Subject: Point Thomson Unit Boundary (RFI No. 78)
ExxonMobil Development Company
Point Thomson Gas Cycling Project

Dear Mr. Rockwell:

ExxonMobil Development Company (ExxonMobil) is pleased to provide the current boundary for the Point Thomson Unit as provided by the Cartography Department at BP Exploration (Alaska), Inc. This information is being provided to the EPA and the EIS Contractor (CH2M Hill) in support of the proposed Point Thomson Gas Cycling Project, and addresses the request for a GIS file (ArcView Shapefile format) delineating the unit boundary.

In addition to the attached hardcopy, an electronic copy has been provided to CH2M Hill. ExxonMobil developed this transmittal to satisfy RFI No. 78 as presented by CH2M Hill in the EISrfiTracking database.

Sincerely,

Larty D. Harms
Regulatory Manager

Subject: Pt. Thomson - Revised Unit Boundary (EIS-RFI No. 78)

Gar,

Here is the latest version of the Point Thomson Unit from cartography group at BP Exploration (Alaska), Inc. This boundary reflects a contraction after the Red Dog leases were released. The GIS file (ArcView shapefile) is based on ASP 3, NAD27. This submittal addresses EIS-RFI No. 78 as noted in the EISrftTracking Database provided to ExxonMobil on April 21, 2002.
