B),(C),(E)	Residents of GMU 9(A), (B), (C), (E)
9(D)	NO SUBSISTENCE
11	Residents of GMU 11, Residents of GMU 12 along Nabesna Road, and GMU 13(A)-(D)
12 East ¹	Residents of GMU 12
12 South ¹	Residents of GMU 11 north of 62nd parallel and excluding BLM parcels of north and south Slana; and residents of GMU 12, 13(A)-(D) and residents of Dot Lake
12 North ¹	Residents of GMU 12 and residents of Dot Lake and Mentasta Lake
13 (except 13(A) west)	Residents of GMU 13
14	NO SUBSISTENCE
15(A), (B) portions of 15(C)	NO SUBSISTENCE
15(C) Rural Areas	Residents of English Bay and Port Graham
16(A)	NO SUBSISTENCE
16(B)	Residents of GMU 16(B)
17(A)	Residents of GMU 17
17(B) & (C)	Residents of GMU 17 and residents of Nondalton and Levelock
18	Residents of GMU 18 and residents of Upper Kalskag
19(A),(B)	Residents of GMU 18 within Kuskokwim River drainage upstream from and including the Johnson River, and GMU 19
19(C)	Residents of GMU 19
19(D)	Residents of GMU 19 and residents of Lake Minchumina
20(A)	Residents of Cantwell, Minto, and Nenana
20(B) Minto Managment Area	Residents of Minto and Nenana
20(B) Remainder	Rural residents of GMU 20(B) and residents of Nenana and Tanana
20(C)	Rural residents of GMU 20(C) (except that portion within Denali National Park and Preserve and that portion east of the Teklanika River), and residents of Cantwell, Manley, Minto, Nenana, the road-connected area along the Parks Highway from milepost 300-309, Nikolai, Tanana, and Telida

MOOSE (continued)

20(C)	Rural residents of GMU 20(C) and residents of Cantwell, Manley, Minto, Nenana, Nikolai, Tanana, and Telida
20(D)	Rural residents of GMU 20(D) and residents of Tanacross
20(F)	Residents of GMU 20(F) and residents of Manley, Minto, and Stevens Village
21(A)	Residents of GMU 21(A), 21(E), and residents of Takotna, McGrath, Aniak and Crooked Creek
21(B),(C)	Residents of GMU 21(B), 21(C), and residents of Tanana and Galena
21(D)	Residents of GMU 21(D) and residents of Huslia and Ruby
21(E)	Residents of GMU 21(E) and residents of Russian Mission
22	Residents of GMU 22
23	Residents of GMU 23
25(A)	Residents of GMU 25(A) and residents of Venetie
25(D) West	Residents of Beaver, Birch Creek, and Stevens Village
25(D) Remainder	Residents of "Remainder of Unit 25"
26	Residents of GMU 26, (except the Prudhoe Bay-Deadhorse Industrial Complex), and residents Point Hope, and Anaktuvuk Pass

¹ GMU 12 east of the Nabesna River, south of the winter trail from Pickerel Lake to the Canadian Border.

² GMU 12 south of a line from Noyes Mtn., southeast of confluence of Tatschunda Creek to Nabesna River.

³ Remainder of Unit 12

DEER

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

1(A)	Rural residents of GMU 1(A) and residents of GMU 2
1(B)	Rural residents of GMU 1(A), residents of 1(B), 2, 3
1(C)	Rural residents of 1(C) and residents of 1(D) and residents of Hoonah and Gustavus
2	Rural residents of 1(A), and residents of GMU 2, 3
3	Residents of GMU 1(B) and 3, and residents of Port Alexander, Port Protection, Pt. Baker, and Meyer's Chuck
4	Residents of GMU 4 and residents of Kake, Gustavus, Haines, Petersburg, Pt. Baker, Klukwan, Port Protection, and Wrangell
5	Residents of Yakutat
8	Residents of GMU 8

CARIBOU

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

7	NO SUBSISTENCE
9(A),(B)	Residents of GMU 9(B), 9(C) and 17
9(C)	Residents of GMU 9(B), 9(C), 17 and residents of Egegik
9(D)	Residents of GMU 9(D), and residents of False Pass
9(E)	Residents of GMU 9(B), 9(C), 9(E), 17 and residents of Nelson Lagoon and Sand Point
10 Unimak Island	Residents of False Pass
11 Mentasta Herd	Residents of GMU 11, 12 along Nabesna Road, and 13 (A)-(D)
12 Nelchina Herd	Residents of Northway and Tetlin

CARIBOU (continued)

12 40-mile Herd	Residents of GMU 12 north of Wrangell Park Preserve and residents of GMU 20(D) and 20(E)
13 & 14(B) Nelchina Herd	Residents of GMU 11 and 13, and GMU 12 along Nabesna Road
17	Residents of GMU 9(B) and 17 and residents of Limz Village and Stony River
19(A),(B)	(fall season) Residents of GMU 19(A), (B)—(winter season) residents of GMU 18 in Kuskokwim Drainage and Bay, and residents of 19(A), (B)
19(C)	Residents of GMU 19(C) and residents of McGrath, Nikolai and Telida
19(D)	Residents of GMU 19(D) and residents of Sleetmute and Stony River
20(A)	NO SUBSISTENCE
20(D) 40-Mile Herd	Residents of GMU 12 north of Wrangell Park-Preserve, 20(D), (E)
20(D) Macomb Herd	Residents of Dot Lake
20(E) 40-Mile Herd	Residents of GMU 12 north of Wrangell Park-Preserve, 20(D) and 20(E)
21(A),(E)	Residents of GMU 21(A) and residents of Aniak, Chuathbaluk, Crooked Creek, Grayling, Holy Cross, McGrath, Shageluk, and Takotna
21, 22, 23, 26 Western Arctic Caribou Herd	Residents of GMU 21(D) west of the Koyukuk and Yukon Rivers, and residents of GMU 22(A), (B), 23, and 26(A)
26(B) Central Arctic Herd	Residents of Anaktuvuk Pass, Kaktovik, Nuiqsut, and Wiseman

SHEEP

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

7	NO SUBSISTENCE
13(D)	NO SUBSISTENCE
14(C)	NO SUBSISTENCE
15	NO SUBSISTENCE
23	Residents of GMU 23 north of the Arctic Circle
25(A) & 26(C)	Residents of Arctic Village, Chalkytsik, Fort Yukon, Kaktovik, and Venetie
25(B),(C)	NO SUBSISTENCE
26(A),(B)	Residents of Anaktuvuk Pass, Kaktovik, Nuiqsut, and Wiseman

BISON

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

GMU 11, 19, 20	NO SUBSISTENCE
----------------	----------------

ELK

Alaskan residents domiciled in the communities or units listed below qualify for subsistence uses of the game populations in the units listed in the left column.

8	NO SUBSISTENCE

ALASKA FISH & GAME SPORT FISHING ISSUE

Last year's (1987) sport fishing issue, THE ADF&G RECREATIONAL FISHING GUIDE, is a double-size issue containing a 32 page full-color supplement of statewide maps and timing guides. Covering all areas of the state, it offers specific information on king salmon, cutthroats, bottomfish, northern pike, grayling, sheefish, and various forms of fishing such as ice fishing and float trip fishing. The GUIDE sells for \$4.00.

Until September 1, the order of any new two-year subscription to *Alaska Fish & Game* magazine (\$15.00 for 12 issues) will bring the ALASKA RECREATIONAL FISHING GUIDE (a \$4.00 value) for FREE. And, you can start a one-year subscription (\$9.00 for six issues) at any time—for the best in Alaska outdoors reading.

GAME MANAGEMENT UNIT BOUNDARIES	
SUBUNIT BOUNDARIES	
AREAS HAVING SPECIAL RESTRICTIONS IN STATE REGULATION	
STATE PARKS	
NATIONAL PARKS / MONUMENTS	
PRESERVES	
NATIONAL WILDLIFE REFUGE	

Note: Individual map scales vary between pages.

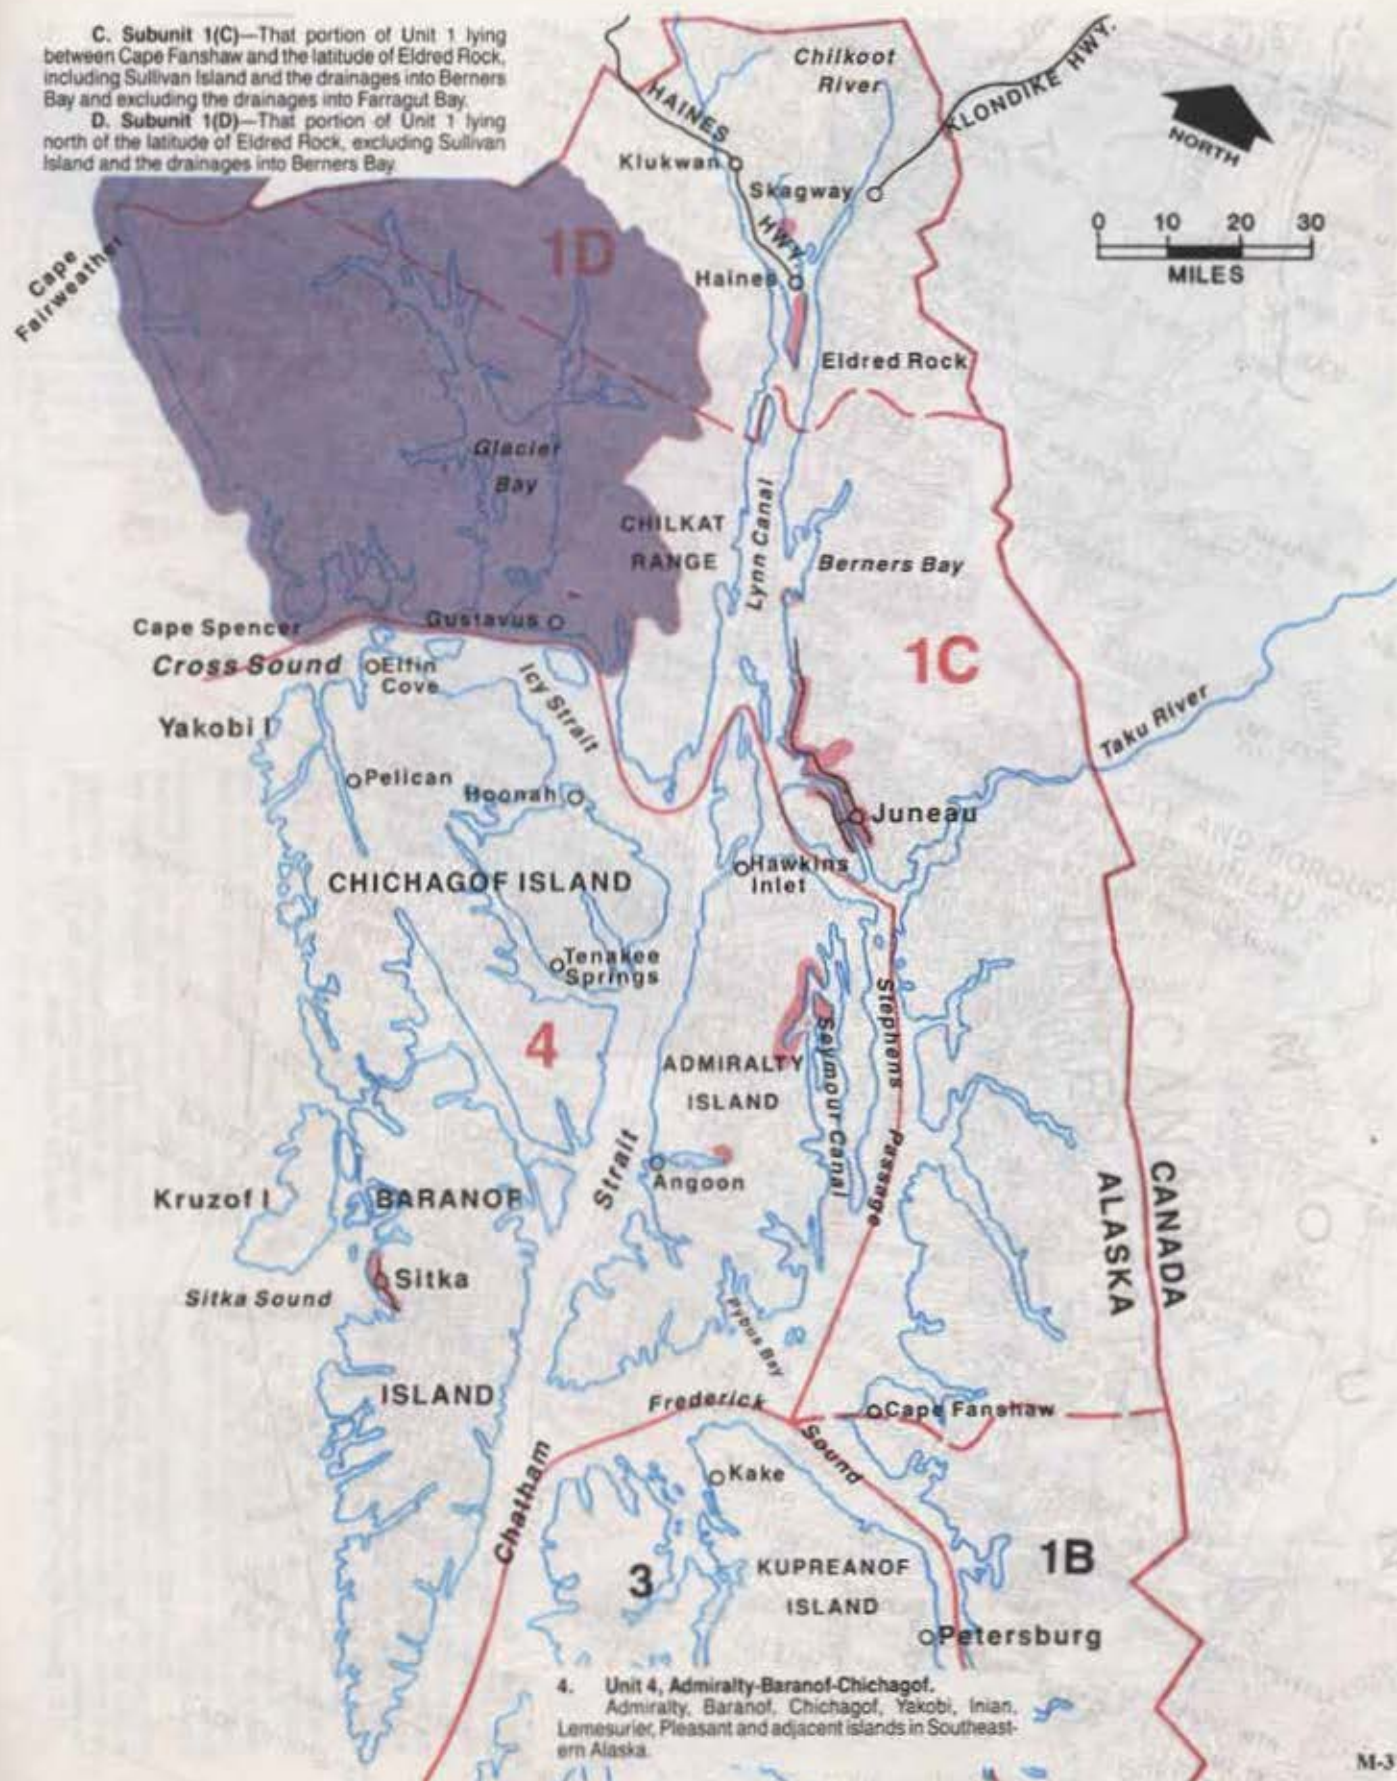

In some cases these maps are not large enough to reflect exact unit/subunit boundaries. If there is doubt, unit boundaries should be determined using the written descriptions of game management units and large-scale topographic maps of the area. Because of their extremely small size, some areas having special state restrictions are not drawn on these maps. Please refer to the Hunting Regulations and the Trapping Regulations for this information.

These maps and State Hunting and Trapping Regulations reflect Board of Game regulations. Persons are advised that additional restrictions may be imposed by the land manager.

C. Subunit 1(C)—That portion of Unit 1 lying between Cape Fanshaw and the latitude of Eldred Rock, including Sullivan Island and the drainages into Berners Bay and excluding the drainages into Farragut Bay.

D. Subunit 1(D)—That portion of Unit 1 lying north of the latitude of Eldred Rock, excluding Sullivan Island and the drainages into Berners Bay.

4. Unit 4, Admiralty-Baranof-Chichagof.
Admiralty, Baranof, Chichagof, Yakobi, Inian, Lemesurier, Pleasant and adjacent islands in Southeastern Alaska.

6. Unit 6, Cordova-Valdez.

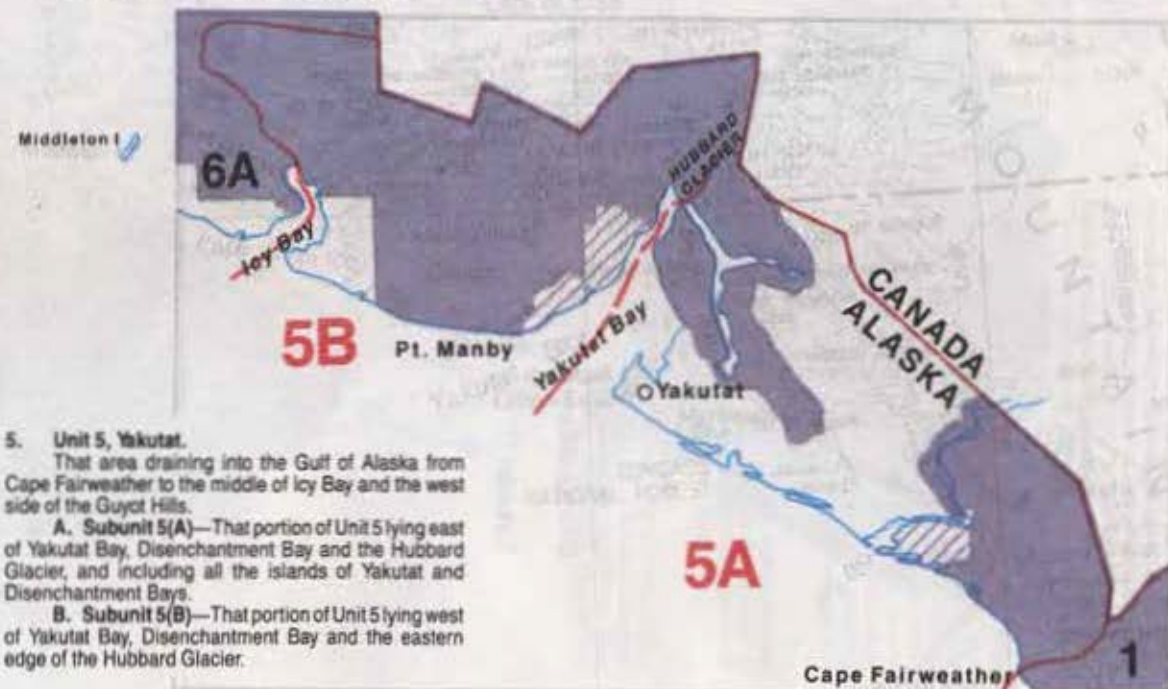

That area draining into the Gulf of Alaska and Prince William Sound from the middle of Icy Bay and the west side of the Guyot Hills to Cape Fairfield excluding the Nellie Juan and Kings River drainages, but not extending above Miles Glacier on the Copper River; and Kayak, Hinchinbrook, Montague and adjacent islands and Middleton Island.

A. Subunit 6(A)—That portion of Unit 6 with drainages into the Gulf of Alaska east of Palm Point (near Katalpa) including Kanak, Wingham and Kayak Islands.

B. Subunit 6(B)—That portion of Unit 6 lying east of the west bank of the Copper River and a line between Flag Point and Cottonwood Point; and the drainages into the Copper River or Gulf of Alaska west of Palm Point (near Katalpa).

C. Subunit 6(C)—That portion of Unit 6 lying east of the east bank of Rude River and along the eastern shore of Nelson Bay and Orca Inlet and west of the west bank of the Copper River including that area west of a line between Flag Point and Cottonwood Point.

D. Subunit 6(D)—The remainder of Unit 6.

5. Unit 5, Yakutat.

That area draining into the Gulf of Alaska from Cape Fairweather to the middle of Icy Bay and the west side of the Guyot Hills.

A. Subunit 5(A)—That portion of Unit 5 lying east of Yakutat Bay, Disenchantment Bay and the Hubbard Glacier, and including all the islands of Yakutat and Disenchantment Bays.

B. Subunit 5(B)—That portion of Unit 5 lying west of Yakutat Bay, Disenchantment Bay and the eastern edge of the Hubbard Glacier.

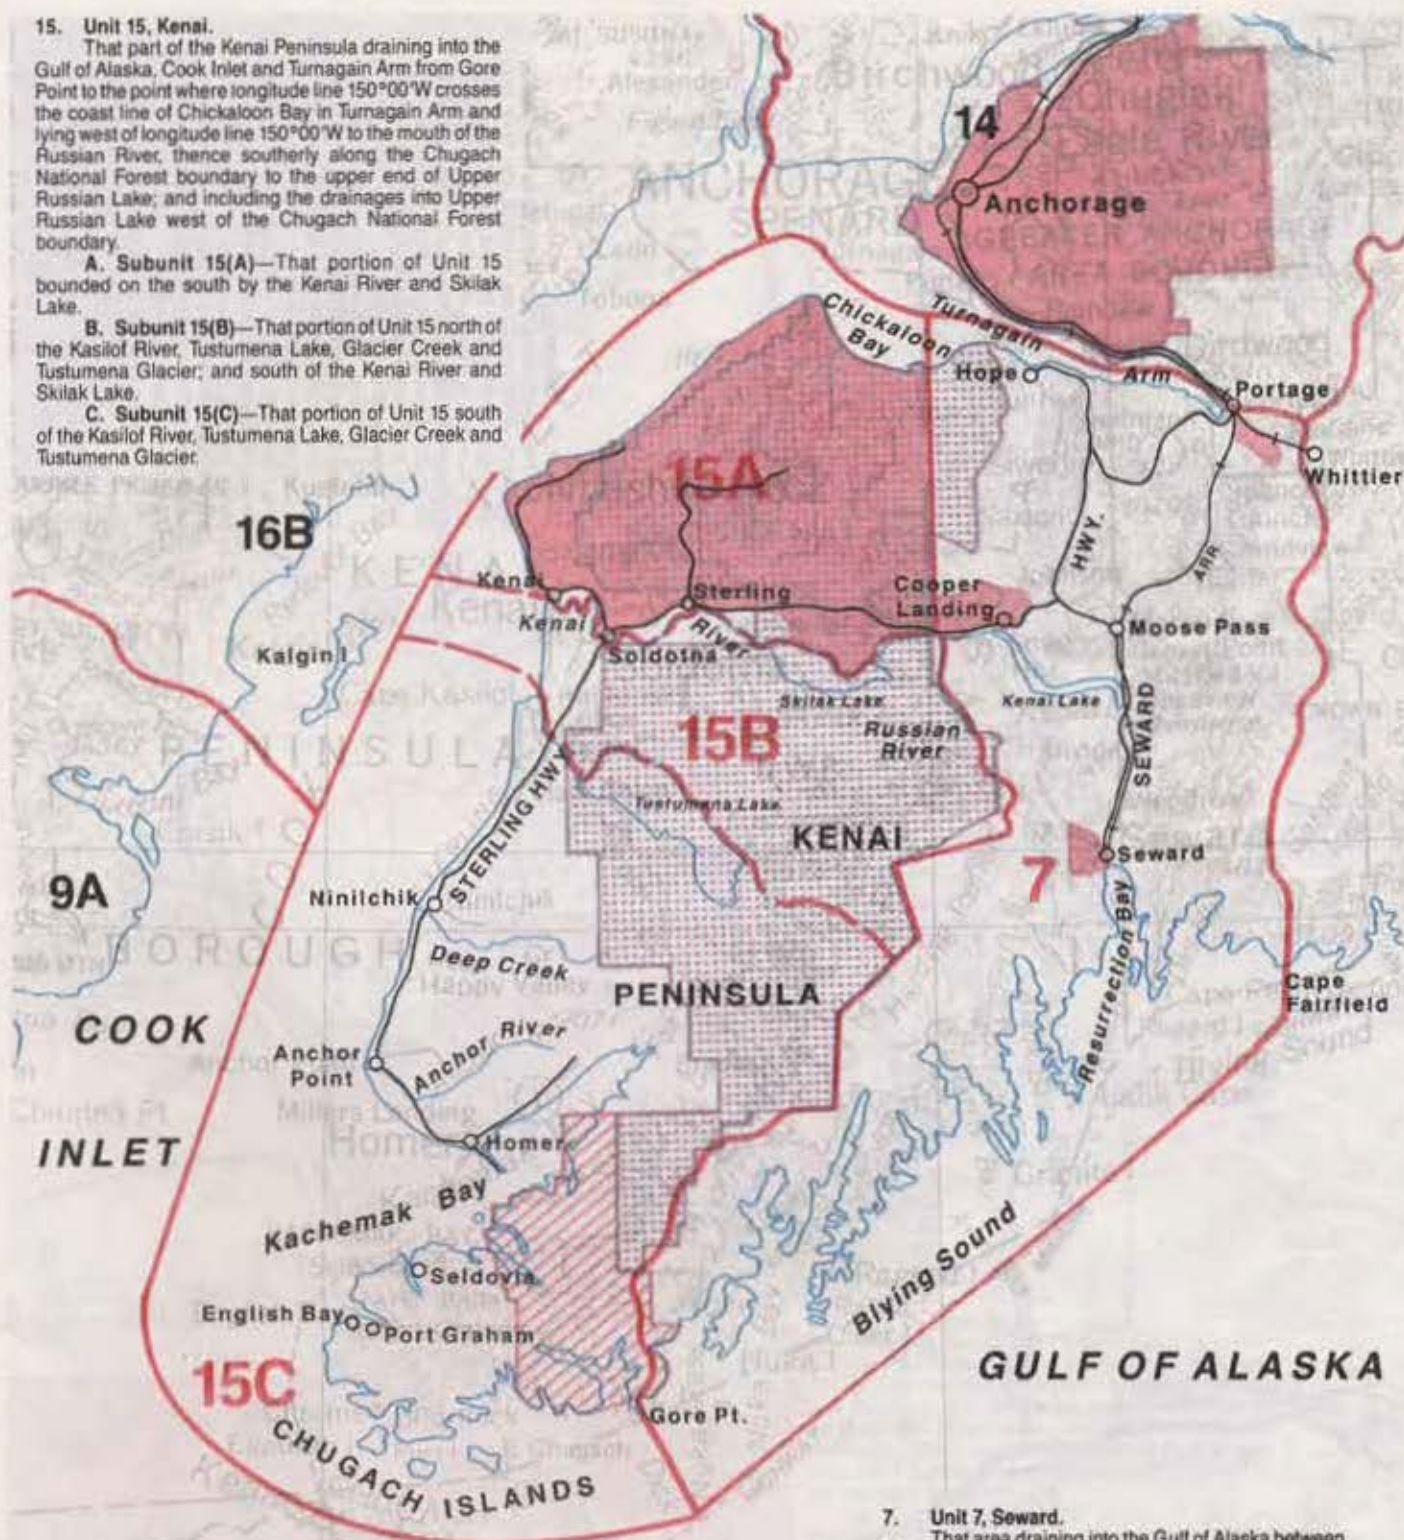

15. Unit 15, Kenai.

That part of the Kenai Peninsula draining into the Gulf of Alaska, Cook Inlet and Turnagain Arm from Gore Point to the point where longitude line 150°00'W crosses the coast line of Chickaloon Bay in Turnagain Arm and lying west of longitude line 150°00'W to the mouth of the Russian River, thence southerly along the Chugach National Forest boundary to the upper end of Upper Russian Lake; and including the drainages into Upper Russian Lake west of the Chugach National Forest boundary.

A. Subunit 15(A)—That portion of Unit 15 bounded on the south by the Kenai River and Skilak Lake.

B. Subunit 15(B)—That portion of Unit 15 north of the Kaslof River, Tustumena Lake, Glacier Creek and Tustumena Glacier; and south of the Kenai River and Skilak Lake.

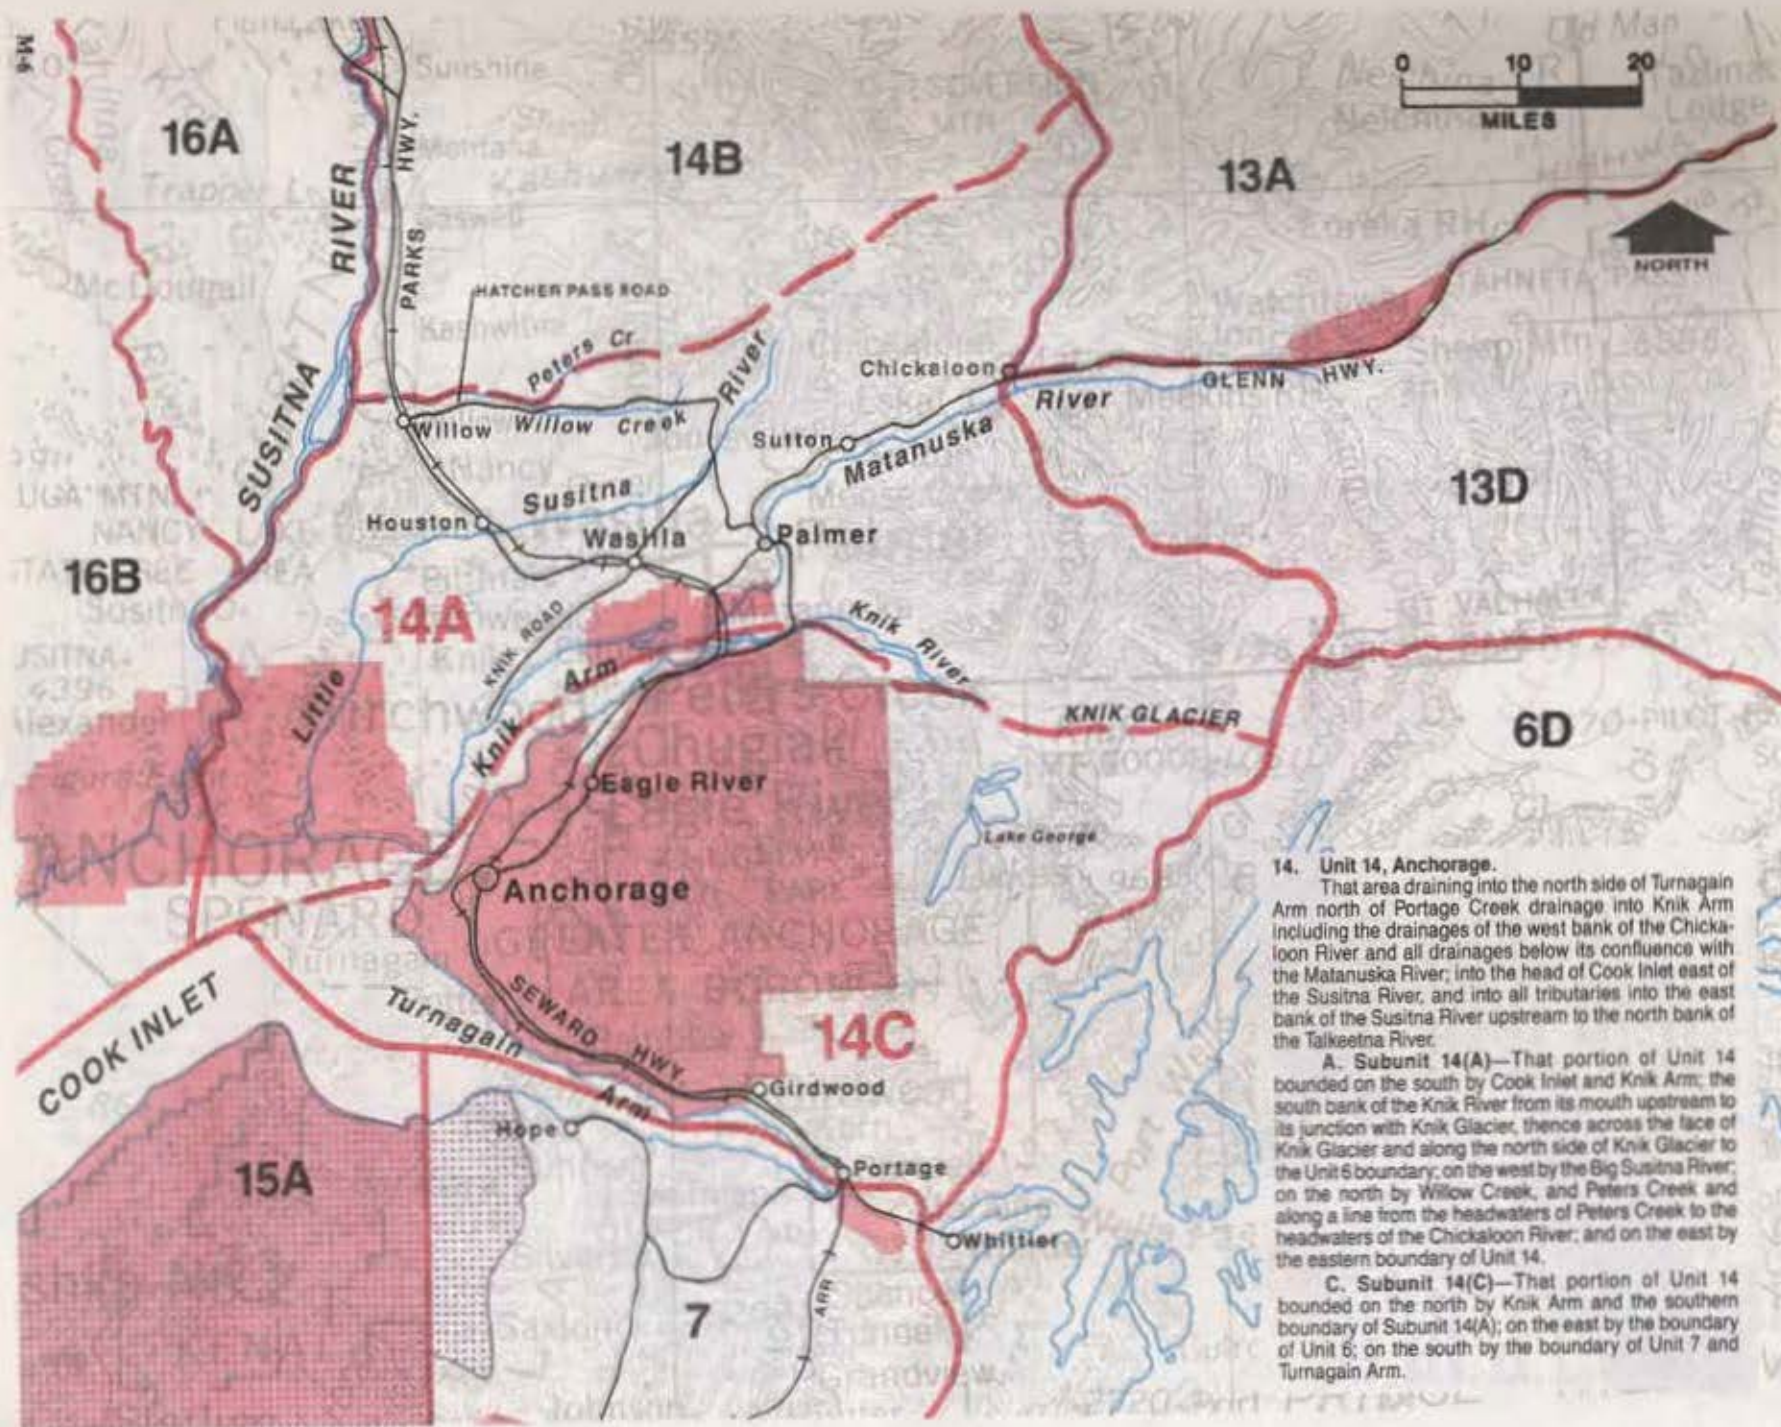

C. Subunit 15(C)—That portion of Unit 15 south of the Kaslof River, Tustumena Lake, Glacier Creek and Tustumena Glacier.

7. Unit 7, Seward.

That area draining into the Gulf of Alaska between Gore Point and Cape Fairfield, including the Nellie Juan and Kings River drainages, and including the Kenai River drainage upstream from the Russian River, the drainages into the south side of Turnagain Arm west of and including the Portage Creek drainage, and east of 150° W. long., and all Kenai Peninsula drainages east of 150° W. long., from Turnagain Arm to the Kenai River.

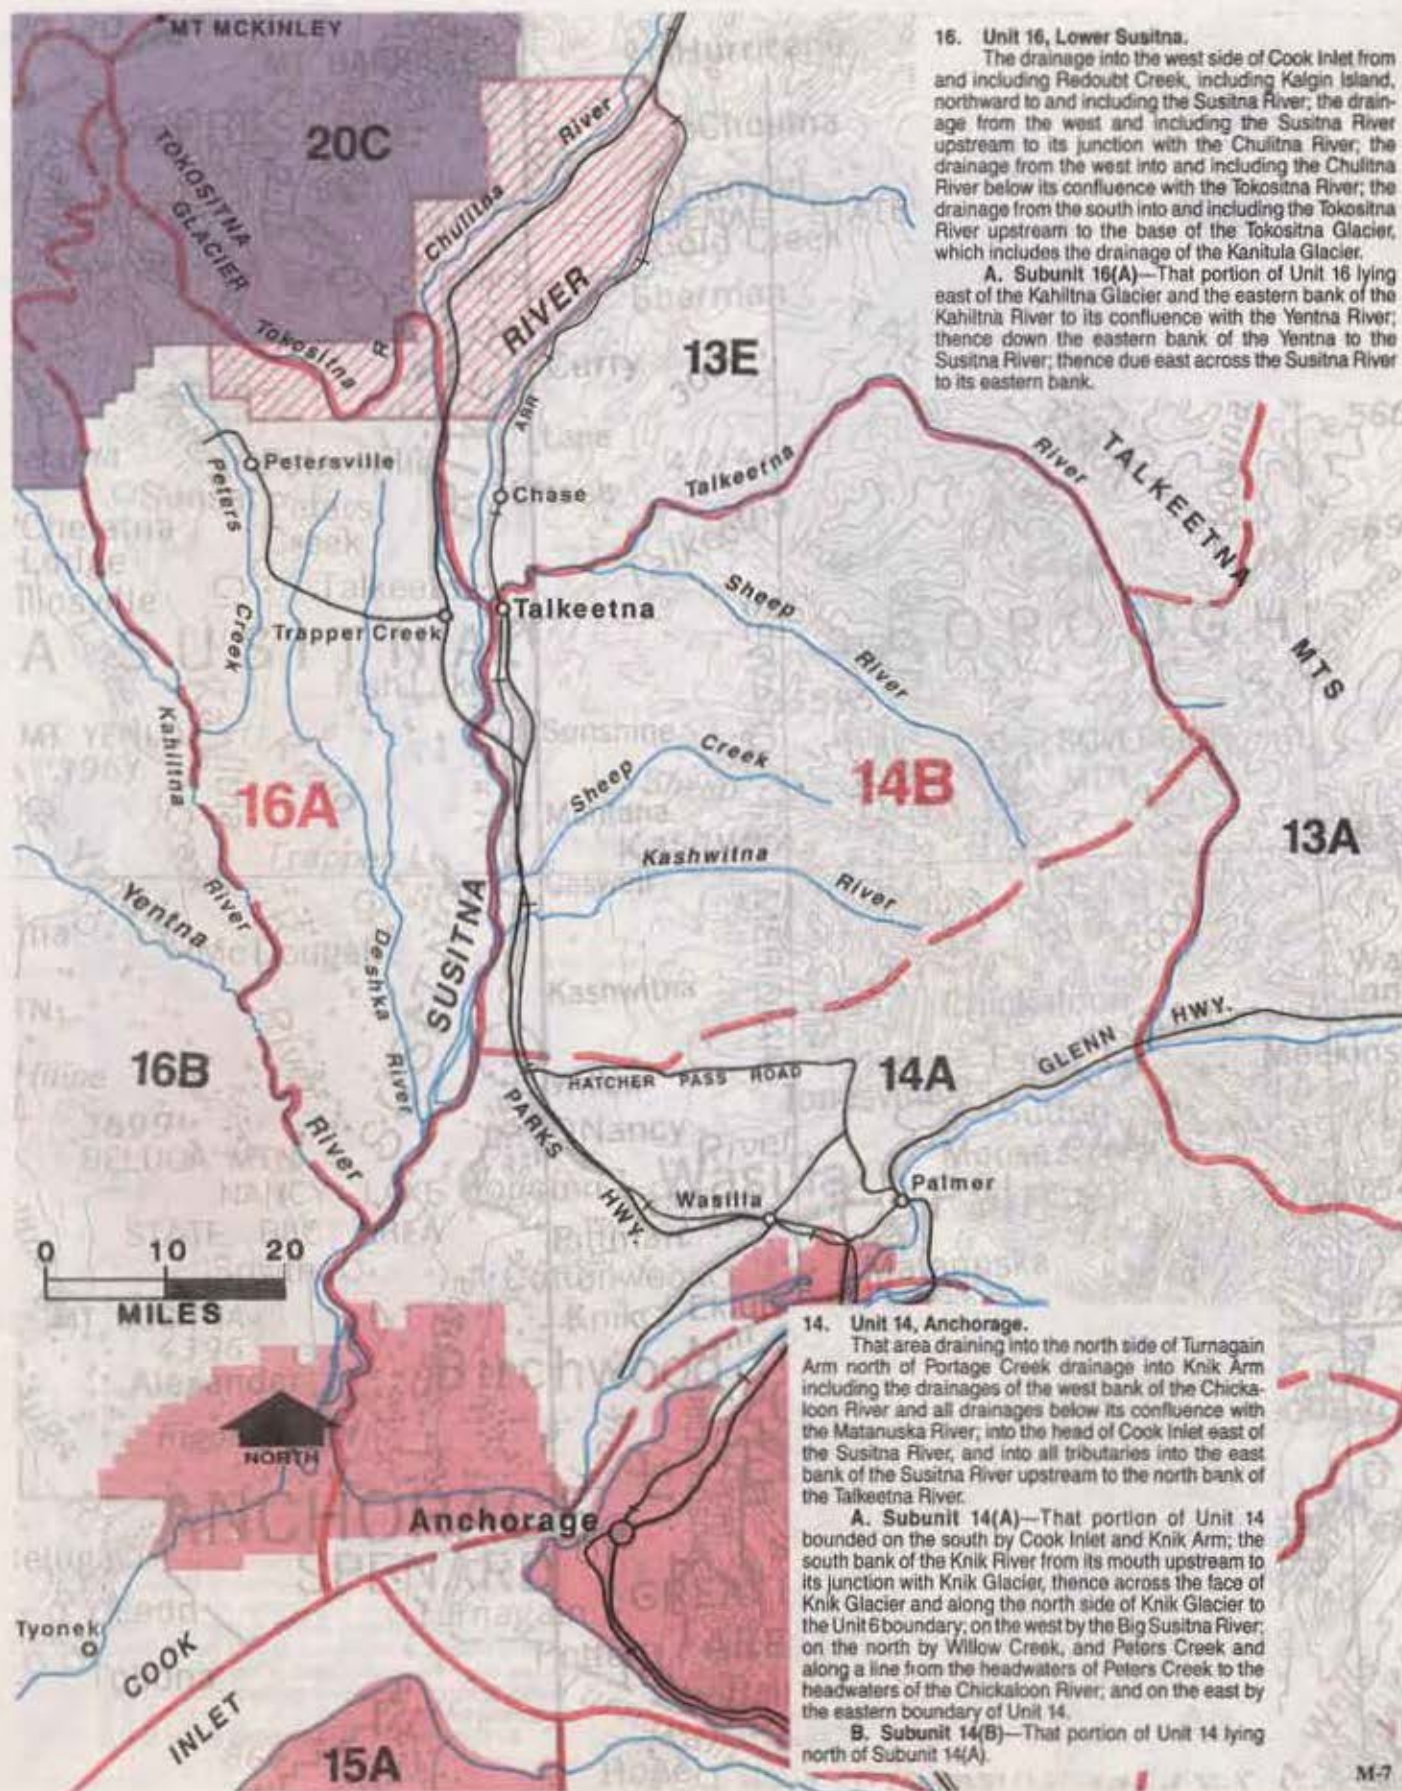

14. Unit 14, Anchorage.

That area draining into the north side of Turnagain Arm north of Portage Creek drainage into Knik Arm including the drainages of the west bank of the Chickaloon River and all drainages below its confluence with the Matanuska River; into the head of Cook Inlet east of the Susitna River, and into all tributaries into the east bank of the Susitna River upstream to the north bank of the Talkeetna River.

A. Subunit 14(A)—That portion of Unit 14 bounded on the south by Cook Inlet and Knik Arm; the south bank of the Knik River from its mouth upstream to its junction with Knik Glacier, thence across the face of Knik Glacier and along the north side of Knik Glacier to the Unit 6 boundary; on the west by the Big Susitna River; on the north by Willow Creek, and Peters Creek and along a line from the headwaters of Peters Creek to the headwaters of the Chickaloon River; and on the east by the eastern boundary of Unit 14.

C. Subunit 14(C)—That portion of Unit 14 bounded on the north by Knik Arm and the southern boundary of Subunit 14(A); on the east by the boundary of Unit 6; on the south by the boundary of Unit 7 and Turnagain Arm.

16. Unit 16, Lower Susitna.

The drainage into the west side of Cook Inlet from and including Redoubt Creek, including Kalgin Island, northward to and including the Susitna River; the drainage from the west and including the Susitna River upstream to its junction with the Chulitna River; the drainage from the west into and including the Chulitna River below its confluence with the Tokositna River; the drainage from the south into and including the Tokositna River upstream to the base of the Tokositna Glacier, which includes the drainage of the Kanitula Glacier.

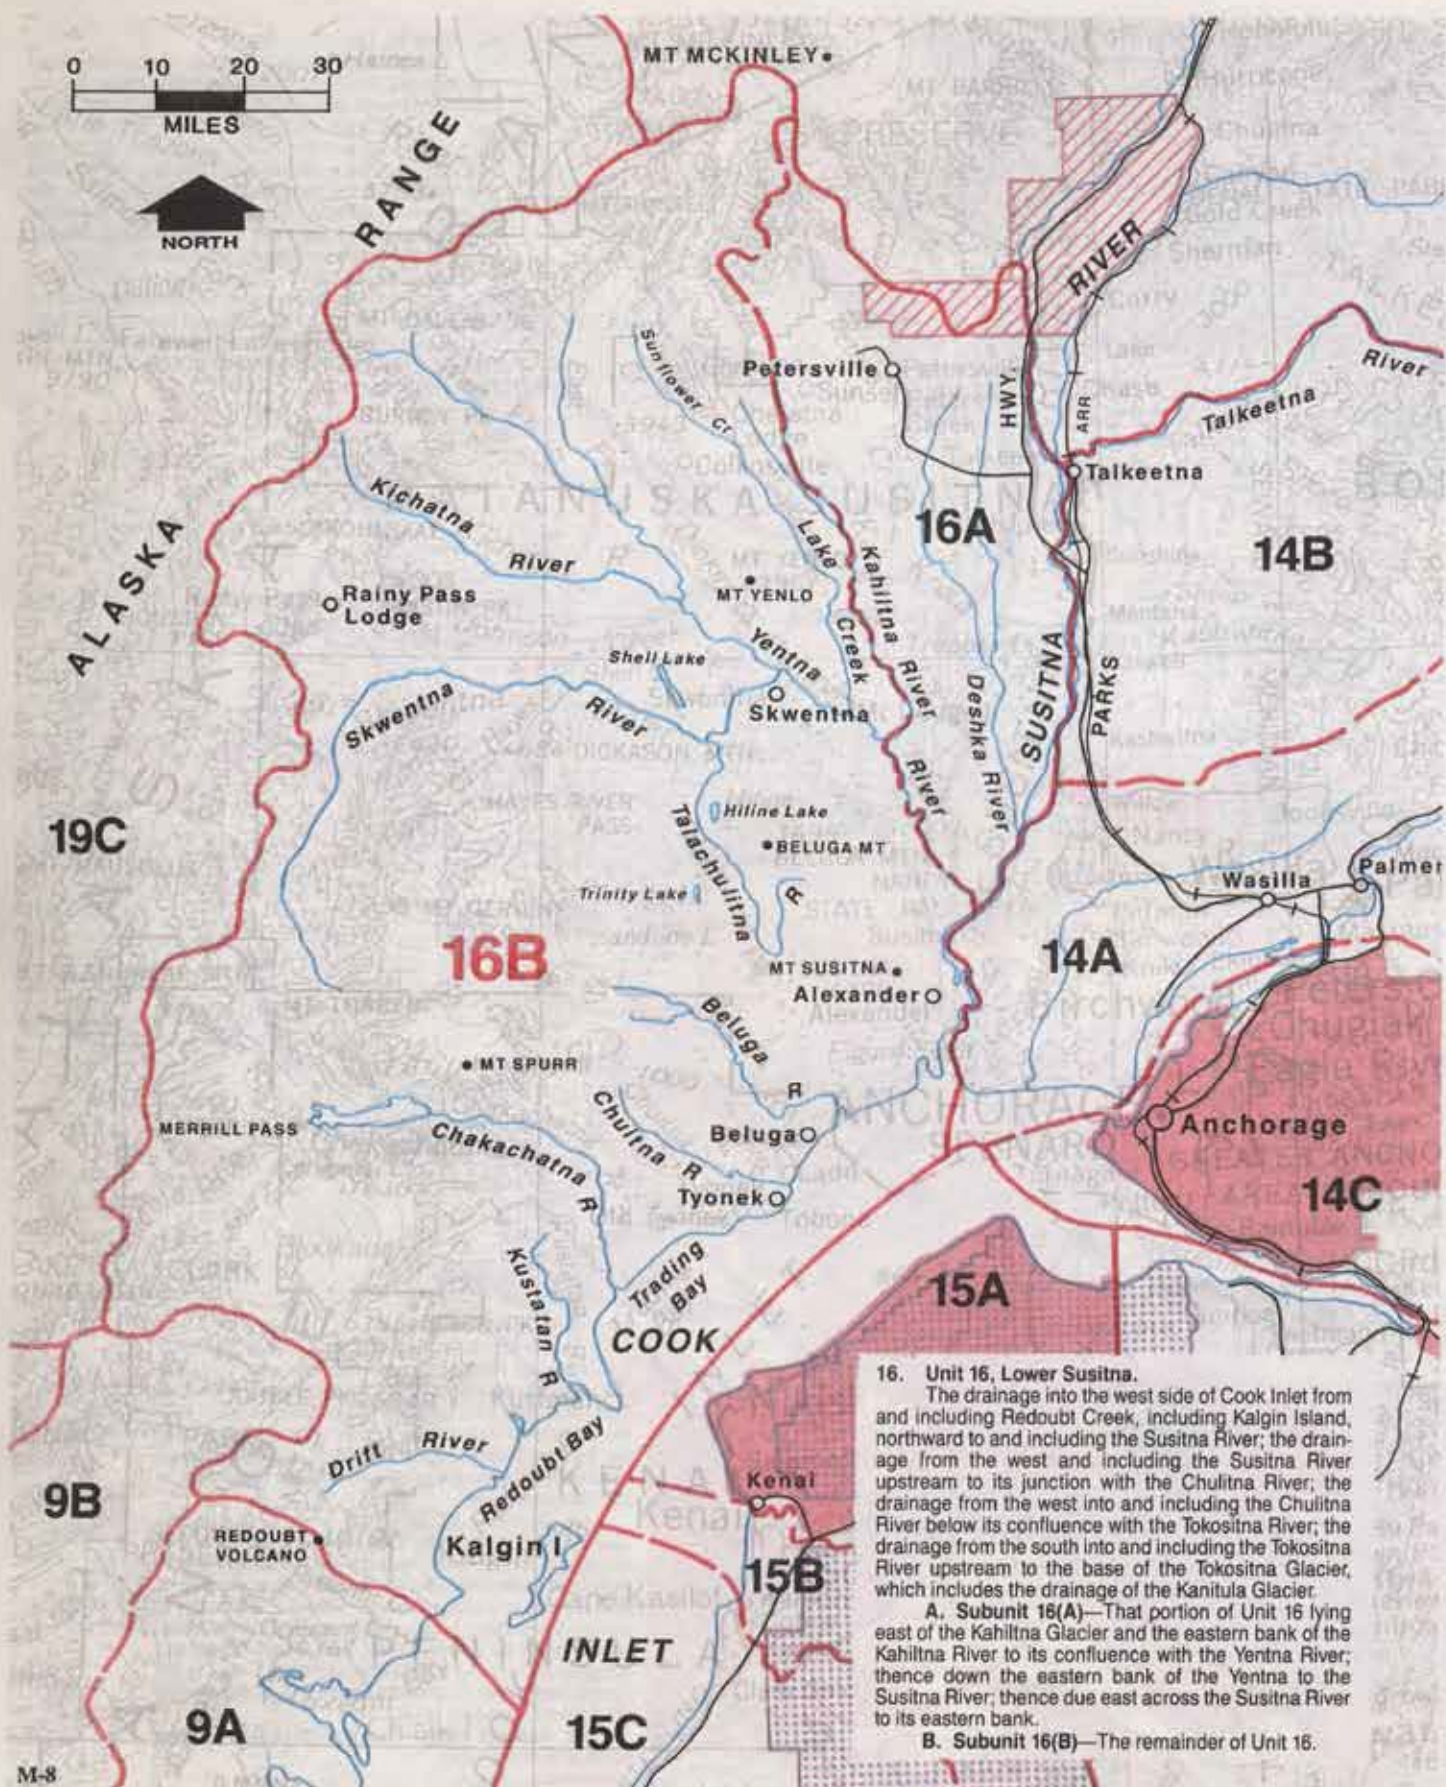

A. Subunit 16(A)—That portion of Unit 16 lying east of the Kahiltna Glacier and the eastern bank of the Kahiltna River to its confluence with the Yentna River; thence down the eastern bank of the Yentna to the Susitna River; thence due east across the Susitna River to its eastern bank.

14. Unit 14, Anchorage.

That area draining into the north side of Turnagain Arm north of Portage Creek drainage into Knik Arm including the drainages of the west bank of the Chickaloon River and all drainages below its confluence with the Matanuska River; into the head of Cook Inlet east of the Susitna River, and into all tributaries into the east bank of the Susitna River upstream to the north bank of the Talkeetna River.

A. Subunit 14(A)—That portion of Unit 14 bounded on the south by Cook Inlet and Knik Arm; the south bank of the Knik River from its mouth upstream to its junction with Knik Glacier; thence across the face of Knik Glacier and along the north side of Knik Glacier to the Unit 6 boundary; on the west by the Big Susitna River; on the north by Willow Creek, and Peters Creek and along a line from the headwaters of Peters Creek to the headwaters of the Chickaloon River; and on the east by the eastern boundary of Unit 14.

B. Subunit 14(B)—That portion of Unit 14 lying north of Subunit 14(A).

16. Unit 16, Lower Susitna.

The drainage into the west side of Cook Inlet from and including Redoubt Creek, including Kalgin Island, northward to and including the Susitna River; the drainage from the west and including the Susitna River upstream to its junction with the Chulitna River; the drainage from the west into and including the Chulitna River below its confluence with the Tokositna River; the drainage from the south into and including the Tokositna River upstream to the base of the Tokositna Glacier, which includes the drainage of the Kaniatula Glacier.

A. Subunit 16(A)—That portion of Unit 16 lying east of the Kahiltina Glacier and the eastern bank of the Kahiltina River to its confluence with the Yentna River; thence down the eastern bank of the Yentna to the Susitna River; thence due east across the Susitna River to its eastern bank.

B. Subunit 16(B)—The remainder of Unit 16.

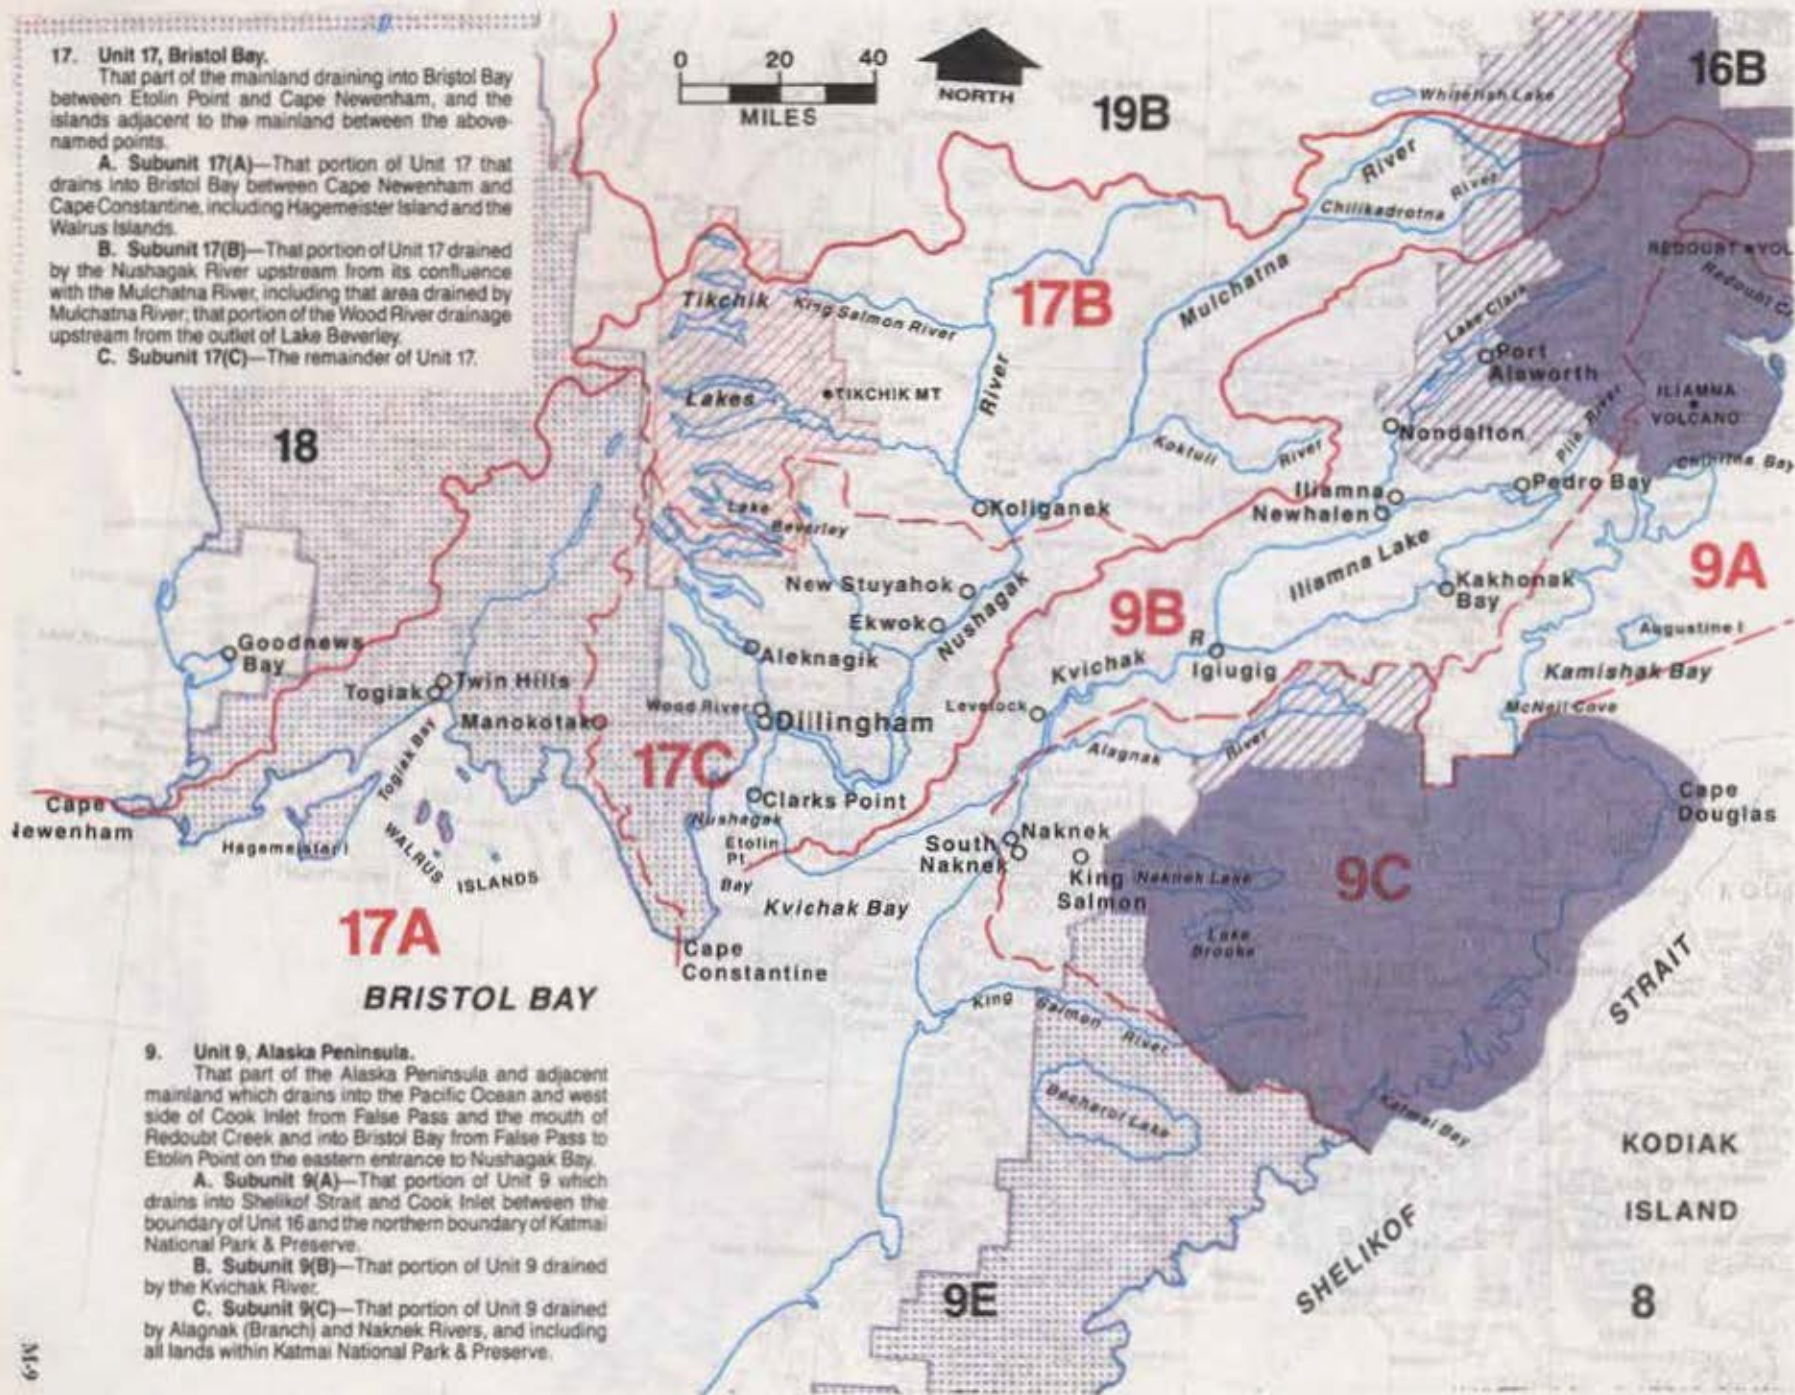

17. Unit 17, Bristol Bay.

That part of the mainland draining into Bristol Bay between Etolin Point and Cape Newenham, and the islands adjacent to the mainland between the above-named points.

A. Subunit 17(A)—That portion of Unit 17 that drains into Bristol Bay between Cape Newenham and Cape Constantine, including Hagemeister Island and the Walrus Islands.

B. Subunit 17(B)—That portion of Unit 17 drained by the Nushagak River upstream from its confluence with the Mulchatna River, including that area drained by Mulchatna River; that portion of the Wood River drainage upstream from the outlet of Lake Beverley.

C. Subunit 17(C)—The remainder of Unit 17.

9. Unit 9, Alaska Peninsula.

That part of the Alaska Peninsula and adjacent mainland which drains into the Pacific Ocean and west side of Cook Inlet from False Pass and the mouth of Redoubt Creek and into Bristol Bay from False Pass to Etolin Point on the eastern entrance to Nushagak Bay.

A. Subunit 9(A)—That portion of Unit 9 which drains into Shelikof Strait and Cook Inlet between the boundary of Unit 16 and the northern boundary of Katmai National Park & Preserve.

B. Subunit 9(B)—That portion of Unit 9 drained by the Kvichak River.

C. Subunit 9(C)—That portion of Unit 9 drained by Alagnak (Branch) and Naknek Rivers, and including all lands within Katmai National Park & Preserve.

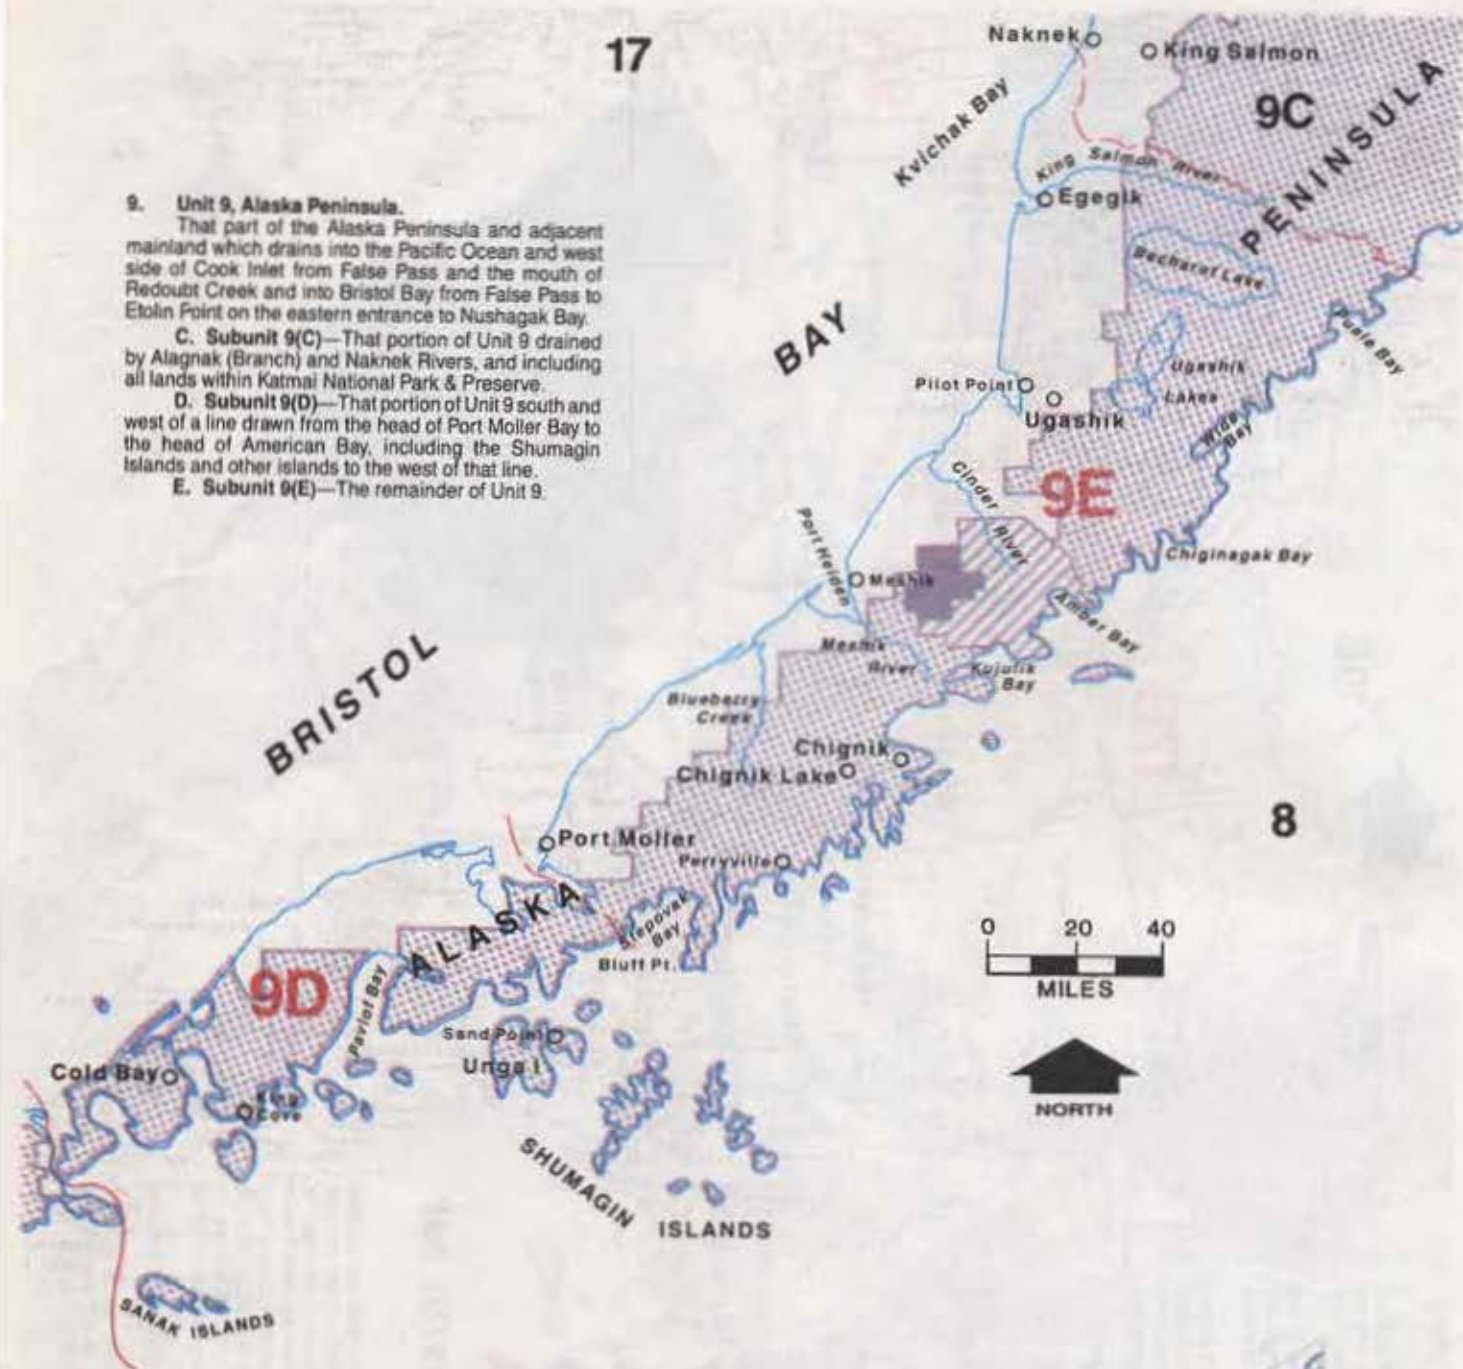

9. Unit 9, Alaska Peninsula.

That part of the Alaska Peninsula and adjacent mainland which drains into the Pacific Ocean and west side of Cook Inlet from False Pass and the mouth of Redoubt Creek and into Bristol Bay from False Pass to Etolin Point on the eastern entrance to Nushagak Bay.

C. Subunit 9(C)—That portion of Unit 9 drained by Alagnak (Branch) and Naknek Rivers, and including all lands within Katmai National Park & Preserve.

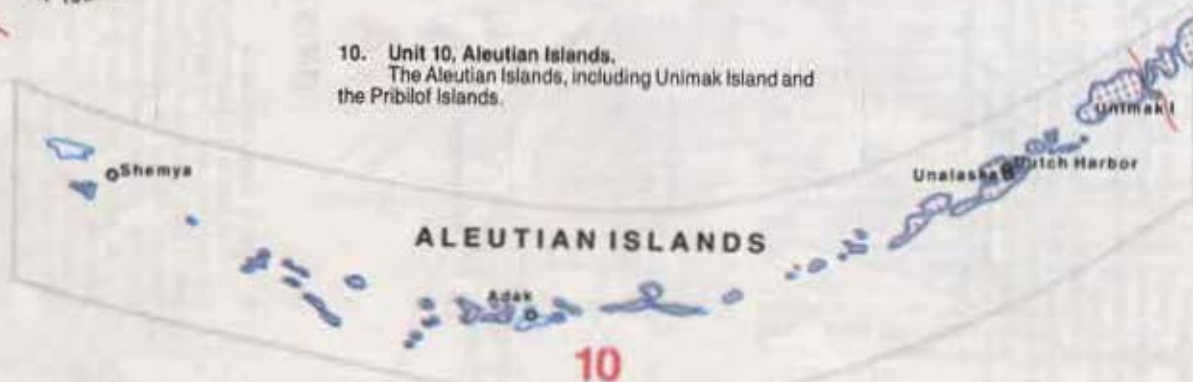

D. Subunit 9(D)—That portion of Unit 9 south and west of a line drawn from the head of Port Moller Bay to the head of American Bay, including the Shumagin Islands and other islands to the west of that line.

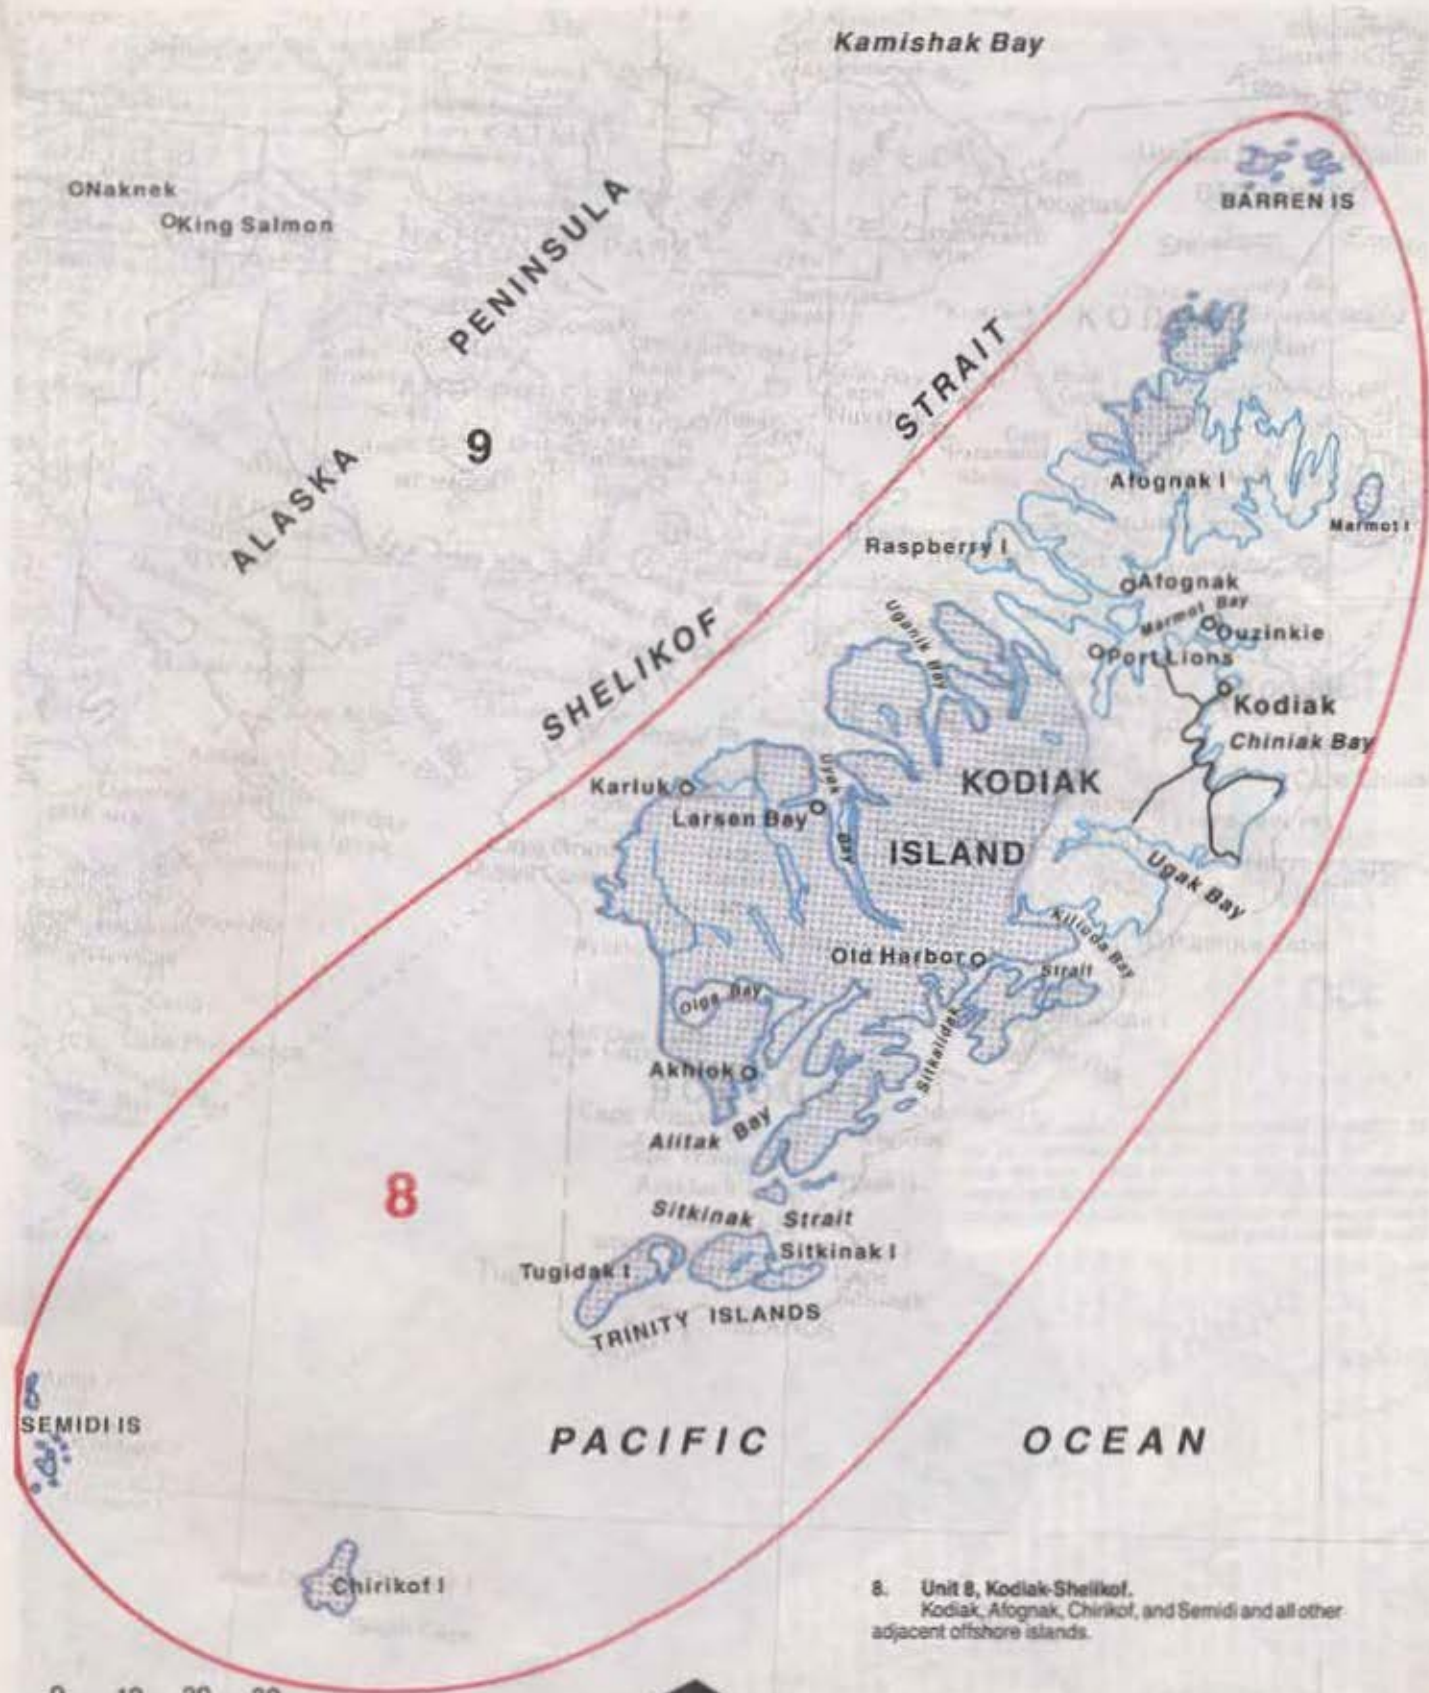

E. Subunit 9(E)—The remainder of Unit 9.

10. Unit 10, Aleutian Islands.

The Aleutian Islands, including Unimak Island and the Pribilof Islands.

8. Unit 8, Kodiak-Shelikof.
Kodiak, Afognak, Chirikof, and Semidi and all other adjacent offshore islands.

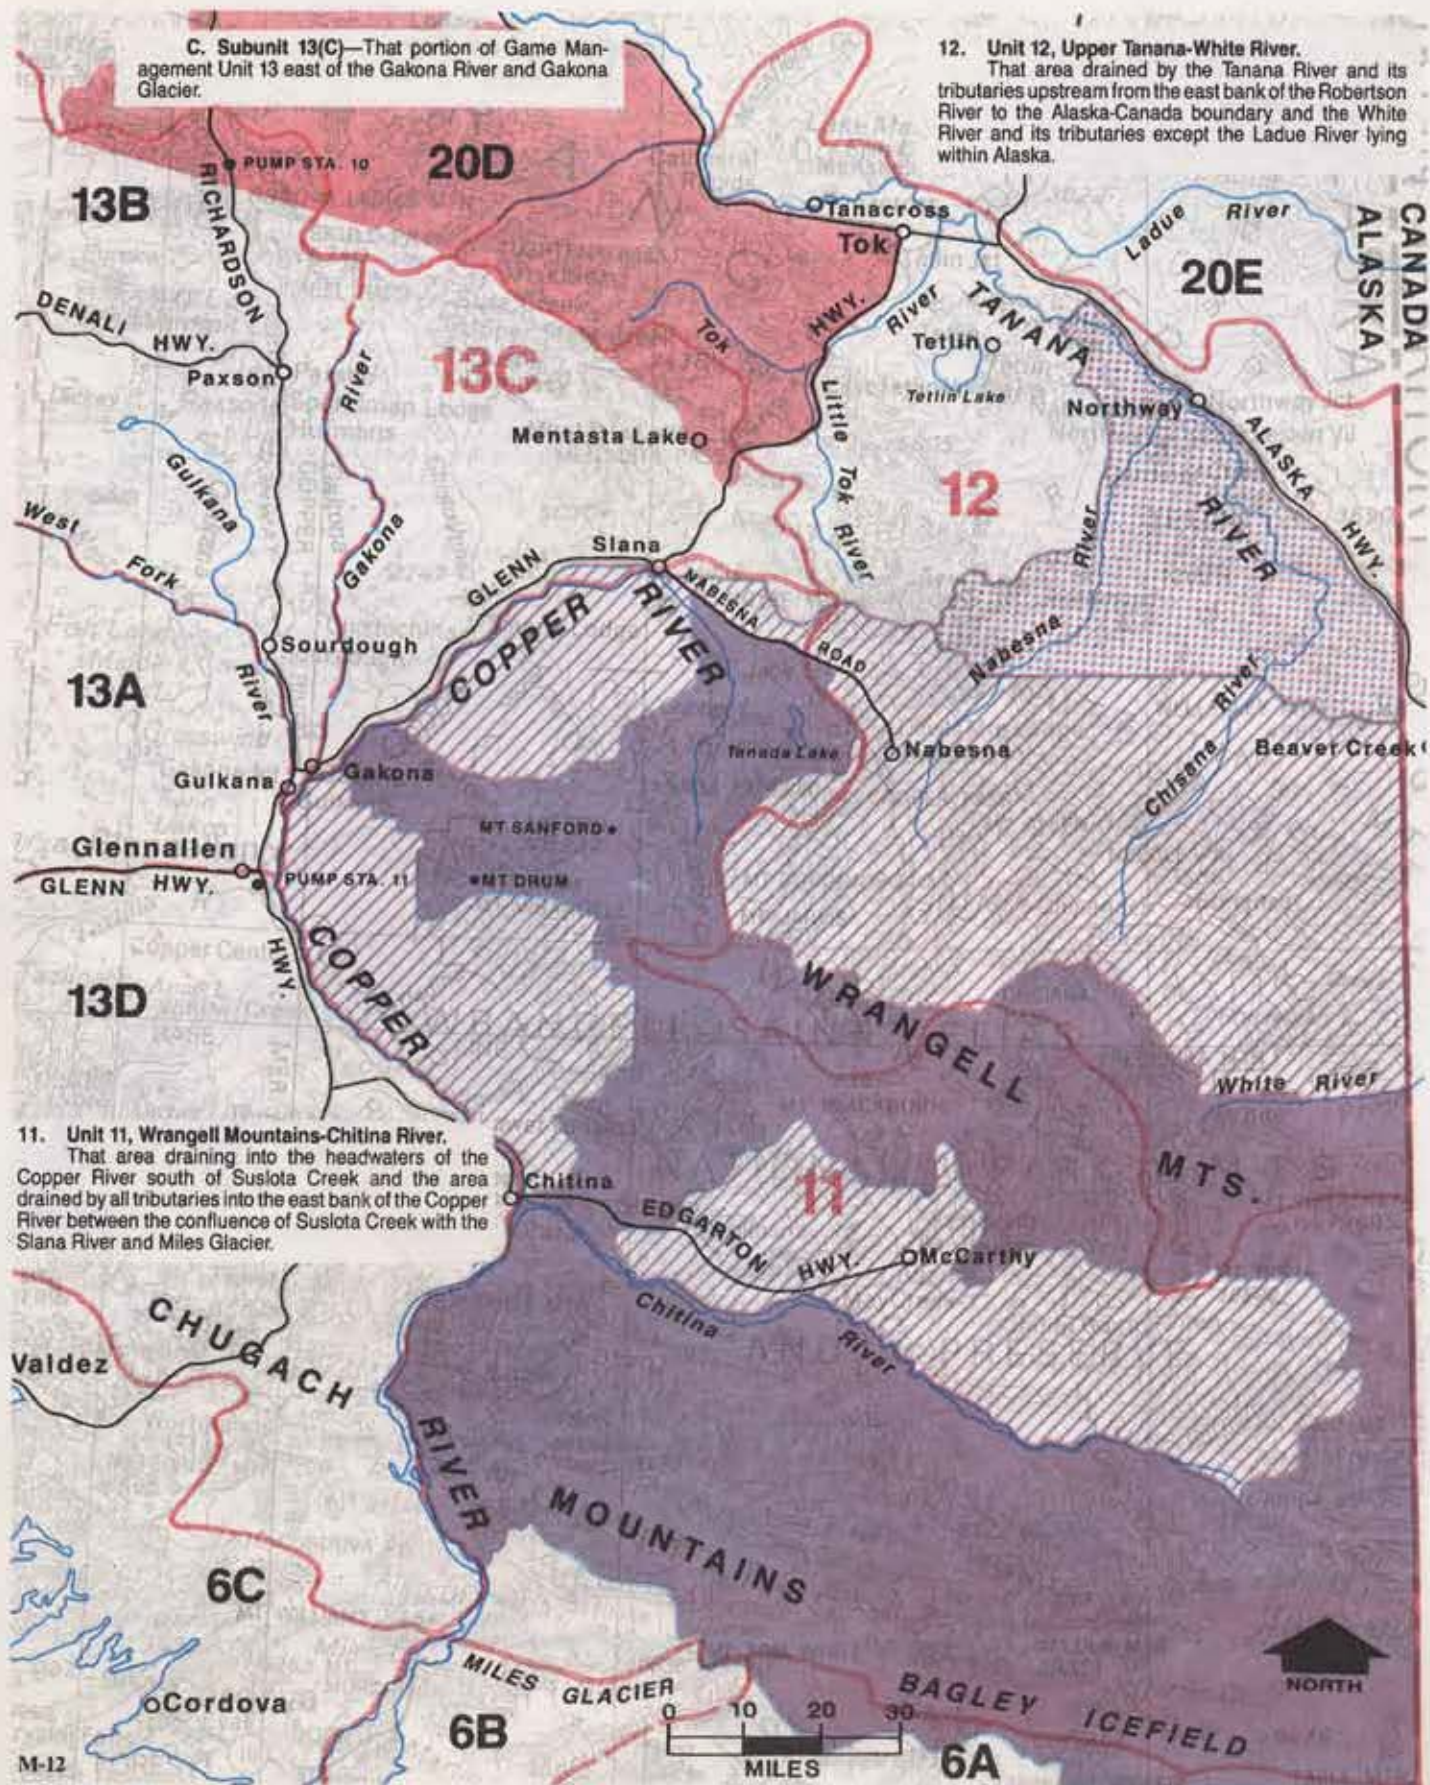

0 10 20 30
MILES

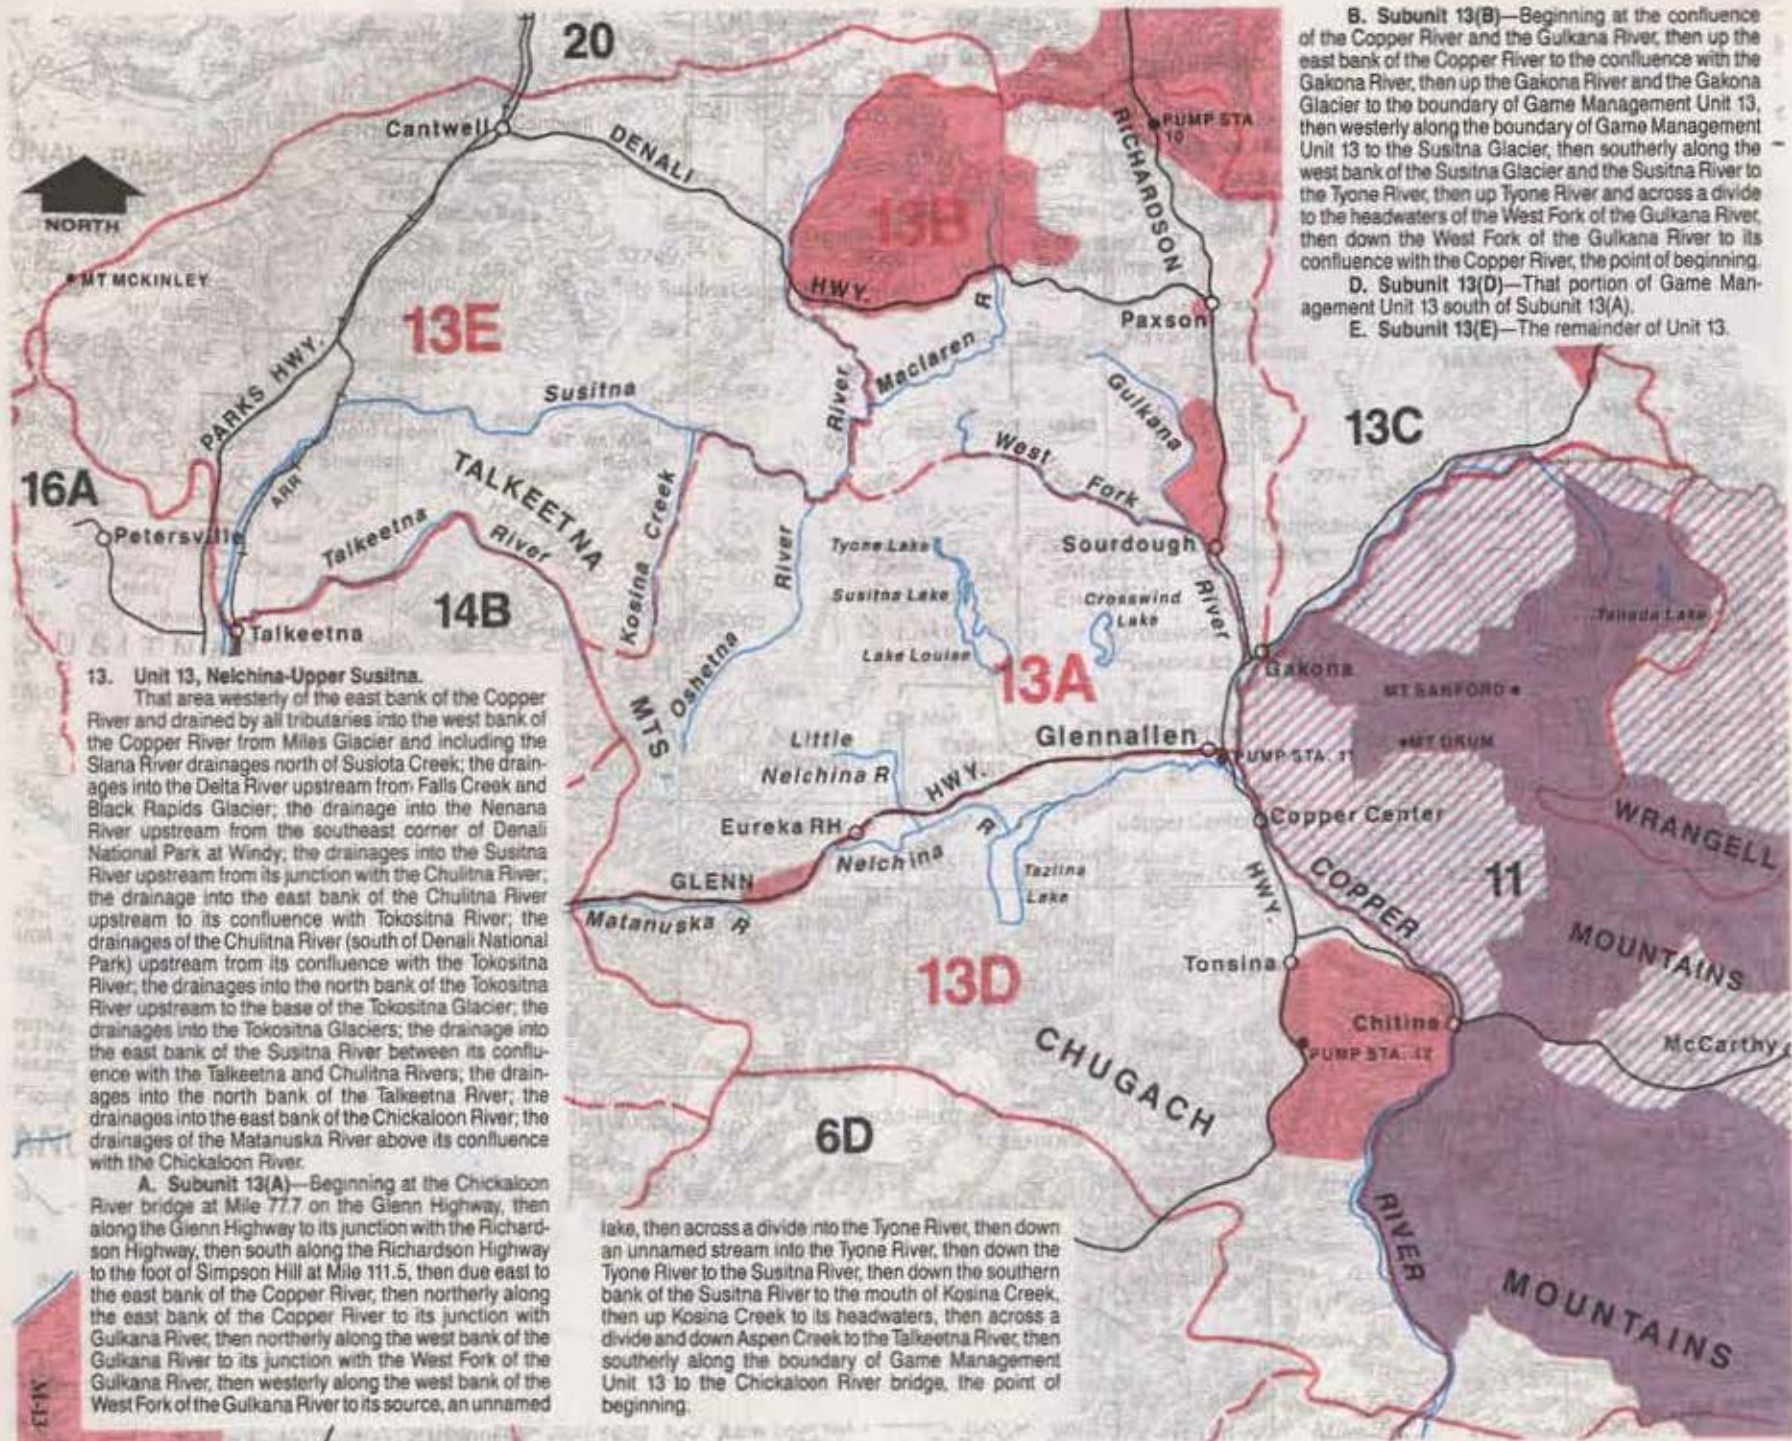

C. Subunit 13(C)—That portion of Game Management Unit 13 east of the Gakona River and Gakona Glacier.

12. Unit 12, Upper Tanana-White River.

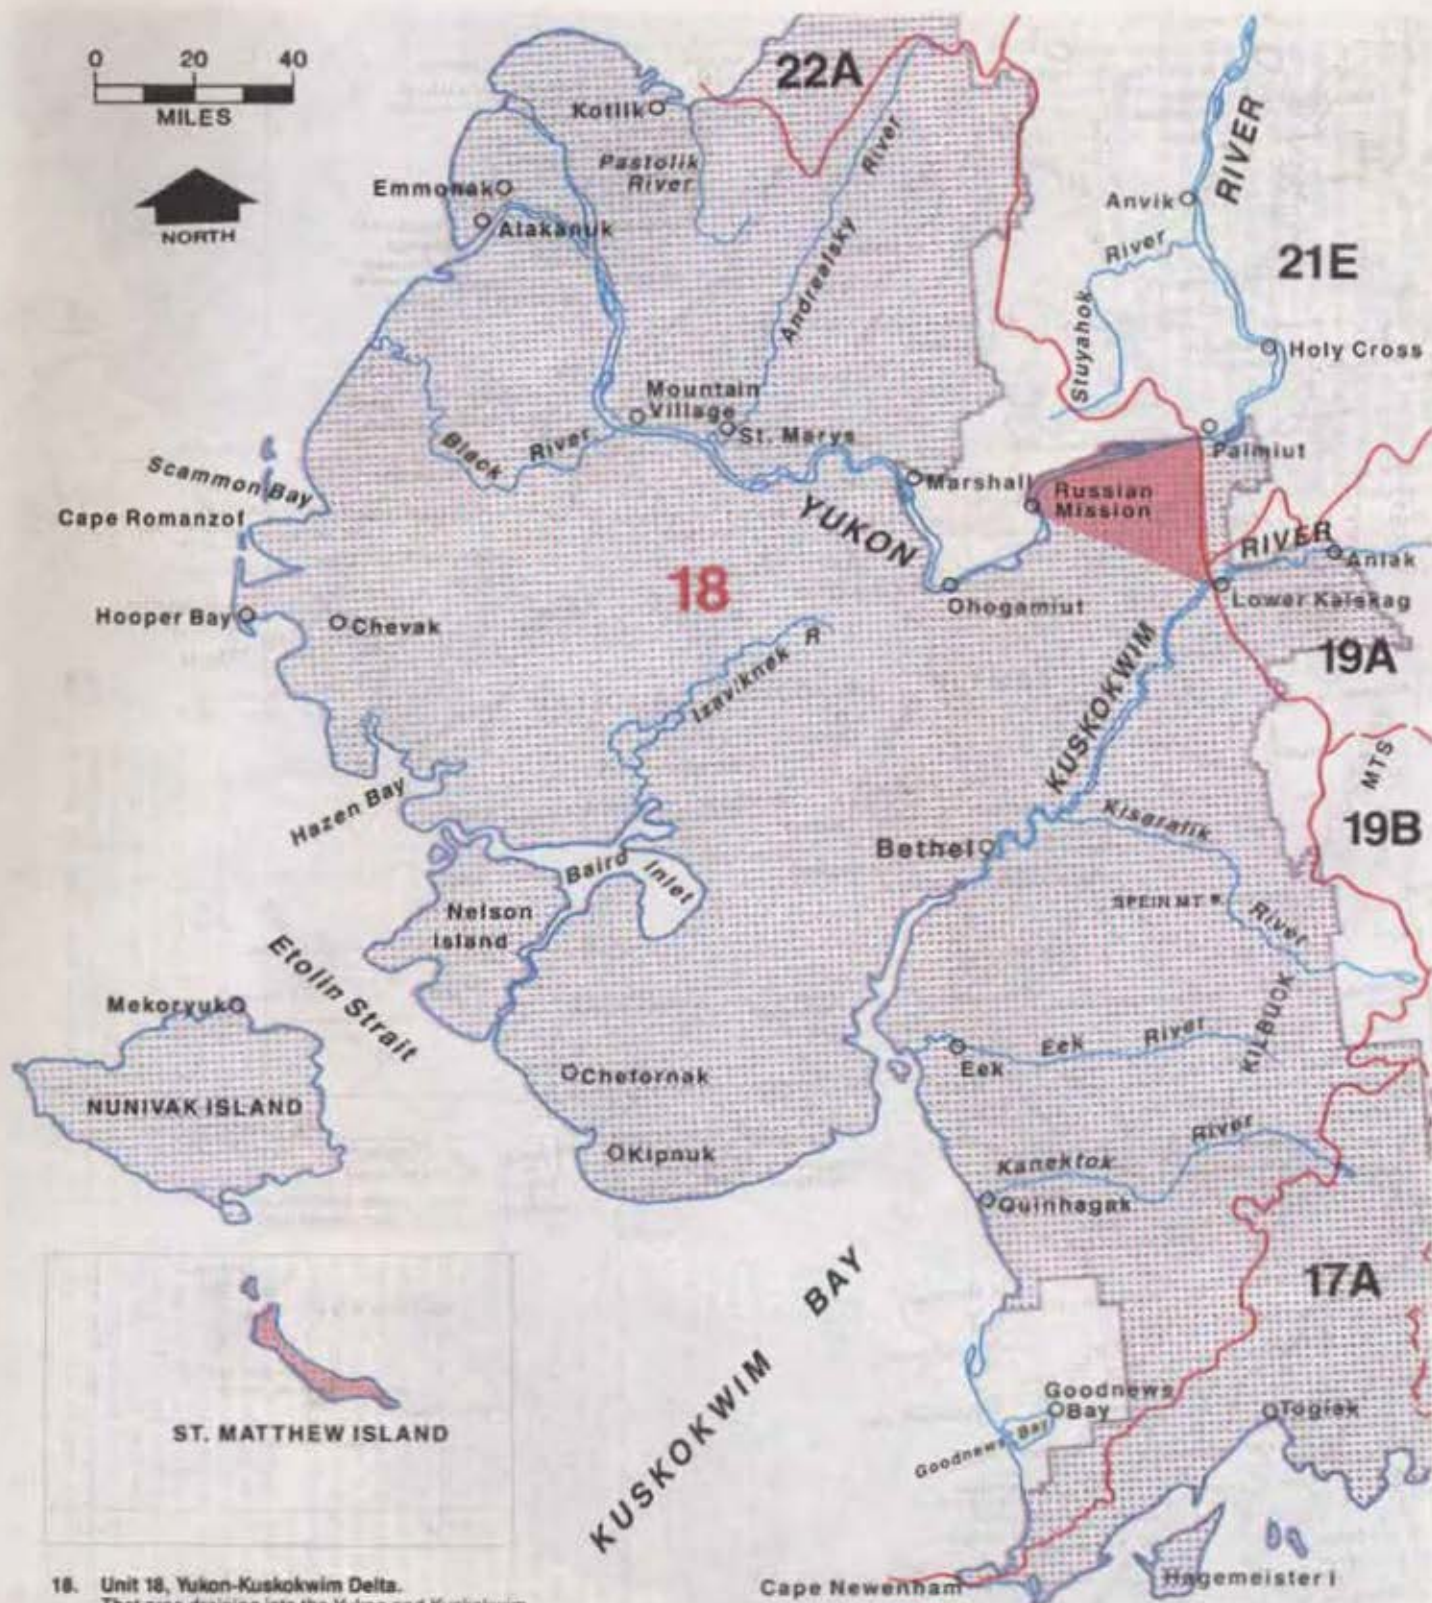

That area drained by the Tanana River and its tributaries upstream from the east bank of the Robertson River to the Alaska-Canada boundary and the White River and its tributaries except the Ladue River lying within Alaska.

11. Unit 11, Wrangell Mountains-Chitina River.
That area draining into the headwaters of the Copper River south of Susitna Creek and the area drained by all tributaries into the east bank of the Copper River between the confluence of Susitna Creek with the Siana River and Miles Glacier.

0 20 40
MILES

ST. MATTHEW ISLAND

18. Unit 18, Yukon-Kuskokwim Delta.

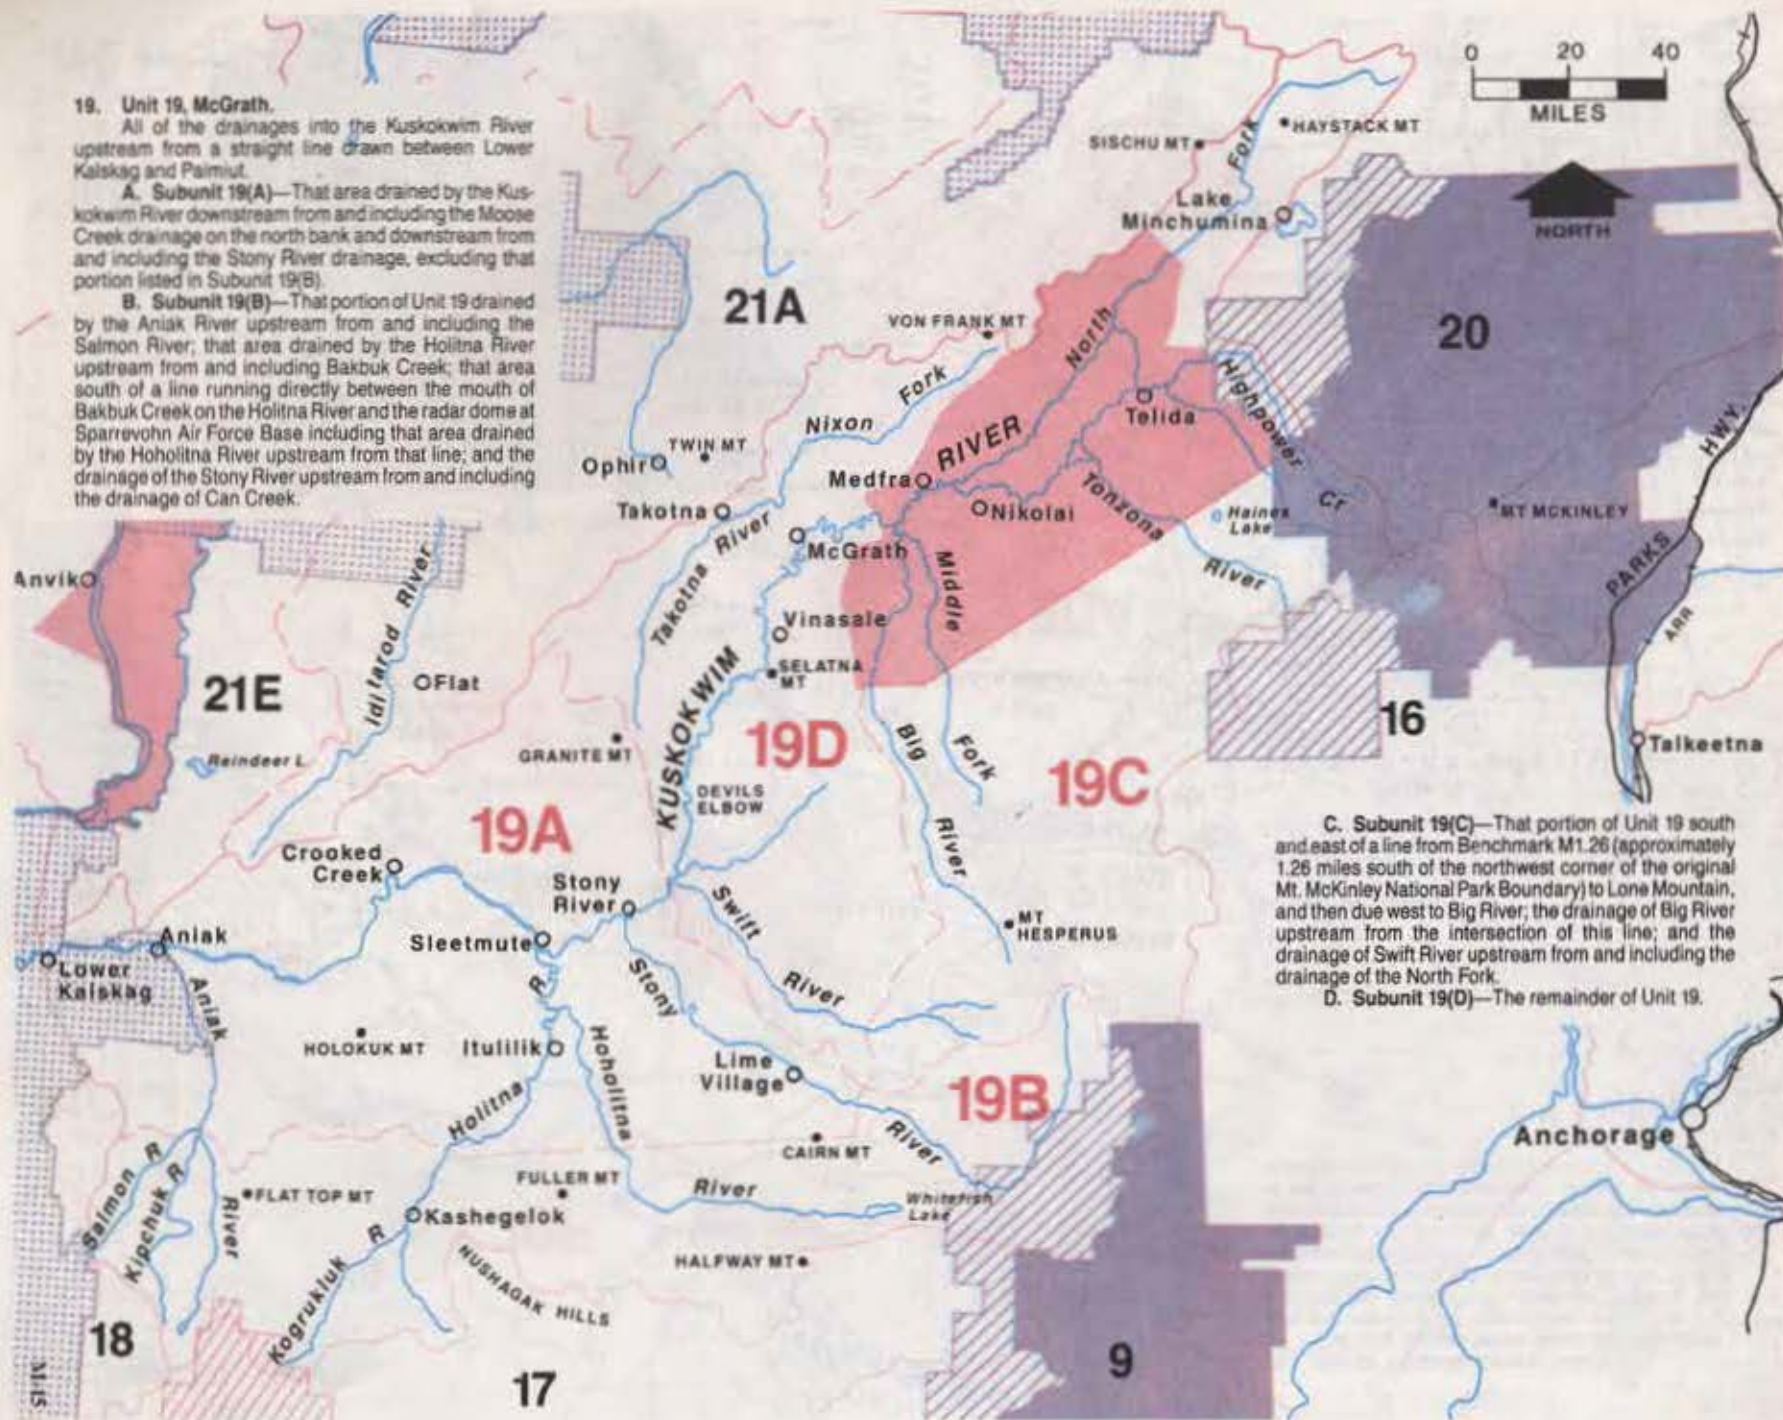

That area draining into the Yukon and Kuskokwim Rivers downstream from a straight line drawn between Lower Kalskag and Paimiut and into all streams flowing into the Bering Sea from Cape Newenham on the south to and including the Pastolik River drainage on the north; Nunivak, St. Matthew and adjacent islands.

19. Unit 19, McGrath.

All of the drainages into the Kuskokwim River upstream from a straight line drawn between Lower Kalskag and Palmiut.

A. Subunit 19(A)—That area drained by the Kuskokwim River downstream from and including the Moose Creek drainage on the north bank and downstream from and including the Stony River drainage, excluding that portion listed in Subunit 19(B).

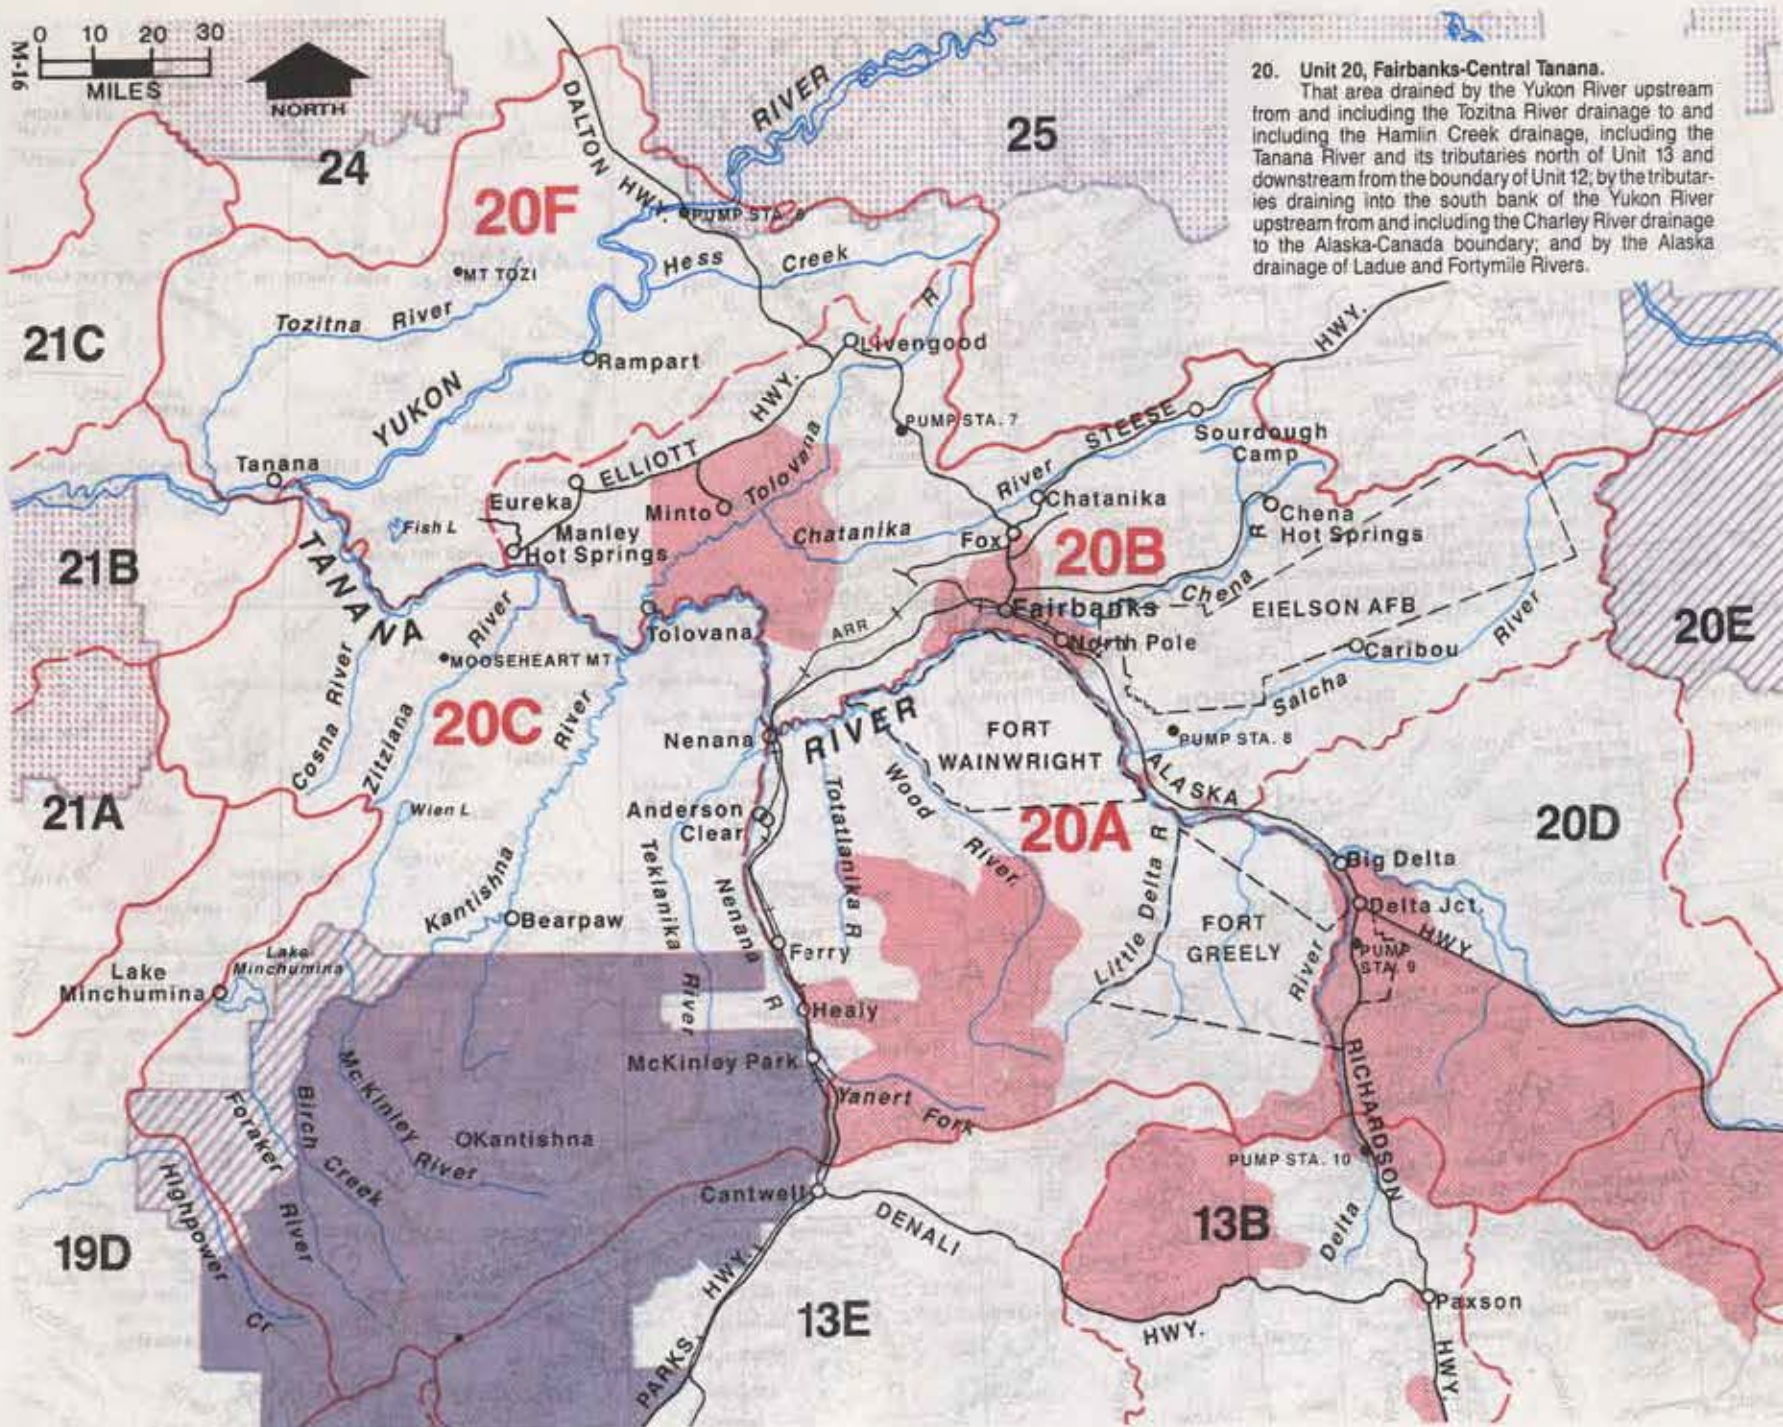

B. Subunit 19(B)—That portion of Unit 19 drained by the Aniuk River upstream from and including the Salmon River; that area drained by the Holitna River upstream from and including Bakbuk Creek; that area south of a line running directly between the mouth of Bakbuk Creek on the Holitna River and the radar dome at Sparrevohn Air Force Base including that area drained by the Hoholtna River upstream from that line; and the drainage of the Stony River upstream from and including the drainage of Can Creek.

C. Subunit 19(C)—That portion of Unit 19 south and east of a line from Benchmark M1.26 (approximately 1.26 miles south of the northwest corner of the original Mt. McKinley National Park Boundary) to Lone Mountain, and then due west to Big River; the drainage of Big River upstream from the intersection of this line; and the drainage of Swift River upstream from and including the drainage of the North Fork.

D. Subunit 19(D)—The remainder of Unit 19.

0 10 20 30
MILES

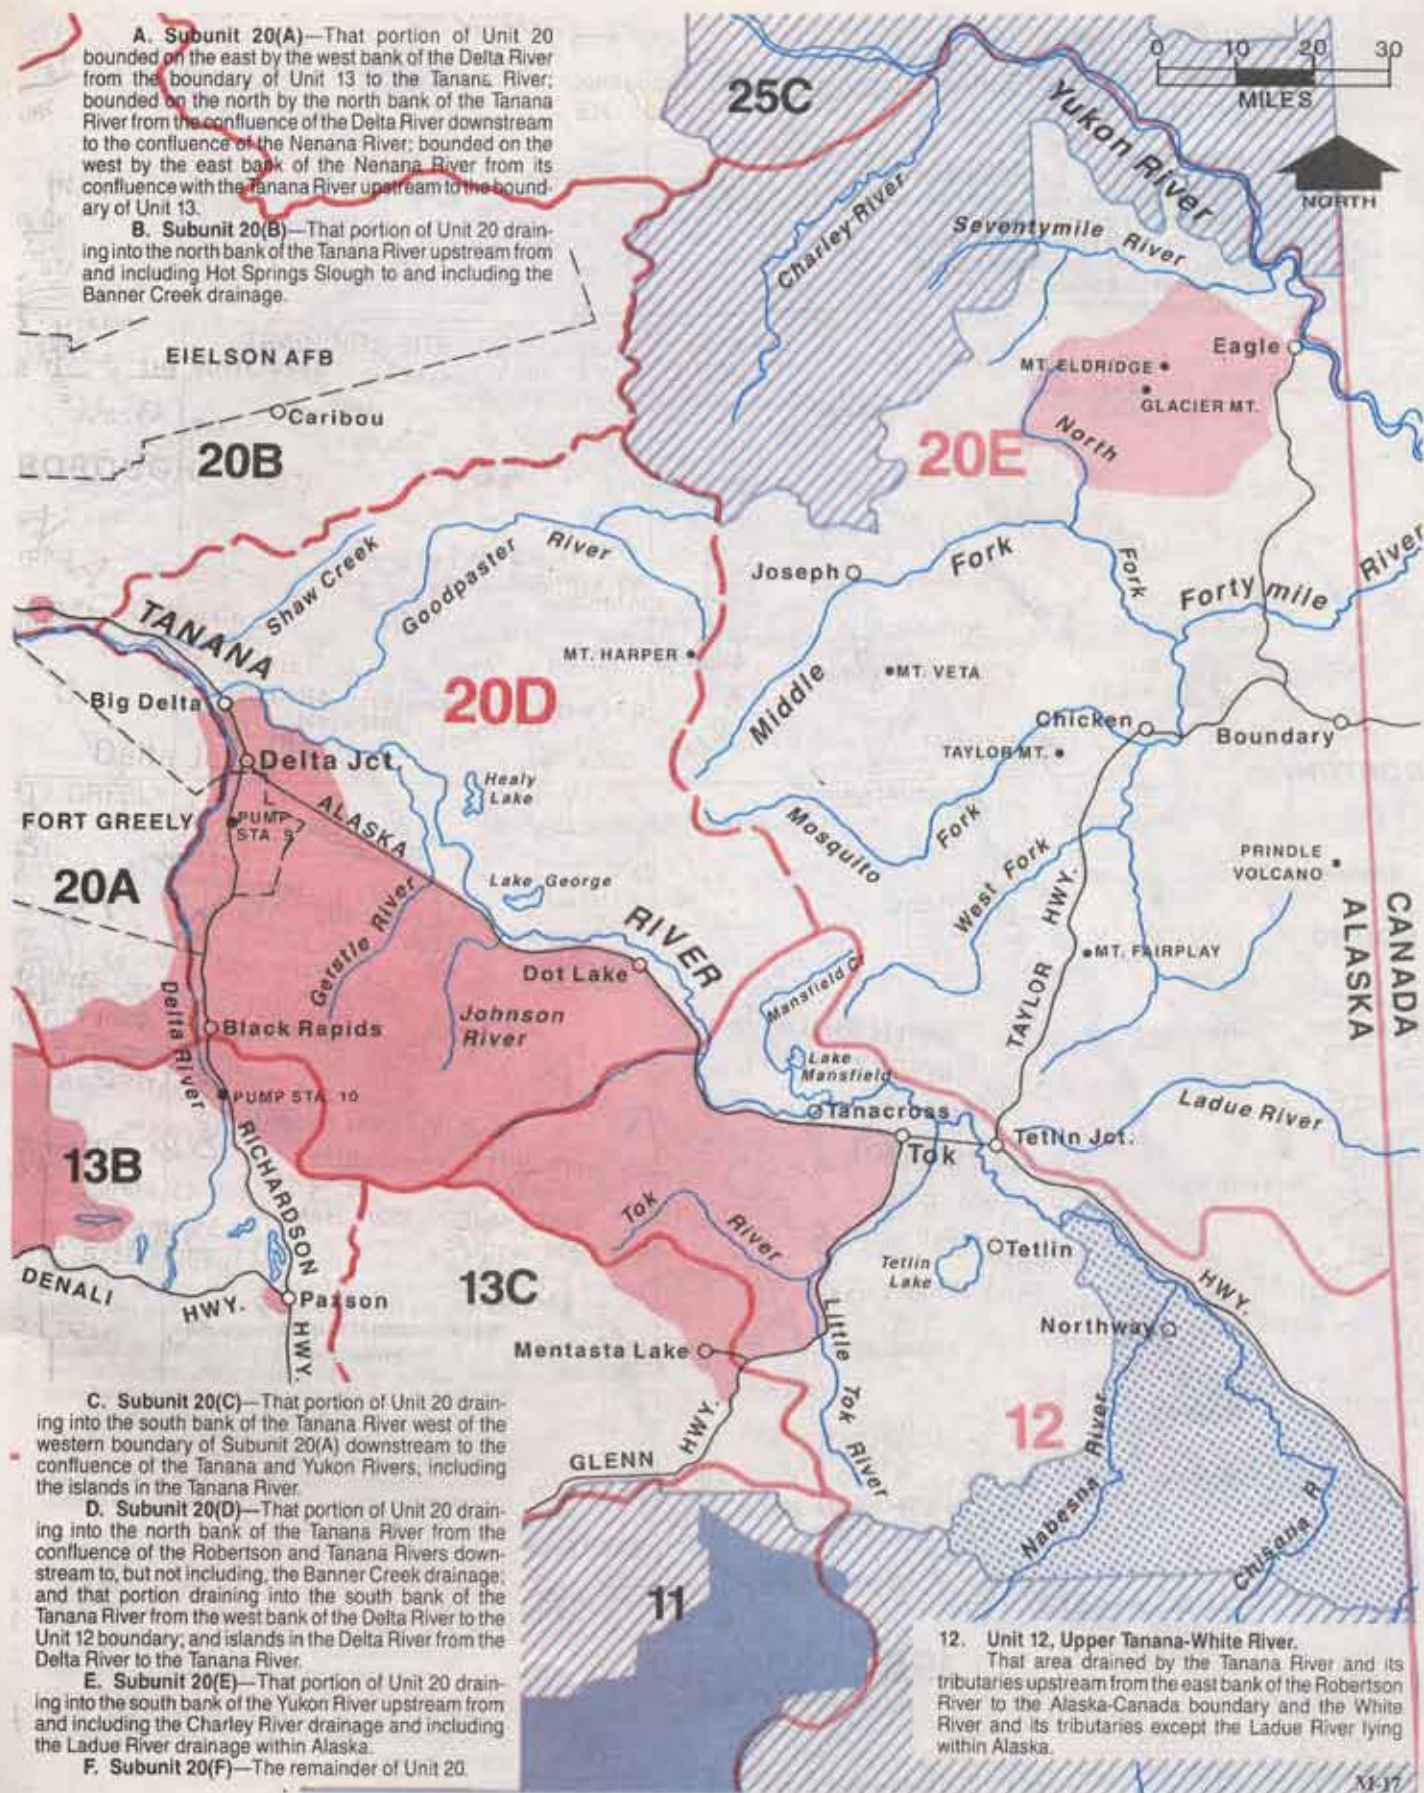

20. Unit 20, Fairbanks-Central Tanana.

That area drained by the Yukon River upstream from and including the Tozitna River drainage to and including the Hamlin Creek drainage, including the Tanana River and its tributaries north of Unit 13 and downstream from the boundary of Unit 12; by the tributaries draining into the south bank of the Yukon River upstream from and including the Charley River drainage to the Alaska-Canada boundary; and by the Alaska drainage of Ladue and Fortymile Rivers.

A. Subunit 20(A)—That portion of Unit 20 bounded on the east by the west bank of the Delta River from the boundary of Unit 13 to the Tanana River; bounded on the north by the north bank of the Tanana River from the confluence of the Delta River downstream to the confluence of the Nenana River; bounded on the west by the east bank of the Nenana River from its confluence with the Tanana River upstream to the boundary of Unit 13.

B. Subunit 20(B)—That portion of Unit 20 draining into the north bank of the Tanana River upstream from and including Hot Springs Slough to and including the Banner Creek drainage.

12. Unit 12, Upper Tanana-White River.

That area drained by the Tanana River and its tributaries upstream from the east bank of the Robertson River to the Alaska-Canada boundary and the White River and its tributaries except the Ladue River lying within Alaska.

21. Unit 21, Middle Yukon.

That area draining into the Yukon River from a straight line drawn between Lower Kalskag and Paimiut upstream to but not including the Tozitna River drainage on the north side of the Yukon River and up to but not including the Tanana River drainage on the south side of the Yukon River; and the Koyukuk River upstream to and including the Dulbi River drainage.

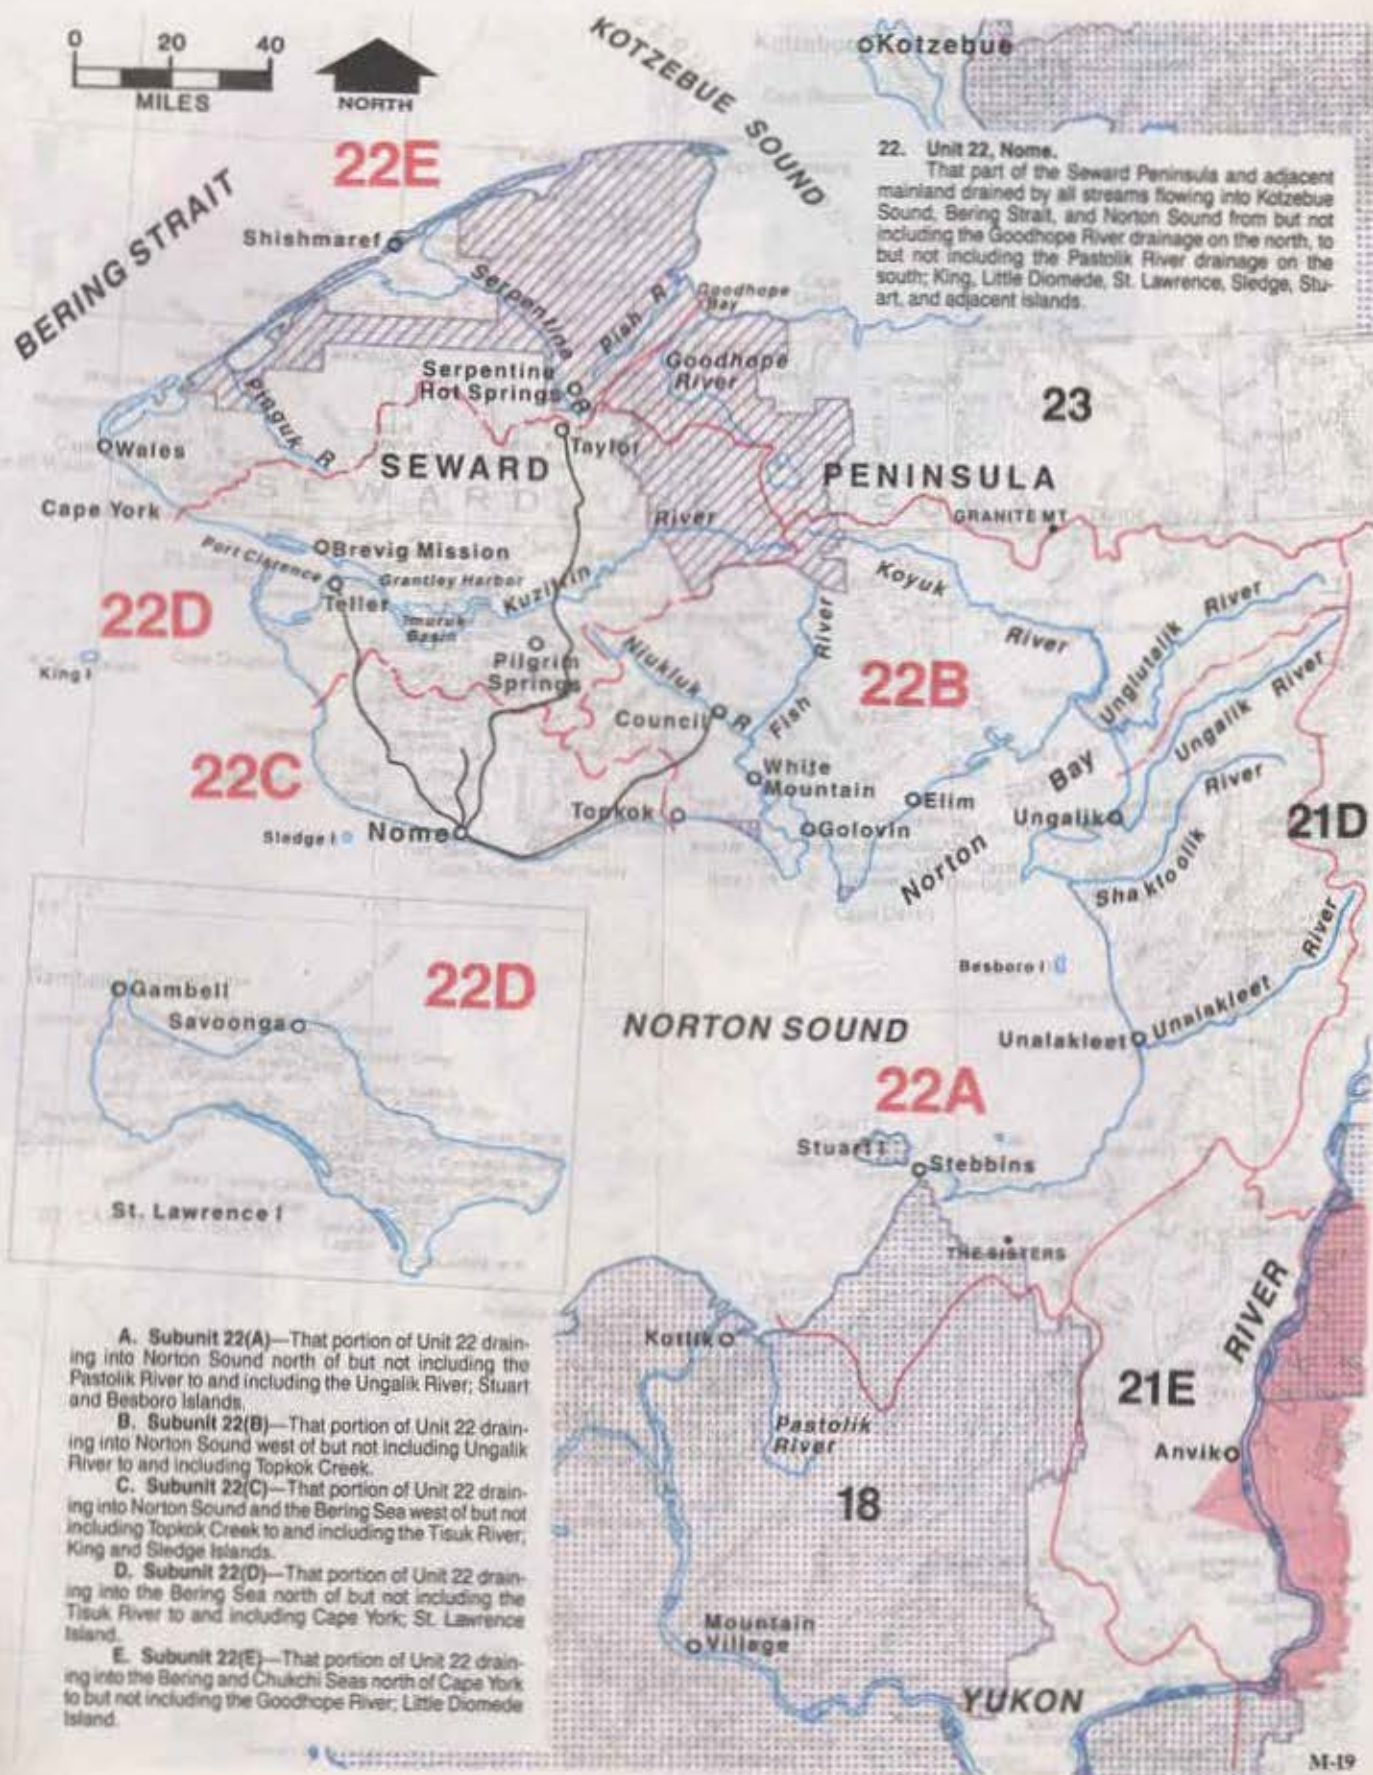

A. Subunit 21(A)—That portion of Unit 21 which includes the Innoko River drainage upstream from and including the Iditarod River drainage, and that portion of the Nowitna River drainage upstream from the confluence of the Little Mud and Nowitna Rivers.

B. Subunit 21(B)—That portion of Unit 21 drained by the Yukon River upstream from Ruby and east of a line from Ruby to Yuki Mountain to the northern boundary of Subunit 21(A), including the Sulatna River drainage.

C. Subunit 21(C)—That portion of Unit 21 drained by the Melozitna River upstream from the confluence of Grayling Creek and the Melozitna River, and the Dulbi River drainage upstream from and including the Cottonwood Creek drainage.

D. Subunit 21(D)—That portion of Unit 21 drained by the Yukon River upstream from and including the Blackburn Creek drainage to Ruby, including the Koyukuk River drainage in Unit 21, except that portion of the Dulbi River drainage in Subunit 21(C).

E. Subunit 21(E)—That portion of Unit 21 drained by the Yukon River from a straight line drawn between Lower Kalskag and Paimiut upstream to but not including the Blackburn Creek drainage, and the Innoko River drainage downstream from the confluence of the Iditarod and Innoko Rivers.

22. Unit 22, Nome.
That part of the Seward Peninsula and adjacent mainland drained by all streams flowing into Kotzebue Sound, Bering Strait, and Norton Sound from but not including the Goodhope River drainage on the north, to but not including the Pastolik River drainage on the south; King, Little Diomed, St. Lawrence, Sledge, Stuart, and adjacent islands.

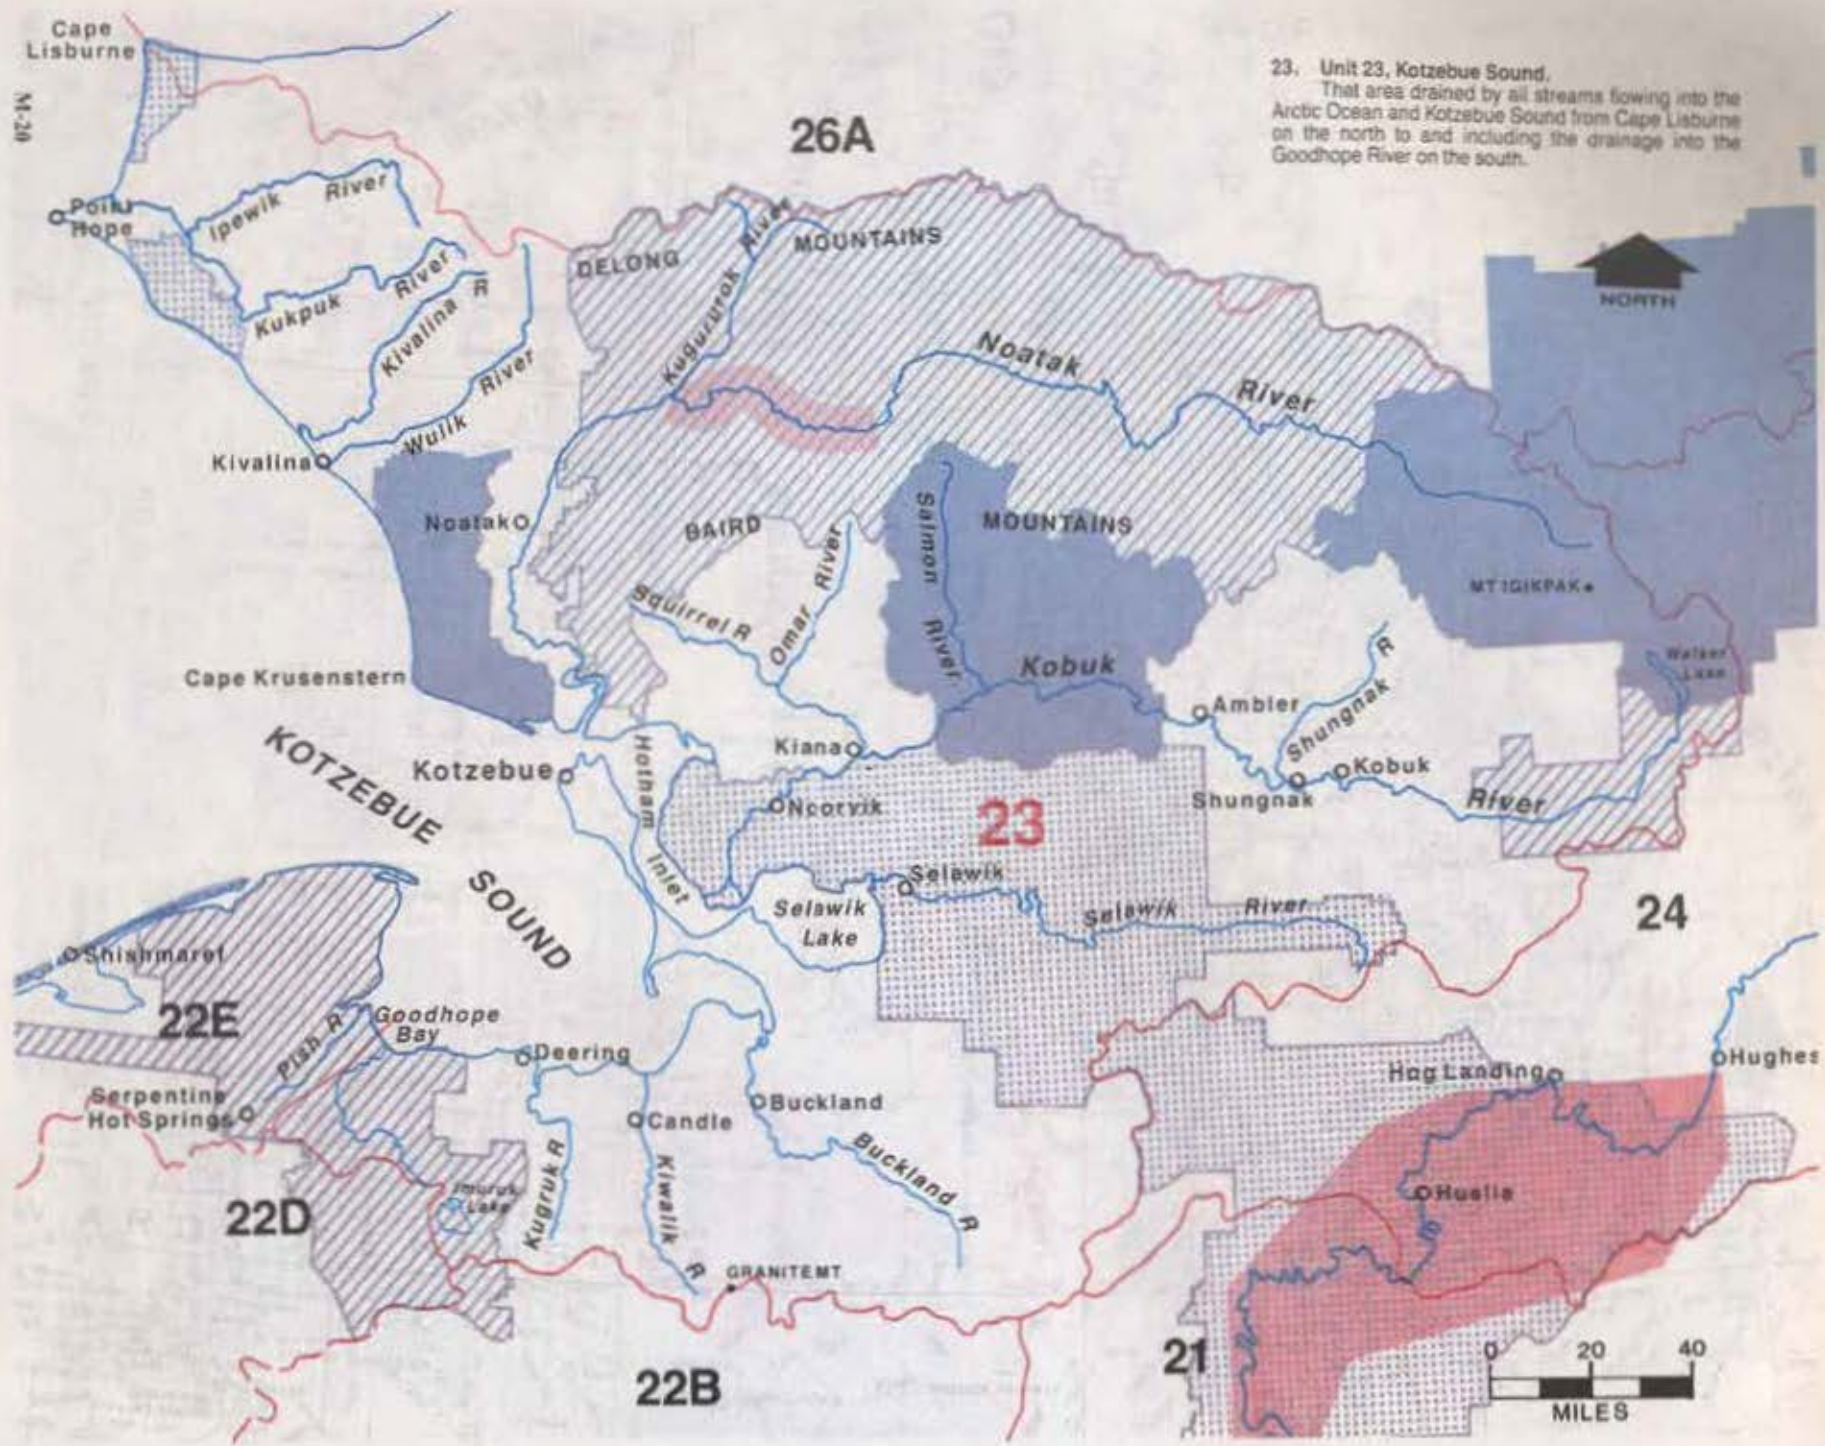

A. Subunit 22(A)—That portion of Unit 22 draining into Norton Sound north of but not including the Pastolik River to and including the Ungalik River, Stuart and Besboro Islands.

B. Subunit 22(B)—That portion of Unit 22 draining into Norton Sound west of but not including Ungalik River to and including Topkok Creek.

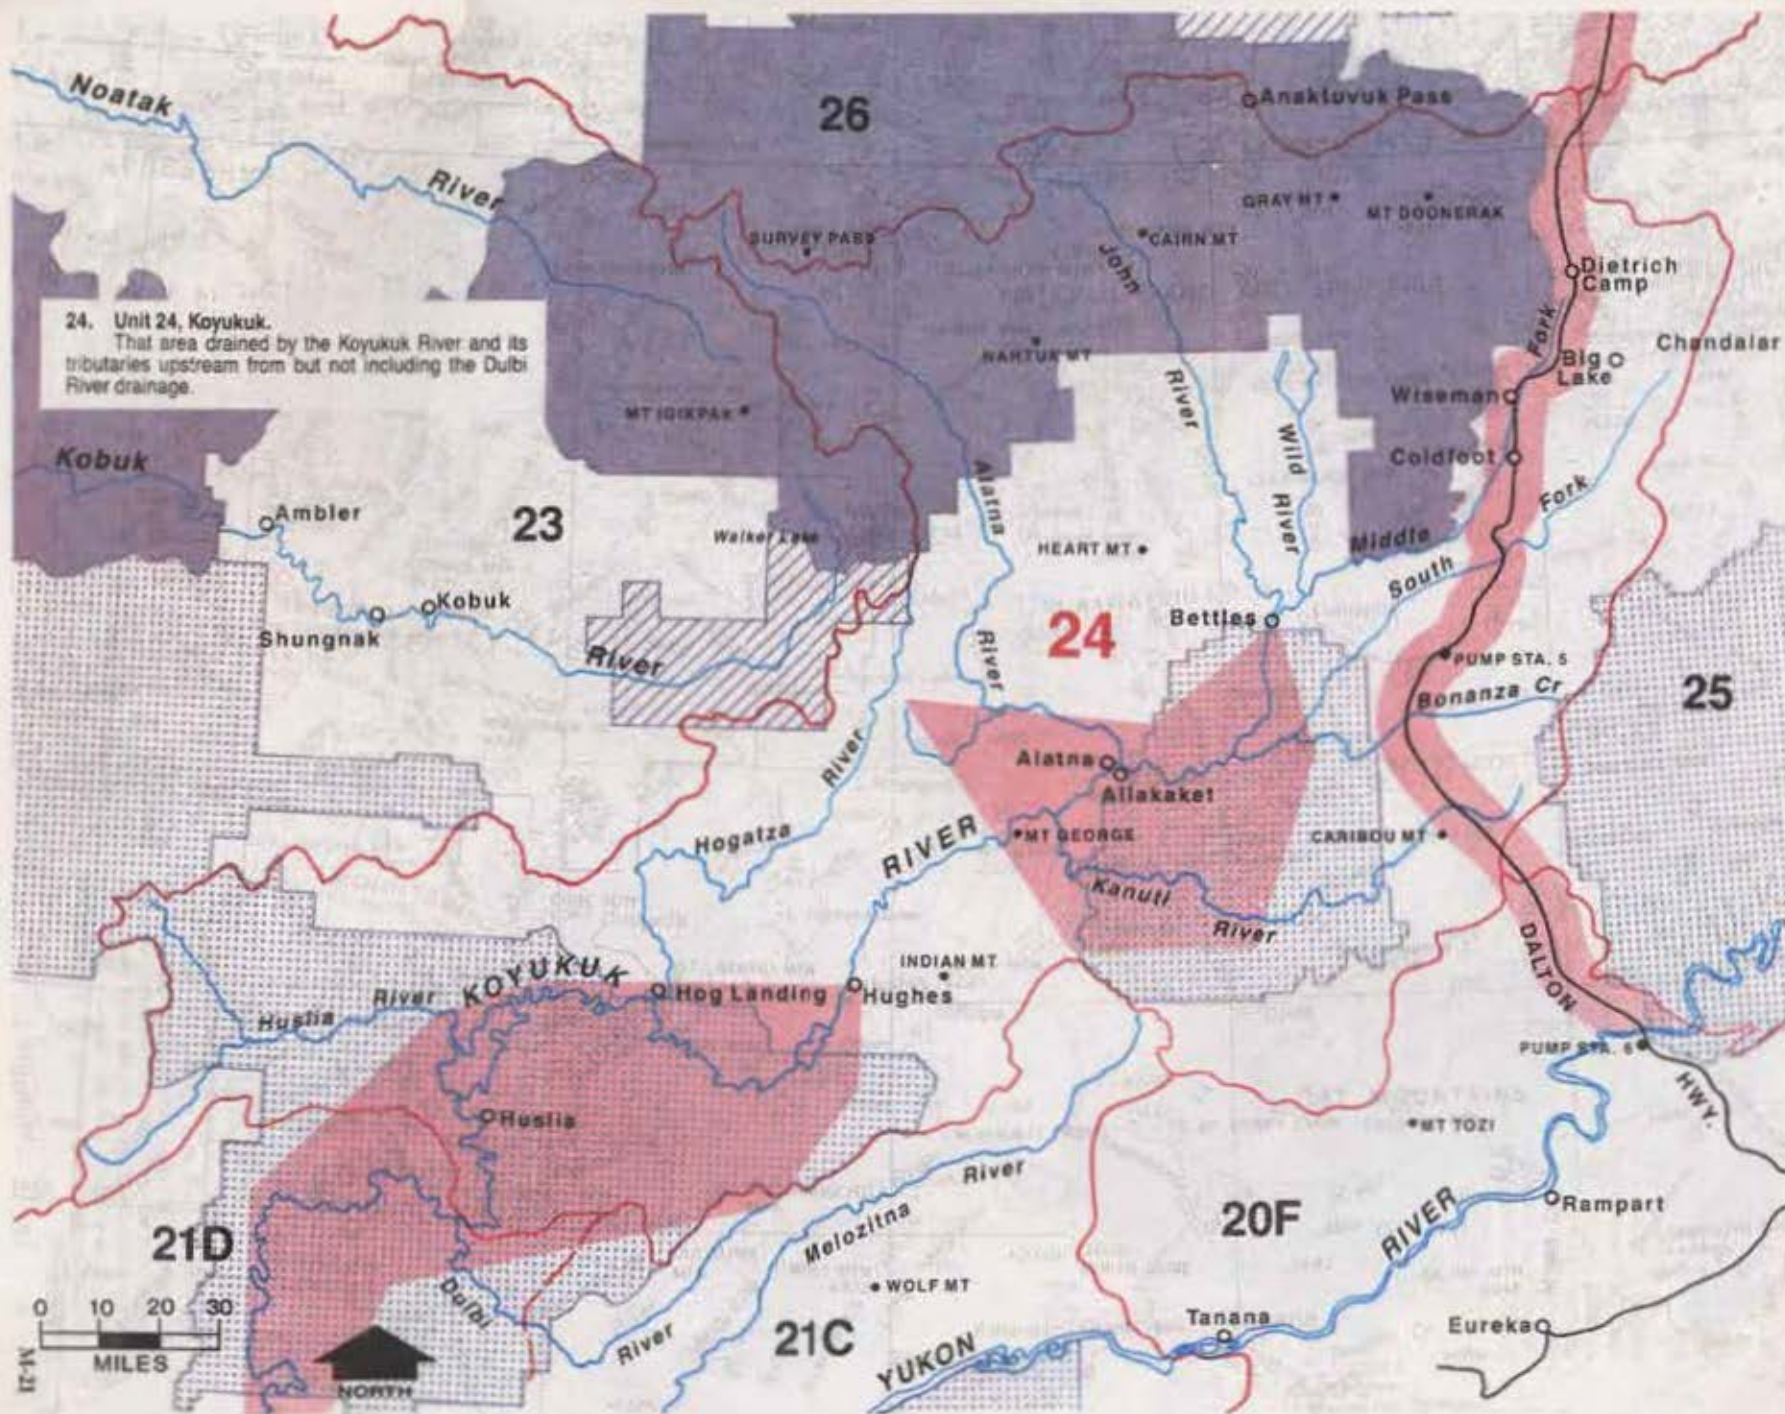

C. Subunit 22(C)—That portion of Unit 22 draining into Norton Sound and the Bering Sea west of but not including Topkok Creek to and including the Tisuk River, King and Sledge Islands.

D. Subunit 22(D)—That portion of Unit 22 draining into the Bering Sea north of but not including the Tisuk River to and including Cape York, St. Lawrence Island.

E. Subunit 22(E)—That portion of Unit 22 draining into the Bering and Chukchi Seas north of Cape York to but not including the Goodhope River, Little Diomed Island.

23. Unit 23, Kotzebue Sound.
That area drained by all streams flowing into the Arctic Ocean and Kotzebue Sound from Cape Lisburne on the north to and including the drainage into the Goodhope River on the south.

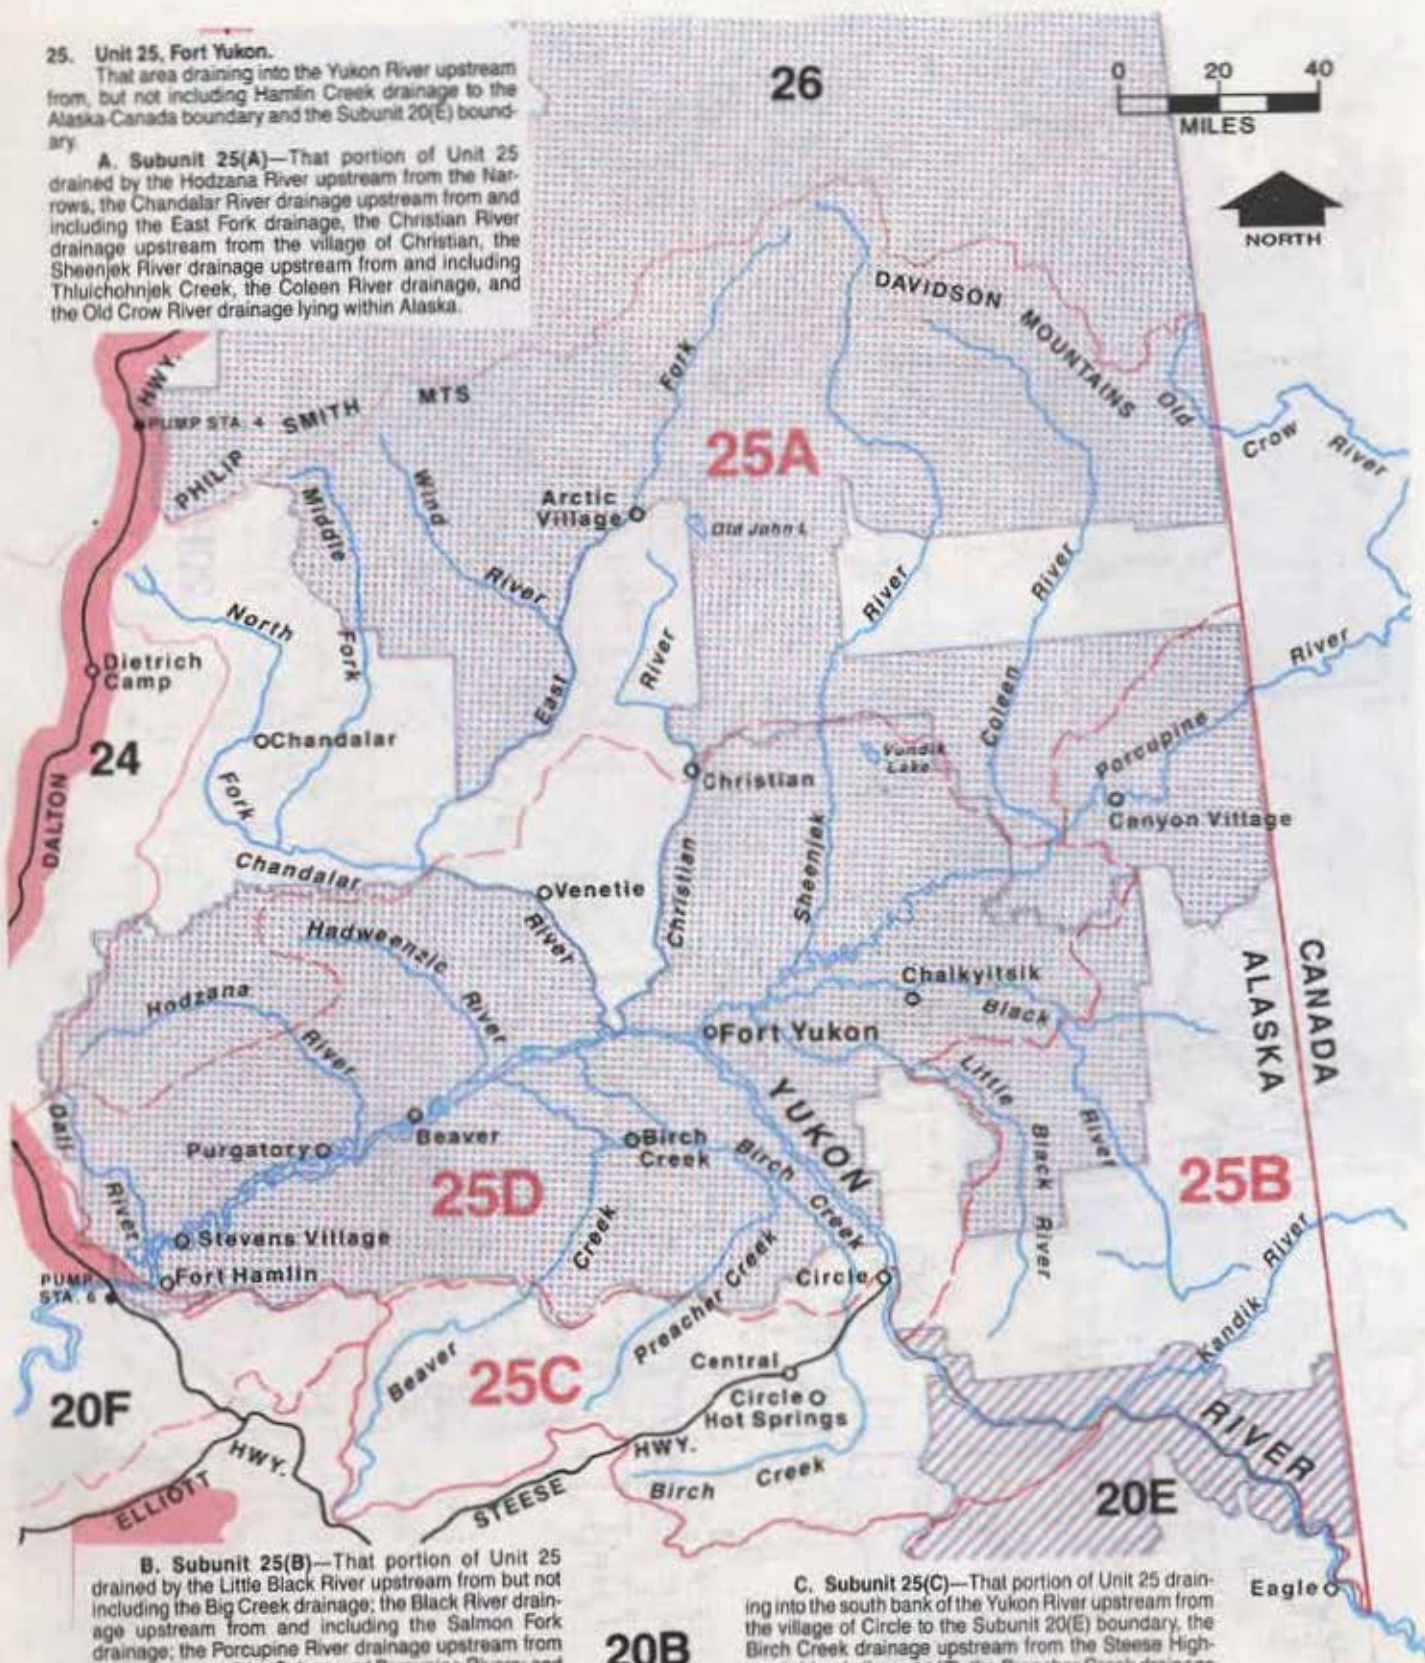

24. Unit 24, Koyukuk.

That area drained by the Koyukuk River and its tributaries upstream from but not including the Dulbi River drainage.

25. Unit 25, Fort Yukon.

That area draining into the Yukon River upstream from, but not including Hamlin Creek drainage to the Alaska-Canada boundary and the Subunit 20(E) boundary.

A. Subunit 25(A)—That portion of Unit 25 drained by the Hodzana River upstream from the Narrows, the Chandalar River drainage upstream from and including the East Fork drainage, the Christian River drainage upstream from the village of Christian, the Sheenjek River drainage upstream from and including Thluichohnjek Creek, the Coleen River drainage, and the Old Crow River drainage lying within Alaska.

B. Subunit 25(B)—That portion of Unit 25 drained by the Little Black River upstream from but not including the Big Creek drainage; the Black River drainage upstream from and including the Salmon Fork drainage; the Porcupine River drainage upstream from the confluence of the Coleen and Porcupine Rivers; and by the tributaries draining into the north bank of the Yukon River upstream from the village of Circle to the Alaska-Canada border, including the islands in the Yukon River.

C. Subunit 25(C)—That portion of Unit 25 draining into the south bank of the Yukon River upstream from the village of Circle to the Subunit 20(E) boundary, the Birch Creek drainage upstream from the Steese Highway bridge (milepost 147), the Preacher Creek drainage upstream from and including the Rock Creek drainage and the Beaver Creek drainage upstream from and including the Moose Creek drainage.

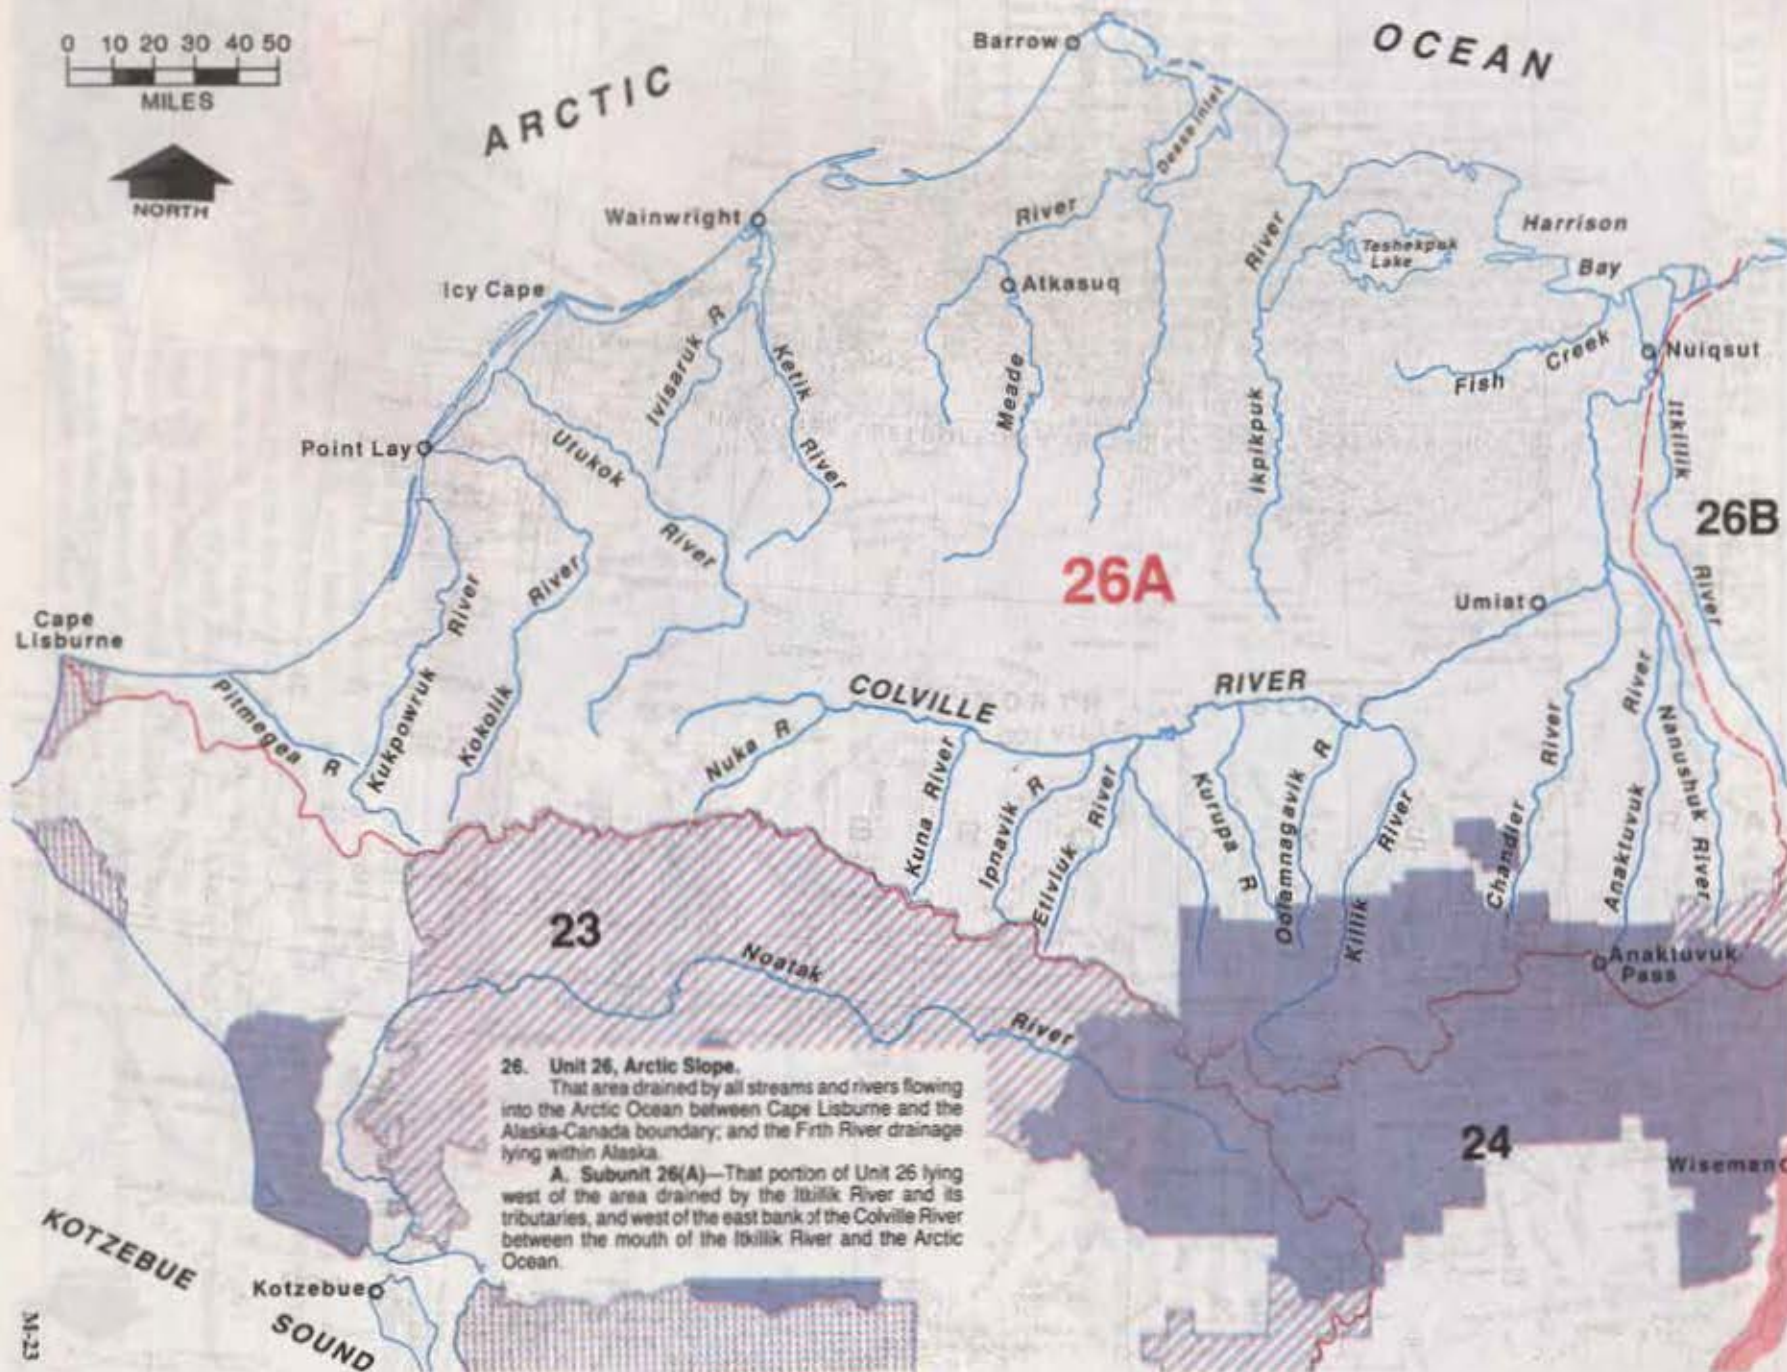

D. Subunit 25(D)—The remainder of Unit 25.

BIG GAME HUNTING. For areas within units where hunting is closed or subject to various restrictions, see Special Area Restrictions, page 11 to 17, for the unit in which you wish to hunt. Alaska statutes require the salvage of meat from all big game except bears, wolves, and wolverines. See Salvage of

Meat, page 7. For any hunt that is controlled by registration or drawing permits, see appropriate Permit Hunt Supplement for additional restrictions, provisions, and application procedures. Same-day-airborne restrictions apply to hunting of all big game, except deer. See 5 AAC 92.085(4), page 5.

Big Game Animals

Units and Bag Limits by Species	Code	Subsistence Open Seasons	Resident Open Seasons	Nonresident Open Seasons
BLACK BEAR				
Units 1, 2, 3, and 5. Two bears, not more than one of which may be a blue or glacier bear.		Sept. 1—June 30	Sept. 1—June 30	Sept. 1—June 30
Unit 6 One bear.		Sept. 1—June 30	Sept. 1—June 30	Sept. 1—June 30
Units 7, 9, and 11—26 Three bears.	F,E		No closed season.	

- Including the cinnamon and blue-color phases.
- In all units listed below, both the taking of cubs and the taking of females accompanied by cubs are prohibited.
- Permit required for hunting with dogs.
- Skins and skulls must be sealed taken in Units 1-7, 11-16, and 20 (See page 6).
- Parts of bears may not be sold (5 AAC 92.200).

BROWN BEAR

AND

GRIZZLY BEAR

- Bears taken in Units 8, 12, and 20(E) must be sealed within those units or in specified locations before being transported from those units.
- Please check your bear-sealing requirements on page 6.
- In all units listed below, both the taking of cubs and the taking of females accompanied by cubs are prohibited.
- People who have taken a brown/grizzly bear since July 1, 1985 (except for bears taken in Units 12 and 20(E), or in Unit 13 before July 1, 1987) cannot take another bear this year unless they hunt in Units 12 or 20(E).
- Parts of bears may not be sold (5 AAC 92.200)
- Nonresident hunters must be accompanied by a guide (see guides required for non-resident hunters, page 2).
- Resident brown bear tag required, except in Unit 20(E).

Units and Bag Limits by Species	Code	Subsistence Open Seasons	Resident Open Seasons	Nonresident Open Seasons
Unit 1 One bear every four regulatory years.		Sept. 15—May 31	Sept. 15—May 31	Sept. 15—May 31
Units 2 and 3		No open season		
Unit 4 , Chichagof Island south and west of a line which follows the crest of the island from Rock Point (58° N. lat., 136° 21' W. long.), to Rodgers Point (57° 35' N. lat., 135° 33' W. long.), including Yakobi and other adjacent islands; Baranof Island south and west of a line which follows the crest of the island from Nisimeni Point (57° 34' N. lat., 135° 25' W. long.), to the entrance of Gut Bay (56° 44' N. lat., 134° 38' W. long.), including the drainages into Gut Bay and including Kruzof and other adjacent islands. One bear every four regulatory years.		Sept. 15—May 31	Sept. 15—May 31	Sept. 15—May 31
Remainder of Unit 4 One bear every four regulatory years.		Sept. 15—May 20	Sept. 15—May 20	Sept. 15—May 20
Unit 5 One bear every four regulatory years.		Sept. 1—May 31	Sept. 1—May 31	Sept. 1—May 31
Unit 6 One bear every four regulatory years.			Sept. 1—May 31	Sept. 1—May 31
Units 7 and 15 One bear every four regulatory years.			Sept. 1—Oct. 15 May 10—May 25	Sept. 1—Oct. 15 May 10—May 25
Unit 8 , that portion of Kodiak Island east of a line from the mouth of Saltery Creek to Crag Point, and Spruce Island. One bear every four regulatory years by registration permit only.			Oct. 25—Nov. 30 Apr. 1—May 15	Oct. 25—Nov. 30 Apr. 1—May 15
Remainder of Unit 8 , One bear every four regulatory years, by permit only. Residents, and nonresidents accompanied by residents within the second degree of kindred, may take bear by drawing permit only; nonresidents guided by a registered, master, or Class A assistant guides may take bear by registration permit only.			Oct. 25—Nov. 30 Apr. 1—May 15	Oct. 25—Nov. 30 Apr. 1—May 15
Unit 9(C) , Naknek River drainage. One bear every four regulatory years by registration permit only.		Sept. 1—Oct. 31 May 1—June 30	Sept. 1—Oct. 31 May 1—June 30	Sept. 1—Oct. 31 May 1—June 30
Unit 9(D) , south and west of a line from Moffett Point to the eastern side of the eastern entrance of Kinzarof Lagoon, and north of a line from the base of Cape Glazenap to Frosty Peak to the mouth of Old Man's Lagoon. One bear every four years by registration permit only. This hunt will be held only if nuisance bears are present in the area. Hunt dates, if any, will be scheduled by announcement of the Commissioner.			Oct. 7—Oct. 31 May 10—June 30	Oct. 7—Oct. 31 May 10—June 30
Remainder of Unit 9(C), remainder of Unit 9(D), Units 9(A), 9(B), and 9(E).		No open season.		
Unit 10 (Uninak Island) One bear every four regulatory years by drawing permit only. 15 permits will be issued.			Oct. 1—Oct. 21 May 10—May 25	Oct. 1—Oct. 21 May 10—May 25
Unit 11 One bear every four regulatory years.	F		Sept. 1—Oct. 31 Apr. 25—May 25	Sept. 1—Oct. 31 Apr. 25—May 25
Unit 12 , that portion north of the crest of the Mentasta Mountains and west of the Nabesna River. One bear. Bears taken in this unit do not count against the one bear every four years bag limit in other units. However, no person may take more than one bear, statewide, per regulatory year. MOOSE ANTLER CONFORMATION

Top view of bull moose skull, about 50 inch antler spread, showing brow tines.

Mature bull moose, about 50 inch antler spread. (shaded area indicates brow palm and brow tines)

NOTICE TO MOOSE HUNTERS

Regulations restrict legal harvest of bull moose in several units (e.g. Units 9, 12, and 15) to bulls having an antler spread of 50 inches or more, or three brow tines on one side of the antler. Minimum legal size in most of Unit 13 is 36 inch spread or three brow tines on one antler except in a portions of 13(A). (See pages 9 and 10 for antler definitions.) The accompanying

illustrations are intended to provide general assistance to hunters in field identification of moose in these categories. It must be emphasized, however, that moose antlers vary considerably in conformation, and each hunter is responsible for judgements as to legality of animals taken. (See moose seasons and bag limits, Unit 9, 12, 13, and 15; also see definition of brow tine, page 8).
