SUPPLEMENTARY INFORMATION:

A. Introduction

On October 8, 1991, a federal court approved settlement between the State and Federal Governments and Exxon under which Exxon will pay \$1 billion in criminal restitution and civil damages to the governments. The State and Federal Trustees will receive \$900 million in civil damages from Exxon over the 10 years. The funds are to be used to restore to their pre-spill condition the natural resources and the services they provide, injured by the Exxon Valdez oil spill. This includes the restoration of any natural resources injured, lost or destroyed and the services provided by that resource or which replaces or substitutes for the injured, lost or destroyed resource and affected services. Restoration includes all phases of injury assessment, restoration, replacement, and enhancement of natural resources, and acquisition of equivalent resources and services.

All decisions about restoration and uses of restoration funds are made by six natural resources Trustees, three Federal and three State. The three Federal Trustees are: The Administrator for the National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and the Secretaries of the Department of Agriculture and of the Interior. The three State Trustees are: The Commissioners of Fish and Game, and Environmental Conservation, and the Attorney General. A Trustee Council, located in Alaska, composed of the three State Trustees and designees of the three Federal Trustees, is responsible for decisions relating to the assessment of injuries, uses of the restoration funds, and all restoration activities including the preparation of a Restoration Plan.

On April 10, 1992 (57 FR 12473-12475) on behalf of the Exxon Valdez Trustee Council, the Forest Service published a Notice of Intent to prepare an EIS on the Restoration Plan. This was later revised on January 14, 1994 (59 FR 2352-2353).

The Trustee Council released a Draft Restoration Plan in November 1993, which was the proposed action for the analysis conducted in the FEIS. The

Draft Environmental Impact Statement (DEIS) was released for public comment on June 17, 1994 (59 FR 31181) followed by a 45-day comment period ending on August 1, 1994.
