

TOPOGRAPHIC MAPS PUBLISHED AT THE SCALE OF 1:250,000

Alaska is covered by 133 maps at this scale, all of which are published. No USGS following the name indicates that both number and shaded relief editions are available. Orders should specify which edition is desired, otherwise the current edition will be furnished. The date below the name is the date of revision. An (R) following the date indicates that it is a part of the Reconnaissance Series, which is being replaced by the Standard Topographic Series.
