

**EXPLANATION**

- 500 — Structure contour. Shows altitude of top of rocks of Miocene age. Interval 50 feet. Datum is sea level.
- - - Approximate updip limit of Miocene rocks
- U / D — Fault—Vertical or nearly so  
U Upthrown side  
D Downthrown side
- Area of outcrop or shallow subcrop of rocks of middle or late Miocene age
- ▨ Area of Tampa Limestone outcrop or shallow subcrop
- ▩ Older rocks exposed through unit
- Well control point

Structural surface of rocks of Miocene age.
